China *CDT MAKER* Contact Meeting

[Handwritten:]  
Respectfully submitted  
→ Each committee member

Yu, Chen 11/12'98, Chen 11/12'98, Hua Wu 11/13'98, Shue-Xing Jiang 11/23'98

Date: *NOV.06*, 1998

Location: Xian

Meeting Attendees:

*CPTF*: Section Chief Chung-Cheng (Alex) Yeh, Guang-Hui Tai

*PHS*: Sales Manager Zhen-Xi Shao, (Huafei) President Jian-Zhong Sheng,  
(Huafei) Manager Bing Ma

*SSDD*: Department Manager Myoung Sik Lee, Zhen Yang

*ORION*: Section Chief Tae Sik Kong (*TAE.SIK.KONG*)

*IRICO IRICO*: Vice President Jian-She Wei, Sales Manager Wei-Sheng Lee, Assistant  
Sales Department Manager Jun Yao, Zhao-Jie Wang

*BMCC*: Xing-Wen Wang

Host: *IRICO* Chairperson: *PHS* Zhen-Xi Shao

Meeting Content:

I. Sales Information Exchange by Each *CDT MAKER*

The main points of the *CRT* makers' sales information exchange are indicated as follows: Each *CDT MAKER*'s sales in 4<sup>Q</sup> of year '98 and its estimated production volume in year '99 are attached. (Attachment 1)

- 1) *CPTF*: Meeting attendees are concerned about the progress of *CPTF 15" CDT*. *CPTF* claimed that because the *DY* material supply is tight, the estimated production sales in November are 30K. The estimated production for December is 70K.
- 2) *SSDD*: **estimates that 15" CDT of Samsung Factory, Tianjin will M/P in June of year '99, but *SSDD* (Samsung Shenzhen) will organize sales operations. *SSDD* will utilize a modified Fushan 14" CDT line to progress with 17" CDT production, estimated to M/P in September of year '99.** In addition, because Tianjin Samsung monitor factory has restricted production capacity, the production capacity in year '98 will only be about 40K/M. The estimated year '99 production capacity is 300K/year (mainly 15" CDT). Furthermore, *MR. Lee* claimed that *SSDD* profited from *CPT* last month, but still not from *CDT*.
- 3) *Huafei*:

---

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

A) The November 14" sales orders were not good. Currently there are 40K orders confirmed. November's target is 70K. The main source of orders is still internal demand (the two companies *PH* Brazil/Dongguan, mainly).

B) Because of problems with funding, *PHS*(Zhubei factory) may still not consider moving its 15"CDT to China in year '99, but plans to alter parts of the equipment to progress with 15"CDT production at Huafei. Therefore, even though the 14" orders are not good in November/December, the whole line will go into utilization. The purpose is to build some inventory for supplying during the possible line-stoppage period in year '99. In year '99, the 14"/15" production plan may be 1600K/0K or 800K/400K. It all depends on the decision about whether to convert lines in the beginning of year '99.

C) In October, the 14" sales consisted mainly of the 60K *PHS*(Brazil/Suzhou) internal demand. It has been confirmed that the 40K November orders [Handwritten: "purchase"] also consist almost entirely of *PHS* (Brazil/Dongguan) internal demand, of which the Dongguan factory has 18K. According to news, there will be an increase of *PSH*'s(Brazil/Dongguan) orders. Therefore, given reason B) described above, the plans for December sales are higher than the November numbers. In addition, Mr. Shao claimed that *PHS* 15"CDT sales to Taiwan makers in China consist mainly of *AOC/EMC*, about 30K combined. Sales to *PHS*(SZ) should be above 40K.

4) *IRICO* (IRICO):

A) 15"CDT ONE LINE will start to output in March of this year. This line's greatest production capacity is 60~70K/M. Because of main materials cannot be obtained easily from *TSB*, has high prices, and other such factors, in September, it will stop operation for one month, and begin utilization again in October. The estimated production target for year '98 is up to 200K/year, of which 80% will be sold to Caihuang.

B) Since Japan *TSB CKD*'s costs are still higher than the selling price, the more it sold, the more it was in deficit. Only that under the policy of making purchasing autonomous, the *IRICO* deflecting factory can already supply 20K/M of *DY*, one of the main materials. In addition, *FUNNEL* can also be self-made beginning December.

5)

---

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

*BMCC:*

A) Sales in October were not good. The main sales target was Matsushita Philippines. As far as *ACER(SZ)* goes, in the recent months, there has been no correspondence

**B) The individual production estimates for 14"/15" are 80K/400K in year '99, of which the 14" CDT production is estimated to end in February. Estimates are that after the February spring festival, the 15" CDT equipment alteration can be completed, still with a production capacity of 40~50K/M.**

- 6) *ORION*: In October, orders were not good mainly because China has recently strengthened its attack on smuggling. This greatly affects the import smuggling of monitor factories in the Huanan area that does primarily domestic sales. This is why according to its customer, there are still 14K that have not been picked from the containers that stopped at Hong Kong in September.
- 7) *PHS* provided the China area 14" CDT production forecast for year '98/99 (please refer to attachment 1). The estimated China area makers' production volume in year '98 is about 7.405KPCS. In year '99, the estimate is about 5,630KPCS.

Year '98 October ~December Sales Status/Year 99 Estimated Production Volume (Table 1)

Unit: K PCS

Maker	Size	'98 October Production/Sales Inventory			'98 November Production/Sales Inventory		'98 December Production/Sales Inventory		'99 Year planned volume	Comments

CONFIDENTIAL – GRAND JURY MATERIAL

CHU00030685.01E

Translation

- 1) *ORION* reacted first. Because China recently strengthened its policy to attack smuggling, this greatly affects the customers of its monitor factories in the Huanan area that do primarily domestic sales. Currently, its outbound quote is 14”S/S US\$50. Given the customer-related factors of freight costs, tariffs, and foreign exchange regulations, it cannot compare with China *LOCAL* supply to other *CRT* makers. Customers absolutely do not accept.  
 [Hand-drawn star] ***ORION indicated that they are in unison with LG They hope to lower the USD quote or raise the RMB pricing coefficient (currently 10.4.) Otherwise, with no orders at all, they can only back out of the regular CRT MEETING.*** Each maker responded as follows:

A) Because makers attending the meeting believe that lowering the USD quote already surpasses each factory’s local authority, and because during the second wave *CRT* increase in October, China *MONITOR* makers did not fully react to its *BUYER*, therefore, currently, in the China area, there are no external conditions to support increasing the RMB quote.

B) *SSDD MR.* Lee originally brought up the consideration to quote higher than *ORION* to give some of its import customers to *ORION* for continued sales. However, then, because *ORION*’s main customer are Xococo, Beijing Founder Electric Co., and China Great Wall, *MR.* Lee finally negated his own suggestion because he cares about these customers.

Conclusion: **Request that each factory reflect *ORION*’s problem to headquarters. *PSH Mr. Shao* will be responsible for notifying each factory of the headquarters’ final decision.**

[Handwritten with arrow from hand-drawn star:]

1. Currently, imports are quoted x 10.4. The integrated tax rate is about 25%, just the tax the *CRT* factory passes up. It also been completely reflected to customers. [Illegible and crossed out] It would be unreasonable to raise it any more. Customers would not accept it either.
  2. Lowering the USD quote would even further cause market frenzy. It is even less doable.
- 2)

---

English words found in the original text are *italicized*.  
 Translator’s remarks are indicated in brackets [ ].

*IRICO*: Meeting attendees designated the bottom line price for 15" internal/external transactions to *IRICO* as follows: (*BASED ON S/S ITC TYPE*)

A) *IRICO*'s internal transaction price for Caihuang is (*US\$60x10.4=RMB quote, tax included*)

B) For its other customers, because *IRICO*'s quality and efficiency are poor and the volume is limited, it uses (*US \$62 or 63X10.4=RMB quote, tax included*)

3) *BMCC*:

*BMCC*'s October orders were extremely bad (14K). Its main customers were Caihuang and Founder Electronics, with demands of about 10K/M each. *BMCC*, however, did not order in October either. With respect to its 2 main customers, *BMCC* honestly admitted the it uses *US\$48X10.0* as the RMB internal quote for the *S/S TYPE*. Nevertheless, the *CDT MAKER* at the meeting all oppose *BMCC*'s double allowance with USD and RMB auditing coefficients (The official domestic sales RMB quote should be *US\$50x10.4*). After negotiations, makers finally agreed to *BMCC*'s lowering its quotes to its 2 main customer by *US\$1* (and to use *US\$47* as the *BASE* immediately), but it must *KEEP* its domestic sales coefficient of 10.4. Also, meeting attendees hope that everyone makes partial allowances. They hope that they can use *US\$48x10.4* as the internal quote with *AOC*.

Conclusion: ***BMCC* will use *US\$47x10.4* as the quote to its main customers (Caihuang/Founder Electronics); however, *CPTF* opposes *AOC* using *US\$48x10.4* as its domestic sales quote. It believes that currently it should coordinate the supplying of 14"/15"/17" with *AOC*. Even if *BMCC* uses such pricing it would not have orders.**

4) *SSDD*:

A) *CPTF/PHS* both claim that there is often noise on the market with regard to *SSDD* selling B tubes. *MR. Lee* replied with a slight tone of complaint that without verification and definite evidence, *PHS* conveyed to headquarters that *SSDD* is selling B tubes to a Beijing customer, causing the headquarter boss to question him. *PHS*'s *Mr. Shao* explained that he will strengthen usual contact and confirmations, and apologized to *MR. Lee* about *PHS*'s careless reaction process.

B) *CPTF/PHS* both claim that that they've heard about *SDD*'s having *F.O.C. (free of charge)* on the market. It seems to be a disguised price decrease. *MR. Lee* then claimed that because they did not recall the defective tubes, this is to discount the defective tubes.

Conclusion: ***CPTF/PHS* suggested that *SSDD* recall the defective tubes or let its engineers cut off or destroy the *PIN* to avoid their being used for sale. In**

**addition, it requested that SSDD separately process its INVOICE for normal shipments and INVOICE for discounts [Underlined by hand]. SSDD agreed and asked PHS to supply related documents and procedures for reference.** [Handwritten with arrow from underlined text:] It should be *replaced*. Because even if the *invoice* is handled separately, there is no way to distinguish whether it is a *rebate*.

III. Others:

1. In consideration and evaluation of the rapid atrophy of the 14" CDT and for the healthy development of the CDT industry, MS. Lee promised to be responsible for contact, and to arrange an integration meeting with the makers of large size monitors in the China area.
2. Because each maker has heard a lot of noise on the 14" market, they believe that the price may loosen after 4Q. Therefore, the meeting attendees achieved a unified approach and a common understanding, hastening each sales department to deliver the message as follows: "It is impossible for the prices to drop. If there are signs of oversupply, then it will be handled with reducing production."
3. BMCC will run the next meeting in Beijing. Time: 12/4

– End of report –                      Submitted for approval

[Handwritten:]

1. CPT/PHS/ORION all challenged [Illegible] SSDD about what they have heard about SSDD selling B tubes and disguising the FOC price decrease; however, SSDD denied this and argued that it was compensating for defective tubes. There would be no rumors if there were not some truth to it, so they requested that SSDD manage itself.

2. In 4Q of year '99, SSDD will still have 1 line each of 14"/15"/16" [Illegible] in China. In comparison, the competitive advantage has strengthened.

3. ORION threatened during the meeting that if the domestic sales coefficient were not increased, then it would lower the USD price. Meeting attendees think that it is natural for ORION not to be able to compete with the companies that have built factories in China. They cannot use this to unreasonably request that others increase their domestic sales price or independently lower USD quotes. Please have headquarters discuss this with ORION upper management.

Respectfully submitted by Employee Guang-Hui Tai NOV. 8, 1998

各委員 陳永昌  
宋 11/13/98  
大陸 CDT MAKER 聯繫會議

李 11/13/98  
吳華 11/13/98

時間：NOV.06, 1998

地點：西安

與會人員：

CPTF：葉俊正課長、戴光輝

PHS：邵正璽業務經理、(華飛)盛建忠總經理、(華飛)馬冰經理

SSDD：李明植部長、楊真

ORION：孔泰植(TAE.SIK.KONG)課長

彩虹 IRICO：魏建社副總、李衛生銷售經理、姚軍營業部副部長、王昭杰

BMCC：黃新文

主辦：彩虹集團公司 主席：PHS 邵正璽

會議內容：

一、各 CDT MAKER 產銷訊息交流

茲將 CRT 廠商產銷訊息交流重點說明如下：各 CDT MAKER'98 年 4Q 產銷及'99 年預計生產量狀況如後附(表一)

- 1) CPTF：與會各家關切 CPTF 15" CDT 進度。CPTF 稱因 DY 備料供應吃緊，11 月預計生產銷售 30K，12 月預計生產 70K。
- 2) SSDD：天津三星廠 15" CDT 預計於'99 年 6 月 M/P，但由 SSDD(深圳三星)統籌銷售工作，而 SSDD 則將利用釜山 14" CDT 線加以修改以進行 17" CDT 生產，預計'99 年 9 月 M/P。另，天津三星監視器廠因產能受限，'98 年產能約 40K/M，'99 年產能則預計 300K/年(15" CDT 為主)。此外，MR.李稱 SSDD 上個月 CPT 有獲利，但 CDT 則仍無獲利。
- 3) 華飛：
  - A) 11 月 14" 銷售訂單差，目前確認的訂單有 40K，11 月以 70K 為目標。主要訂單來源仍以內需(PH 巴西/東莞兩廠為主)。
  - B) 因資金問題 PHS(竹北廠)'99 年 15" CDT 可能仍不會考慮遷移至大陸，但擬改部份設備在華飛進行 15" CDT 生產。因此，14" 11/12 月訂單雖不佳亦全線稼動，目的在積些庫存以因應'99 年可能停線時之供應。而'99 年 14" /15" 生產規劃可能為 1600K/零 K 或 800K/400K，全俟'99 年初是否改線之決策而定。
  - C) 14" 10 月份銷售上以內需 PHS(巴西/蘇州)60K 為主；11 月份已確定之訂單 40K 中亦幾乎為 PHS(巴西/東莞)內需，其中東莞廠達 18K；12 月份則據悉 PSH(巴西/東莞)之訂單應會增加，因此在上述 B) 原因下，12 月產銷計畫高於 11 月份數量。另邵'R 稱 PHS 15" CDT 銷售於台商大陸的部份主要為 AOC/EMC，合計約 30K 左右，銷售於 PHS(SZ) 則應在 40K 以上。
- 4) IRICO(彩虹集團)：
  - A) 15" CDT ONE LINE 於今年 3 月始產出，該線最大產能為 60~70K/M，但因主要材料自 TSB 取得不易且價高等因素，9 月停工一個月，於 10 又重新稼動。'98 年預計達 200K/年生產目標，其中 80% 為銷售於彩皇。
  - B) 自日本 TSB CKD 之成本仍比售價高，故賣越多虧越多。惟在採購自主化政策下，主要材料中 DY 已可由其彩虹偏轉廠供應 20K/M，另 FUNNEL 自 12 月始亦可以自製。

## 5) BMCC:

A) 10 月份銷售差，主要銷售對象為菲律賓松下公司，至於 ACER(SZ)則近幾個月均無往來。

B) '99 年 14''/15'' 分別預計生產 80K/400K。其中 14'' CDT 預計生產至 2 月份即結束，估計 2 月份春節過後即可完成 15'' CDT 之設備改造，產能上仍為 40~ 50K/M。

6) ORION: 10 月訂單差主要係因大陸近期加強打擊走私後，對杜絕華南一帶以內銷為主之顯示器廠走私進口影響甚大。值此是故，據稱其客戶 9 月份停在香港的貨櫃仍近 14K 尚未提貨。

7) PHS 提供 '98/99 年 14'' CDT 大陸地區生產之預測(請參閱附件 1)。「98 年大陸地區廠商生產量估計約 7.405KPCS，'99 年則預計約 5,630KPCS。

'98 年 10~12 月產銷概況/99 年預計生產量 (表一)

單位: K PCS

LG	14''		4			4		?		
	15''		40			40		?		

## 二、價格檢討

1) ORION 首先反應，因大陸近期在加強打擊走私政策下，對其華南一帶以內銷為主之顯示器廠客戶影響至極。其現今對外報價 14'' S/S US\$50，在其客戶相關運輸費用、關稅、及外匯管理局管制等相關因素下，無法與大陸 LOCAL 供應之其他 CRT 廠商相比，客戶根本不接受。

ORION 表示其與 LG 看法一致，盼降低美金報價或提高人民幣計價之係數(目前為 10.4)，否則訂單全無情形下，只好退出 CRT 定期 MEETING。各廠商回應如下：

A) 因與會各家廠商認為調降美金報價已超過與會各廠之地方權限，而因 10 月份第二波 CRT 調漲，大陸 MONITOR 廠商並未充分反應於其 BUYER，因此調高人民幣報價在大陸地區目前亦沒有外在條件可支撐。

B) SSDD MR. 李本提出考慮報價較 ORION 為高，讓出部份內銷客戶於 ORION 繼續進行銷售，但後來因 ORION 主要客戶為廈華/北大方正/長城，MR. 李最後又因在意該群客戶而于以否決自己之建議。

結論：請各廠向總部反應 ORION 的問題，PSH 邵 R 並負責將總部最後之決議通知各廠。

1. 現內銷係  $\times 10.4$  類，綜合稅率約 2%，剛好是 CRT 廠所上交的稅，已完全反應予客戶。~~因~~ 再提高不太合理，客戶也不會接受。

2. 降美金報價，更會造成市場紊亂，更不可行。

2) IRICO: 與會各家向 IRICO 訂出 15'' 之內/外部交易價底線如下: (BASED ON S/S ITC TYPE)

A) IRICO 對彩皇內部交易價為(US\$60X10.4=人民幣含稅報價)

B) IRICO 對其他客戶報價則因其品質效率較差且數量有限, 因此以(US\$62 或 63X10.4=人民幣含稅報價)

3) BMCC:

BMCC 10 月份訂單極差(14K), 主要客戶為彩皇與方正, 需求各為 10K/M 左右; 但彩皇 10 月亦無下單。針對其主要之兩家客戶, BMCC 坦承 S/S TYPE 以 US\$48X10.0 作為人民幣內銷報價。惟與會各 CDT MAKER 均反對 BMCC 在美金與人民幣核算係數做雙重讓與(公定人民幣內銷報價應為 US\$50X10.4)。經協議, 各家最終同意 BMCC 在其兩家主要客戶再降低美金報價 US\$1(亦即以 US\$47 為 BASE), 但須 KEEP 內銷係數 10.4; 另與會各家希望大家稍作部份退讓, 希望能在 AOC 以 US\$48X10.4 作為內銷報價。

結論: **BMCC 在其主要客戶(彩皇/方正)以 US\$47X10.4 報價。但針對在 AOC 以 US\$48X10.4 作為內銷報價, CPTF 則表反對, 並認為目前與 AOC 係以 14''/15''/17'' 搭配供應, 即使 BMCC 用該價格應也不會有訂單。**

4) SSDD:

A) CPTF/PHS 均稱市場上對 SSDD 銷售次管常有雜音。MR. 李則略帶抱怨的回應, 上個月因 PHS 未向其求證且無確切證據逕向總部反應 SSDD 對北京某客戶有次管銷售行為, 因而被其總部老闆質詢。PHS 邵'R 則解釋爾後將多加強平時之聯繫與確認, 並對 PHS 較粗率之反應過程向 MR. 李致歉。

B) CPTF/PHS 均稱市場上常反應 SDD 有 F.O.C.(free of charge)之聲音, 似乎成為變相降價。MR. 李則稱因其不良管沒有回收, 此乃不良管折讓的作法。

結論: **CPTF/PHS 建議 SSDD 對不良管要回收或與請其工程師將 PIN 剪掉破壞避免其再銷售利用, 另請 SSDD 將正常出貨之數量 INVOICE 與折讓之 INVOICE 分開處理, SSDD 則表同意並請 PHS 提供相關文件作法供參考。**

→ 建議用 replace 材, 因即使 invoice 分開處理也無法區別是否為 rebate.

三、其他

1. 考量 14'' CDT 急速萎縮並為了 CDT 產業健康發展, MS. 李承諾負責聯繫, 整合大陸地區中大型監視器廠商召開整合會議。

2. 14'' 市場上因各家均聽到許多雜音, 認為 4Q 以後可能價格會鬆動。因此, 與會各家達成一致性口徑及共識, 敦促各自業務說法如下: 『價格不可能下跌, 若有超額供給現象則以減產因應。』

3. 下次會議由 BMCC 主辦並于北京召開, 時間: 12/4

1. CPT/PHS/ORW 均對 SSDD 均 challenge 其單開 SSDD 賣 B 管 A FOC 厚相降價, 但 SSDD 否認並辯稱係不良管補償所致, 但無證據不起訴, 請 SSDD 自律。

--以上報告--

呈核

2. 11 年 4Q SSDD 在大陸將有 14''/15'' 各一條, 相對競爭優勢增強。

3. ORW 在會中要脅, 若內銷係數不調高職 戴光輝 敬呈

則要調降美金價, 會人士認為

ORW 稱不過大陸設廠的公司, 是自給自足, 不能因此無理要求

其他人漲內銷或自行調低美金報價, 此即有請高層與 ORW 高層反應。

Contact Report

Meeting Subject: Mainland China *CDT MAKER* Market Exchange

Time: *FEB.* 02, 1999

Location: Shenzhen

Attendees:

*CPTF*: Senior Manager Lu, Guang-Hui Dai

*PHS*: Zheng-Xi Shao, Sales Manager, Huafei: Yi-Wang, Song Lin

*SSDD*: Ming-Zhi Lee, Zhen Yang

*LG*: Zhong-Feng Park, Section Chief

*ORION*: Tae Sik Kong (*TAE.SIK.KONG*) Section Chief

Irigo (*IRICO*): Chao-Jie Wang

*BMCC*: Xin-Wen Huang, Senior Manager

Agenda for this meeting:

- I. *JAN/FEB* '99 & '99 *YEAR* production and sales information exchange
- II. '98 *PC* & *C-MONITOR* Production and sales status (*IN CHINA*)
- III. '98/'99 *C-MONITOR*-Market Demand Discussion by Customer (*IN CHINA*)

Content:

1. *JAN/FEB* '99 & '99 *YEAR* Production & Sales Information Exchange

## Explanation:

1. *SSDD*: After being reconfirmed, its 15" SKDL will begin M/P in Tianjin factory (TSED) in June of this year [Underlined by hand], in addition, its Shenzhen factory(SSDD) was set to M/P 17" in October this year [Underlined by hand] [Handwritten note with an arrow to text: "(Samsung Kangning) July"], but Department Manager Lee was unable to indicate certainly on its input timing during the meeting.
2. *Huafei*: In last meeting, *PHS* indicated that since it needed [Illegible handwriting above text] to report to China Electronic Data Department, therefore, the above-mentioned sales and inventory data contained in "( )" for *JAN/FEB* should be considered true figures. Also, its' 15" utilization is planned to begin small volume output in February.
3. *ORION*: It was originally learned from the Taipei Regular Exchange Meeting held on 1/13 that 14" has ceased production in March. After reconfirmation, MR. Kong claimed that it was the 14"S/T's production which was stopped [Underlined by hand]. The original 14" line will be converted to a 14"/15" mixed line in May; in addition, 15" Mini tubes are also expected to be launched in May [Underlined by hand].
4. *BMCC*: 5/1 will begin mass production of 15" *CDT*. *PHS/SSDD* and other makers expressed strong protest regarding is *RMB\$455* pricing for 14" (*IF KEEP BASED ON 10.4* as coefficient used for domestic sale quotes, which is equivalent of *US\$44*), it was hoped that *BMCC* should go by the agreement and not to disrupt market pricing.
5. *PHS*: Although 14" inventory is as high as 200K, but it would be break the agreement because of it by disrupting the market pricing with low prices [Underlined by hand]. In addition, its 15" will begin loading for trial run as planned.
6. The volume of '99 planned production and *LG/ORION*'s plan to sell to Mainland China is as shown above (Chart 1); estimated demands by customers are shown in (Chart 4) after discussion by respective *CDT MAKER*.

II. '98 *PC & C-MONITOR* production and sales status (*IN CHINA*)

*SDD* was the first to provide its color monitor market study on Mainland China by its marketing department of headquarters in Korea (Chart 1) - (Chart 3).

Explanation:

1998 *C-MONITOR* actual production results in Mainland China region reached approximately 19.5*M PCS* after discussion among respective makers. (Our current information shows 16.7*M PCS*), the primary discrepancy is at “*CHINA OTHERS*”; we used 0.14*M PCS* for our estimate, and yet the attendees used 1*M PCS* to approximate. In 1999, production estimate for respective makers of *C-MONITOR* is 31.4*M PCS* (a larger discrepancy comparing to the 23.5*M PCS* shown in Chart 1 & 2). Above-mentioned information is provided for our *MARKETING DEPT.* for reference and reconfirmation purpose only.

[Handwritten:] 1998 Mainland China actual results of *CM* production should be around 20*M*, but 1999 estimated volume should be at least 30*M* to be reasonable!

## IV. Conclusion

1. Other than *SHARE* market information mutually, the more important issue for this discussion of global and regional color monitor markets' demand status is to hope that all makers may continue to maintain their efforts in control pricing by production volume of respective sizes.
2. 14"/15" almost have no profits under the current pricing, all makers should continue to persist pricing on 14"/15"; in particular, since *BMCC* has attended the meeting, while respective makers already made sacrifices in output sales volume, it should make specific contribution to the goal of this meeting by not disrupting the market pricing.
3. As far as how to extend 14"CDT's product lifespan, SSDD is especially worried and called out to all makers to put their thoughts together for the benefits of all. If 15"/17" cannot price up again to differentiate price gap to 14", it would be a great concern on the speedy decline on the demands for 14" [Underlined by hand].
4. *PHS* will be hosting the next meeting. Time: *MARCH* 11, 1999, Location: To be determined at either Shanghai or Nanjing.

--End of report-- Submitted for approval

Respectfully submitted by Employee Guang-Hui Dai  
*FEB.* 04, 1999

[Handwritten:] Department Manger of Samsung Ming-Zhi Lee continue to stress that the price differential for 14"/15" should be maintained at least @USD15<sup>↑</sup>, otherwise it will speed up the decline of 14". Although I repeatedly explained to him that the decline for 14" demands is because of the market trend, and 15"'s gross profit is much higher than 14", but he still insists on his view (since Shenzhen factory only produces 14"CDT) [Underlined]. *PHS* Senior Manager Shao reflected his recommendations to the *TOP MANAGEMENT MEETING*, to either price up on 15"CDT selling price or reduce 14"CDT pricing.

## 說明

- 1) SSDD: 經再次確認, 其天津廠(TSED) 15" SKDL 將於今年六月始 M/P, 另其深圳廠(SSDD) 原定 17" 今年 10 月可 M/P, 但會中李部長未能對其動工時間表示確定。
- 2) 華飛: 前次會議中 PHS 即表示因需報請中國電子訊息部, 因此上述 JAN. /FEB. 銷售及庫存數據仍應以“( )”內之數字為真實。另其 15" 稼動擬於 2 月份始少量產出。
- 3) ORION: 1/13 台北定期交流會中原獲悉 3 月停產 14"。經再次確認, MR. 孔稱係 14" S/T 不生產, 原 14" 將於五月份改為 14"/15" 兼容; 另 15" Mini 管亦預計五月份推出。
- 4) BMCC: 5/1 始量產 15" CDT。對於 14" 以 RMB\$455 (IF KEEP BASED ON 10.4 係數作為內銷報價則相當 US\$44) 遭 PHS/SSDD 等各家之強烈抗議, 希望 BMCC 遵守協議不要擾亂市場行情。
- 5) PHS: 14" 庫存雖高達 200K 但不會因此而破壞協議以低價擾亂市場行情。另其 15" 仍依計畫在 2 月份開始稼動試產。
- 6) '99 計畫生產及 LG/ORION 計畫銷售至大陸之數量如上(表一); 客戶別之需求預估經各 CDT MAKER 討論後如(表四)所示。

## 二、'98 PC &amp; C-MONITOR 產銷狀況(IN CHINA)

說明:

'98 年大陸地區 C-MONITOR 生產實績經各廠家討論後約達 19.5M PCS(我方現有資料為 16.7M PCS), 差異部份主要在"CHINA OTHERS"; 我方係以 0.14M PCS 估算, 而與會各家則以 1M PCS 概算。另'99 各家 C-MONITOR 生產預估數為 31.4M PCS(與表一、二顯示之 23.5M PCS 差距較大)。上述資料僅提供我 MARKETING DEPT. 參考再確認。

1998 年大陸 CM 生產實績約在 20M 左右, 而 1999 年預估產量應在 30M 才合理!

CPTF

004

## 四、結論

1. 本次探討全球及地區性彩監市場供需情形，除了相互 SHARE 市場訊息外更重要的是希望各家在各尺寸能繼續維持以量制價之行動。
2. 14"/15"在現有價格下幾無利潤，各家應繼續堅持 14"/15"價位。尤其 BMCC 既然與會，在各家已作出產銷量之犧牲後更應對本會議宗旨作出具體之貢獻，不要擾亂市場行情。
3. 對於應如何延長 14" CDT 之產品生命，SSDD 特別憂心並呼籲各家集思廣益。倘若 15"/17"無法再調漲以擴大與 14"之差距，則 14"需求萎縮之速度堪慮。
4. 下次會議由 PHS 主辦。時間：MARCH 11, '99。地點：上海或南京另議

--以上報告-- 呈核

職 戴光輝 敬呈

FEB. 04, 1999

呈明極部長一並請調 14"/15"價差最少要維持 @USD 15 ↑,  
否則 14"加速萎縮，雖職一再向其解釋 14"需求萎縮是市場趨勢  
勢使然，且 15"遠較 14"之利潤高，但是仍堅持(因考慮到)欲求生產  
14" CDT)。PHS 總經理將其建議向 TOP MANAGEMENT NEGOTIATING 反  
映，即將 15" CDT 售價或調降 14" CDT 價格。

Translator's remarks are indicated in brackets [ ].

## Explanation:

## 1. Samsung Electronics:

- (1) Shenzhen Samsung originally planned to add one new 17" *CDT* line, but due to funding problems it converted the 14" *CDT* production line instead. It is expected that mass production will start in August of this year. The line conversion process will start in May. Department Manager Li indicated that this production line will be designed for a 14"/ 17" single-direction compatible production line.
- (2) Starting in April, Tianjin Samsung will use *SKD* to import *ITC* for its 15" *CDTs* delivery. It's expected to officially start mass production in May.
- (3) Department Manager Li also indicated that their single 15" *CDT* line in the Malaysian factory will be converted to production of *MINI-NECK* tubes (with mass production starting in April). The single 14" *TV* line will be converted to produce 17" *CDT* (mass production starts in May).

## 2. Nanjing Huafei:

- (1) Looking at the delivery situation for 15" equipment, it is expected that the present 14" *CDT* line will be converted to a 15" *CDT* at 6/E~7/B. At such time, two lines will be utilized for the production of 15" *CDT*, and it is planned that these will be 14" and 15" *CDT* compatible lines. 14" *CDT* production will be determined on the basis of the inventory and market situation at that time.
- (2) Senior Manager Shao stated that since Huafei's 15" *CDT* mass production has increased, production in Taiwan will be reduced at the appropriate time. It is expected to move 2 of its 15" *CDT* production lines to Huafei in '99/B.

[Handwritten:] Chubei factory (currently has 15" *CDT Lines* x 5)

## 3. IRICO:

- (1) The cooperation plan with *TSB* for 17" *CDT* has been basically confirmed (capital and project set-up have been completed, and the technology contract was completed during the 15" *CDT* plan implementation). It will convert the current 14" *CPT* production line. The overall plan has not yet been confirmed.
- (2) Compared with 1998, IRICO's 15" *CDT* import materials and parts costs have decreased, and its processing technology has been improved. At present, its electronic guns are manufactured by assembling imported spare parts. *DYs* are transferred from Xianyang, China, as well as provided by the Cai Dong Company. Mr. Wang indicated that the company will be striving to increase its production by about 800 ~ 900K in 1999 compared with the previous year, and also to reduce the level of losses by 1/2. [Handwritten:] It said that in 1998, from the 15" *CDT Line* alone, losses exceeded 100,000,000 *RMB*].

---

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

- (3) Mr. Wang indicated that handling of *ASC* and *A/G* tube surfaces of its 15" *CDT* products, are the same kind of product. [Handwritten:] That means there is only the *AS* tube model.

4. Kitamatsu:

At present, their 14" *CDT* is still incompatible for mass production with *CPT* (1/2 line). At present, it has been decided that mass production of the 15" *CDT* will start in August. However, whether or not it will be a full line [illegible] utilization has not yet been determined. Since the 15" *CDT* equipment is already in place, there should be no plans for 17" *CDT* mass production this year.

5. Daewoo:

Mr. Hong indicated that *CM* is their main purchaser in Shanghai. Originally, it used *SKD* as a transfer port, but 14" *CDT* trade will stop since Korea Daewoo will stop production in May. It is heard that *ORION*'s current 14" *CDT* inventory is around 100K. [Handwritten:] Mainly reserved for *AOC*.

6. The mass production situations of the respective *CDT-MAKERS* in China, starting from August 1999, are as follows:

VENDOR	Production Lines	Size	Production Capacity (K/M)
Huafei	2	15"	120
CPT(F)	0.5	14"	80
	1.5	15"	240
Samsung	1(TSDD)	15"	150
	1(SSDD)	17"	100
IRICO	1	15"	80
Kitamatsu	0.5 (Temporary)	15"	30
TOTAL (K/M)	14"/80, 15"/630, 17"/100		

[Handwritten:] But *PHS* and *SDD* can change back to producing 14" *CDT* at any time. Also, neither of them have low inventories of finished products.

[Illegible handwriting] 4/5/'99

## II. Market Information Exchange

1. Starting May 1<sup>st</sup>, the price of 17" *CDT* will officially be increased by *USD 5* [Handwritten: "?"] (*BASE ON @ USD 98/MPR 2*).
2. *CM W/W – CHN Demand Situation and Estimated Volume of 15" CDT Domestic Sales in China.*

Table 1:

		W/W	CHN
	98	85M	21M (16.5M FOR EXPORT, 4.5M FOR DOMESTIC)
	99	94M	33M (27M FOR EXPORT, 6M FOR DOMESTIC)

Table 2:

		'98(4.5M)	'99(6M)	RE
14"		1.7M	1M	'99.15" CDT Main Domestic Sale Volumes: CPTF/700K, HF/500K, SDD/500K, LG/500K, IRICO/800K, BMCC/100K, <b>T.L: 3,100K.</b>
15"		2.3M	3.2M	
17"		0.5M	0.8M	

3. Attendees complained that IRICO's 15" *CDT* sales price is already much lower than the current market price (which, calculated with *64K/ASC. ITC*, should be *RMB 665*). Mr. Wang explained that their 15" (*64K/ASC. ITC*) price is currently *RMB 630*, and that this is the transaction price with Shenzhen IRICO and Weihai Daewoo. After a discussion, the following was decided: to prevent unreasonable prices affecting normal market prices, and since the transaction volume between these two makers is already about 90% of IRICO's production volume, the attendees agreed that this price is considered a price for internal transactions (Weihai had *DY* supply transactions with the other one). Both makers were asked to increase their external sales price to the current market price (which, calculated by using *64K/MPR2. ITC*, should be *RMB 675*, and gradually decrease by *RMB 10* for each level). [Handwritten:] That is the export price, *@USD 65* as the price.
4. Regarding Kitamatsu: at present the 14" *CDT* price is only *RMB 420 – 430*. This was calculated by using *48K/STD. ITC*, though the current sales price of the 14" is lower than the current market price that was set previously (which is only about *RMB 470 – 480*, as calculated by using *STD/K*). In order to ensure that the 14" *CDT* sale prices are orderly and to avoid malicious competition, Kitamatsu was asked to strive to *KEEP* the prices at *RMB 450*. [Handwritten:] *SDD* and *PHS*'s 14" domestic sales prices are probably also only *RMB 470*, or even lower!

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

## III. Conclusion:

1. Except for the internal transaction prices given to Cai Huang and Weihai by IRICO, the 15" *CDT* sales price for the rest of the makers needs to *KEEP* at *RMB* 675 (calculated by using *64K/MPR2.1TC*, it should be @*RMB* 675 and gradually decrease by *RMB* 10 for each level). Since 15" *CDT* and *CM* production and sales are roughly balanced in China, it is feared that overall the *W/W* supply is greater than demand which will affect the maintenance of the 15" price.
2. In reality, the 14" *CDT* price has now collapsed. Calculated using tube *STD/K*, it is currently only *RMB* 470~480 (this is approximately *USD* 46, lower than the industry standard price by *USD* 3). In addition, starting in August, 1999, except for CPT, all makers will suspend production of 14" *CDT*. (Huafei and Kitamatsu will convert it to produce 15" and Samsung will convert it to produce 17").
3. Because transactions in the China market are less standardized, especially with payment and tax issues, and we are currently in the *CM* slow season, the proposal originally submitted by CPTF for a review of the change of the USD and RMB exchange rate from 10.4 to 10.6, is now temporarily on HOLD. [Underlined by hand] and the price calculation coefficient of 10.4 shall be retained.

[Handwritten:] At this *meeting*, because we spoke up strongly, the unreasonable domestic sales prices was seriously reviewed. 15" is the main point in the future and everyone agreed to go back to the export base price of @*USD* 65 and a price calculation coefficient for domestic sales of 10.4. IRICO agreed to cooperate, which should be the key point.

RE: '99.3 月 15" CDT 累计于大陆销售量为(258+630)=888K.

说明:

1. 三星电子:

- (1) 深圳三星原计划增加一条 17" CDT 新线, 因资金问题现由 14" CDT 生产线改制, 预计今年 8 月量产. 改线动作将于 5 月开始, 李部长表示, 该生产线将设计为 14"/17" 单向兼容生产线.
- (2) 天津三星于 4 月开始以 SKD 进口 ITC 方式进行 15" CDT 交货, 预计 5 月正式量产.
- (3) 另李部长表示, 其马厂一条 15" CDT 将改产 MINI-NECK 管 (4 月量产); 一条 14" TV 线改为 17" CDT (5 月开始量产).

2. 南京华飞:

- (1) 视 15" 设备到货状况, 预计现有一线 14" CDT 将于 6/E-7/B 改产为 15" CDT, 届时将有二线稼动 15" CDT, 生产线规划为 14"/15" CDT 兼容线, 14" CDT 视库存及市况再决定生产.
- (2) 邵经理称, 由于华飞 15" CDT 量产增加, 台湾部分将适时减产, 预计 '99/B 将移转 2 条 15" CDT 生产线到华飞. *竹北改(改有 15" CDT Lines x 5)*

3. 彩虹:

- (1) 与 TSB17" CDT 合作案已基本定案 (资金/立项已完成, 技术合同已在 15" CDT 案进行时完成), 将由现 14" CPT 生产线改制, 整体计划仍未确定.
- (2) 与 '98 年比较, 彩虹 15" CDT 进口料件成本及制程技术均有所降低与提高, 现其电子枪以进口零件组装方式进行, DY 由大陆咸阳偏转及彩东公司提供, 王'R 表示其公司争取 '99 较去年提高产量至约 800-900K, 亏损减少 1/2 水平. *(将 '98 年亏损 1.5 亿 CNY 降至 1 亿 CNY, 即 Loss 减少 1 亿 RMB)*
- (3) 另王'R 表示, 其 15" CDT 产品管面除理 ASC 与 A/G 为同一种产品.

4. 北松:

现其 14" CDT 仍为与 CPT 兼容量产 (1/2 线), 现已定于 8 月开始量 15" CDT, 但是否满线航稼动仍未确定; 鉴于 15" CDT 设备亦已到位, 17" CDT 今年应无量产计划.

5. 大字:

洪'R 表示, 其上海主要系采购 CM, 原以 SKD 方式转口 14" CDT 贸易亦因韩国大字即将于 5 月停产而停止, 据悉现 ORION 14" CDT 库存约 100K. *(主要仍保留 100K 左右)*

6. '99.8 月起大陆各 CDT-MAKER 量产状况如下:

VENDOR	生产线数	尺寸	产能(K/M)
华飞	2	15"	120
华映(F)	0.5	14"	80
	1.5	15"	240
三星	1(TSDD)	15"	150
	1(SSDD)	17"	100
彩虹	1	15"	80
北松	0.5(暂定)	15"	30
TOTAL(K/M)	14"/80, 15"/630, 17"/100		

*但 PHS 的 500 条线目前仍由三星 14" CDT, 且成品库存亦不少.*

## 1) Further explanation of various makers' progress:

- ① *CPT* – we indicated that we have already drafted the price-up notification letter and have also formally notified *Orion* – the customer *CPT* is responsible to notify – by faxing a letter to Orion's headquarters in Japan on 5/18. In addition, we have verbally communicated to other customers – *SREC*, *TCE* and *FUNAI* about the impending price-up. Letters will be formally sent out on 5/20.
- ② *Mr. I. Kim* of *SDD* also indicated that a formal facsimile was sent on 5/3 to *Thomson (Korea)*, although the reply expressed full understanding of the situation, it urged to reconsider. In addition, a letter was sent to *FUNAI* on 5/19, while *SREC* was given a verbal explanation. It was planned that the formal letter would go out on 5/22.
- ③ *L/G – Mr. Choi* said that on 5/17 the 3<sup>rd</sup> *Q* price-up issue was verbally explained to *SREC M.D. Mr. Terada* – the response was *not good*. A formal price-up notice letter is ready, and would be sent out right after the meeting. Subsequent visits would be made to *FUNAI* on 5/19, and to *TCE* on 5/20 to discuss the proposed price-up.
- ④ *OEC – Mr. Moon* indicated that: *THAI-CRT* had sent a formal letter to inform *AIWA* of the price-up. *OEC* has notified its customer *FUNAI* as well, and the two sides would meet to further discuss the issue by the end of May or beginning of June. Meanwhile, a letter would be sent to *SREC* on 5/22.

2. *Reconfirmation for sending 3<sup>rd</sup> Q price notice letter*

In addition to notifying the *Key Accounts*, formal notifications should be sent as soon as possible to customers such as *SREC*, *FUNAI*, *ORION*, *THOMSON* and *AWAI* respectively. As for the time to send the letter, after makers' *Review* and discussion, *SKDL* was set as follows:

*Schedule of sending letter*

		ORION	SREC	FUNAI	TCE	AIWA
Team leader		CPT	LGE	OEC	SDD	Thai
Sending letter		May 18	May 17	May 14	May 03	May 13
Team vendors	CPT		May 20	May 20	May 20	May 20
	LGE	X		May 19	May 19	May 22
	OEC	X	May 22	[blank]	X	X
	SDD	X	May 22	May 19		May 22
	Thai	May 19	X	X	May 19	
	TSB	O	O	O	X	O
Remarks: OEC will inform TDD(I) of the above listed SKDL						

3. *Decision of timing & condition for price up:*

- 1) 1999 *Q1-Q3* (14"/20"/21") production capacity and order estimates of various makers are as follow:

**★★Best timing to raise price:**

***CPT’s President Lin indicated that customers such as Orion would be getting brisk orders in 3<sup>rd</sup> Quarter as the U.S. market high season was drawing near. Funai (China) factory has newly increased 14” orders, and together with the high season demands of customers such as Thomson,***

CONFIDENTIAL – GRAND JURY MATERIAL

FINAL TRANSLATION

CHU00029193E

Translation

it was expected that our 14" order would increase from 260k/M to 380k/M in Q3. *SDD* also indicated that the situation of *SEC*'s orders in *CIS* and Middle East market are becoming better, and according to what we heard, *TDDI*'s orders in Q3 were already full. *LG* was getting more internal demands (for *CISM. East*), and, because it would switch to producing 21" (*Flat*) in Korea in August, *LGE-medium*'s supply and demand has become *tight*. Therefore, all makers agreed that as long as everyone synchronizes the price-up implementation, even at the risk of suffering slow business for one month because customers hesitated or were taking a wait-and-see attitude, eventually we would pull through and would definitely accomplish the price-hike targets according to schedule.

3. *Other Issue:*

1) Regarding *THAI-CRT*'s attitude towards the Q3 price-up, *ORN-Mr. Moon* said although *THAI-CRT* was absent again with excuse, it would *follow* the resolution of the meeting. But various makers, after discussion, decided to phone and contact its *M.D. Mr. Chaovallt* who said he would meet with everyone in Taipei on June 1 (Tuesday) to continue the discussion.

2) About *China Market*:

Sales of 14" and 25" in China market are okay. However, imbalance between demand and supply on 21"/29" continues to exist. The eight *CRT* major makers within Chinese territory are going to hold a meeting on 5/23 to discuss how to improve capacity planning. We heard that someone suggested to shutting down for one month to resolve the problem. However, *SDD* thought a shutdown of 7-10 workdays would be easier to carry out an *Audit* properly.

3) *IRICO (Caihong, China)* and *BMCC*:

*CPT* was elected as representative to convey the Q3 price-up news to *IRICO*, and ask it to *follow*; *SDD* would be responsible for delivering the message to *BMCC*, in order to prevent the two makers from using lower-prices to confuse customers currently being shipped by makers at the meeting.

	20" \$53.00 ITC	20" \$54.50 ITC	20" \$54.50 ITC	20" \$53.50 ITC	20" \$54.00 ITC
	CIF A/S	ARR A/S	ARR A/S	CIF 45days	CIF A/S
	ORION	SREC	FUNAI	TCE	AIWA
客戶反映	Very negative	Seem skeptical	5/E-6/B再議	強烈要求再檢討	瞭解但請再檢討

## 1) 各家進展狀況再說明:

- ① CPT-我方表示已擬妥價格調漲之通知函，且對我方負責通知的客戶Orion已於5/18日正式以傳真通知其日本總部。另亦分別口頭向客戶SREC、TCE及FUNAI等表明了擬調漲價格；將於5/20正式發出信函。
- ② SDD-Mr. I. Kim亦稱：已於五月三日正式傳真通知Thomson(Korea)，對方回覆雖充分瞭解狀況，但請求再考慮。另亦於5/19發函給FUNAI並已向SREC口頭說明，擬於5/22發出正式信函。
- ③ L/G-Mr. Choi表示5/17已向SREC M. D. -Mr. Terada口頭說明有關 3rd Q. 價格調漲件，對方反映 not good;正式的調漲函已備妥，將於會後隨即發送。另將於5/19拜訪FUNAI、5/20拜訪TCE，商討該調漲件。
- ④ OEC-Mr. Moon稱：THAI-CRT已於5/19正式發函通知AIWA有關價格擬調漲件。而OEC亦於5/14通知客戶-FUNAI，雙方將於五月底或六月初再進一步會談。另將於5/22發函給SREC。

2. Reconfirmation for sending 3<sup>rd</sup> Q price notice letter

各家除上述負責通知的Key Account之外，須分別儘速向SREC、FUNAI、ORION、THOMSON、AWAI等客戶發出正式通知信函。發函時間，經各家Review與討論後，SKDL明訂如下：

**Schedule of sending letter**

		ORION	SREC	FUNAI	TCE	AIWA
Team leader		CPT	LGE	OEC	SDD	Thai
Sending letter		May 18	May 17	May 14	May 03	May 13
Team vendors	CPT	-	May 20	May 20	May 20	May 20
	LGE	X	-	May 19	May 19	May 22
	OEC	X	May 22	-	X	X
	SDD	X	May 22	May 19	-	May 22
	Thai	May 19	X	X	May 19	-
	TSB	O	O	O	X	O
Remarks: OEC will inform TDD(I) of the above listed SKDL						

## 3. Decision of timing &amp; condition for price up:

- 1) '99 年 1Q -3Q (14"/20"/21")各家生產線產能規劃及訂單量預估分別如下：

**Demand & Supply**

** 14"	99Q1			99Q2			99Q3		
Maker	Demand	Supply	Surplus	Demand	Supply	Surplus	Demand	Supply	Surplus
TOT	1250	1660	410	1245	1350	105	1335	1350	15
%	75.3%			92.2%			98.9%		
CPT	230	360	130	260	300	40	380	360	-20

**Remarks: OEC- 3/E 1.0 Line, 5/E 0.5 Line reduce (plan) / SDD- 3/E 0.5 Line reduced**

14"供、需: Overcapacity: Q1- 24.7% / Q2- 7.8% / Q3- 1.1%

Medium : Overcapacity: Q1- 22.1% / Q2- 4.3% / Q3- 2.9%

★★價格調漲契機:

CPT-林總經理表示 3rd Quarter 我方客戶如 Orion 在美國市場的訂單將隨著旺季來臨而逐漸轉強, 而 FUNAI(China)廠 14"新增訂單, 以及 Thomson 等客戶旺季需

求量轉旺情況下，預料第三季我方 14" 訂單量將可自 260k/M 增至 380k/M。SDD 亦表示 SEC 在 CIS 與中東市場訂單狀況轉好，且 TDDI 據悉第三季訂單已滿。而 LG 在內需(For CIS/M. East)需求量增，且因在 Korea 即將於八月份轉產 21"(Flat) 情況下，LGE-medium 供、需已轉 tight。因此各家一致認為第三季度只要大家同步實施調漲，即使是一個月期間可能因客戶遲疑或觀望而生意稍差，但相信只要撐下去，此次調漲一定能如期達成。

#### 4. Other Issue:

1. 有關 THAI-CRT 對第三季價格調漲之態度，ORN-Mr. Moon 表示 THAI-CRT 再次因故缺席，但其表示將 follow 會議結論。惟各家商議當場再以電話跟其 M. D. Mr. Chaovallt 聯絡結果其表示將於六月一日(周二)於台北與各家再會談。
2. 有關 China Market:  
14" 及 25" 在中國市場銷售狀況尚可；然而 21"/29" 則供需失衡情況仍持續。中國境內八大家 CRT 廠商正擬於 5/23 召開會議研商如何做好產能規劃。據悉有人提議以停產一個月以解決問題；然 SDD 認為 7-10 天將較容易確實做好 Audit。
3. IRICO (Caihong, China) 與 BMCC:  
經由與會各家推派將由 CPT 代表向 IRICO 傳達第三季擬調漲價格訊息，並請其 follow；而 SDD 將負責向 BMCC 傳達，以免該兩廠商以較低價格擾亂到各家交貨中的客戶。

TO: CPTC Sales Department  
ATTN: Submitted to the Director

FAX NO:  
FROM: CPTF Jing-Song (Jason) Lu

SUBJ: *IRICO* (Irico) 14" CPT Sales Situation

1. Just contacted *IRICO*'s Vice-President Wei by phone. (Manager Lee is unable be contacted because he is on a flight from Beijing back to Xian now.) I explained that we hoped that *IRICO* could cooperate with us to increase the 14" CPT sales price starting July 1<sup>st</sup>. *IRICO* basically agreed. However, since only Manager Lee can make the final decision, he hoped that we could confirm it with Manager Lee.

2. *IRICO* now has 14" CPT  $\times$  2 Lines with production capacity of 300k/m. The production volume for '98 was 1,920K and in '99 it will exceed 2,000K.

3. Since Manager Lee will not arrive in Xian until after 4 o'clock this afternoon. We need him to confirm the above and then we can decide whether or not we'll arrange a meeting with him on 6/13 in Beijing.

Customer Contact Report

Contact Date: 6/22 '99

Name of Customer: *CPT MEETING*  
Contact Personnel: *ORION*: Director Moon  
*IRICO*: Manager Li, Manager Sha  
*CPT*: Director Liu, Jing-Song (Jason) Lu

I. *CPT* production status in China:

1. In '99, it is estimated that the 8 major tube makers will produce about 32 million units. Among these: 14"x 3M units (*IRICO* x 2.5M, *BMCC* x 0.5M), 21"x 14.5-15M units (*BMCC* x 2.1M, *HF* x 1.30M, *LG* x 1.5M, *HTC* x 2.6M, *IRICO* x 3M, *Evernew* x 1.5M, *SDD* x 2.1M, *Fortune* x 0.45M), 25"x 8M units, 29"x 6M [Underlined by hand].

2. Export status:

14" x 2.6M units (*IRICO* x 2.2M, *BMCC* x 0.4M)  
21" x 2M units (*SDD* and *LG* as the main. In addition, *HTC*, *BMCC*, *HF*, *IRICO* also have a small amount to export.)  
25"/29" are basically not enough for self-use.

3. '99 China *CTV* production volume is estimated to be around 34-35M.

II. Market status and price increases:

1. Director Liu and Director Moon both explained the status of market supply and demand for 14"/20"/21". Based on the fact that *CDT* has successfully maintained stable prices and that in the second half of the year demand has grown and production capacity has decreased, they asked *IRICO* to cooperate and synchronize the process of 14" *CPT* price increases.
2. *IRICO* explained that the current 14" *CPT* sales price (*ITC* tube) to *VESTEL* [Circled by hand] is @USD 27 and to other customers is @USD 28†. They frankly admitted that their

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

CONFIDENTIAL – GRAND JURY MATERIAL

CHU00029050E  
Translation

[Illegible] (*File CPT*)

2/2

CONTENTCONTACT ITEMS

pricing is based on their real cost and that they seldom refer to the price of the industry. They also claimed that the reason they sold to Turkey *VESTEL* at such a low price was because *SDD* (Shenzhen) was competing for the orders. (*SDD* Shenzhen produced about 0.3M units of 14" *CPT* during the initial stage after starting production). Since it has a significant ability to self-make accessories materials for 14" *CPT*, there is still some profit with the current sales price.

3. They very much appreciated the market information provided by *CPT* and *ORION* and are willing to cooperate with the move to increase the price of 14" *CPT*, except that July orders have already been received. They are willing to increase the overall price beginning in August. In addition, their basic selling price is slightly lower than that of the big factories by *USD* 1-2. That was understood by everyone.
  4. Their 21" *ITC* export price quote is *USD* 50, which is a little bit low. They were asked to review the price and make an appropriate increase.
  5. To enhance *IRICO*'s interactions and information exchange with the outside, temporary agreement was reached that *IRICO* would be invited to participate in the regular *meetings* or the irregular meetings arranged by *ORION* and *CPT* in Hong Kong or Shenzhen.
- End of report -

Submitted respectfully to the President

## 中華映管福州有限公司業務部

## 客戶接洽報告

接洽日期: 6/30/99

客戶名稱: CPT Meeting

接洽人員: ORION: 文經理  
IRICO: 李經理, 謝經理  
CPT: 劉處長, 呂經理

一、大陸 CPT 生產狀況:

1. 99年8月大吹水廠, 預計生產3200左右, 其中  
 14" X 300 左右 (IRICO X 2000, BMCC X 500), 21" X 450 ~  
 1500 左右 (BMCC X 2100, H/L X 1300, LG X 1500, HTC  
 X 2000, IRICO X 3000, 永新 X 1500, SDD X 2000,  
 三星 X 4500), 25" X 800 左右, 27" X 1000 左右。

二、出口狀況:

14" X 200 左右 (IRICO X 1000, BMCC X 400)  
 21" X 200 左右 (SDD, LG, 三星, HTC, BMCC, H/L, IRICO)  
 尚有少量出口。

三、25" 109" 是本公司不生產的規格。

3. 99年大陸 CPT 生產量預計 3400 ~ 3500 左右。

二、業務狀況與價格問題:

1. 劉處長與文經理說明, 14" 1020 1021 規格  
 低價水貨, 是以 CPT 成功並提價格, 下家需求  
 成長, 生產的縮減之損失, 請 IRICO 配合執行  
 調整後 14" CPT 價格。

2. IRICO 說明 14" CPT 目前售價 (GTC) (165/51)

@45007, 是文處長 @45008, 也有價格之提供

內容

連系事項

以英幣成本為依歸，少者同以售價，而亦對上  
耳且1/25/26如此低之售價，亦係因522/2301/2302  
業所致(522/2301)投產初期約產量14"OP x 30反角，  
而14"OP之製成材料較強，目前售價，尚  
有利潤。

32"OP及ORON提供之市場消息，極為感謝，  
且欲在14"OP相張行動，但同本之訂單已  
將表示欲要由5月公起至而相張，而其售價  
較大致消低@1400~2，為大業所採辦。

以第21"270亦外銷報價@1450左右亦係低價  
檢討並意提高。

5. 為加強23020之外果互動及情報交流，暫時  
約定邀請23020參加定期Meeting，或由ORON  
及OP安排旅遊或餐會不定期會面。

以上報告

敬呈 僑務處

1 MR. KOONS: Objection to form. 10:40:11

2 THE WITNESS: Correct. 10:40:36

3 BY MR. IOVIENO: 10:40:38

4 Q. My last question with respect to 10:40:38

5 Exhibit 1314 is there are some handwritten 10:40:41

6 comments on the last page. It's Bates number 10:40:44

7 '30779. And I'm going to read it into the record 10:40:47

8 for you. The first comment says: 10:40:50

9 "Regarding the price rise adjustment of 10:40:54

10 domestic prices, except for Irico which has 10:40:57

11 concerns, the rest steadfastly agree to follow the 10:41:00

12 resolutions of the 5.21 top management meeting." 10:41:03

13 And my question is -- my first question is, 10:41:09

14 do you know whose handwritten comments those 10:41:11

15 were? 10:41:14

16 A. Yes, I see that. 10:42:10

17 Q. Do you know whose handwritten comments 10:42:11

18 those were? 10:42:13

19 A. Mine. 10:42:19

20 MR. IOVIENO: Okay, thank you. You can put 10:42:20

21 that document aside? 10:42:21

22 MR ROSS: Next is Exhibit 1315 CHU00029050. 10:42:22

23 MS. BRASS: Are you done with 1313? 10:42:36

24 MR. IOVIENO: Why don't you keep those out. 10:42:39

25 (Whereupon Deposition Exhibit No. 1315/E 10:42:59

## HIGHLY CONFIDENTIAL

Page 184

1	was marked for identification.)	10:43:23
2	THE WITNESS: I'm ready.	10:43:23
3	BY MR. IOVIENO:	10:43:24
4	Q. Okay, Mr. Lu, I've shown you	10:43:24
5	Exhibit 1315 and I'd ask you to state for the	10:43:26
6	record what that document is.	10:43:28
7	A. A meeting on CPT market information	10:44:01
8	exchange among Chunghwa, Orion and Irico.	10:44:06
9	Q. Did you attend this meeting, Mr. Lu?	10:44:19
10	A. Yes.	10:44:24
11	Q. And when did it take place?	10:44:25
12	A. June 22, 1999.	10:44:32
13	Q. Mr. Lu, did you draft this report?	10:44:36
14	A. Yes.	10:44:40
15	Q. Was this report created in the ordinary	10:44:41
16	course of business at Chunghwa?	10:44:44
17	A. Correct.	10:44:55
18	Q. Do the contents -- are the contents --	10:44:55
19	do you believe the contents of this report to be	10:44:59
20	true and accurate?	10:45:00
21	A. Should be.	10:45:10
22	Q. Mr. Lu, this exhibit, Exhibit 1315,	10:45:17
23	took place roughly one month after the meeting on	10:45:21
24	-- that's reflected in Exhibit 1313 and less than	10:45:25
25	a month after the meeting that's reflected in	10:45:28

## HIGHLY CONFIDENTIAL

Page 185

1 Exhibit 1314; is that correct? 10:45:31

2 A. Correct. 10:45:49

3 Q. Was this meeting, the meeting that's 10:46:11

4 reflected in Exhibit 1315, related to what was 10:46:14

5 discussed in the meetings set forth in Exhibits 10:46:18

6 1313 and 1314? 10:46:21

7 MR. KOONS: Objection to form. 10:46:22

8 THE WITNESS: No. 10:46:49

9 BY MR. IOVIENO: 10:46:52

10 Q. What was your understanding of the 10:46:53

11 purpose of this particular meeting, the meeting 10:46:54

12 that's set forth in 1315? 10:46:56

13 A. This meeting was primarily for 10:47:13

14 discussion about CPT prices. 10:47:16

15 Q. Under section 2 of the report it says, 10:47:43

16 "Market Status and Price Increases". I'm going 10:47:45

17 to read into the record a part of this section 10:47:56

18 and ask you a question about it. Under paragraph 10:47:59

19 1 it says: 10:48:01

20 "Director Liu and Director Moon both 10:48:03

21 explained the status of market supply and demand 10:48:06

22 for 14", 20" and 21". Based on the fact that CDT 10:48:08

23 has successfully maintained stable prices and that 10:48:14

24 in the second half of the year demand has grown and 10:48:18

25 production capacity has decreased they asked Irico 10:48:22

## HIGHLY CONFIDENTIAL

Page 186

1 to cooperate and synchronize the process of 14" CPT 10:48:25  
2 price increases." 10:48:29

3 A. Yes. 10:49:49

4 Q. My question is, can you explain to me 10:49:50  
5 what you meant when you drafted that paragraph? 10:49:53

6 A. The first part is correct, after that I 10:51:17  
7 meant to say that after glass meeting CDT prices 10:51:24  
8 have successfully maintained. For CPTs in the 10:51:35  
9 second half the demand is going up and the 10:51:46  
10 capacity is decreasing so it is hoped that Irigo 10:51:51  
11 can take the same action with Chunghwa and Orion 10:52:06  
12 to maintain 14 inches CPT prices. 10:52:12

13 MS. CHEN: Increase. 10:52:22

14 THE WITNESS: To increase 14 inches CPT 10:52:25  
15 prices. 10:52:29

16 MS. CHEN: And to take advantage of the 10:52:29  
17 situation. 10:52:32

18 MR. IOVIENO: Do you accept that, Madam 10:52:33  
19 Interpreter. 10:52:35

20 THE INTERPRETER: Sorry, I missed that. 10:52:37

21 MR. IOVIENO: Okay, so do you add that in? 10:52:38

22 THE INTERPRETER: I did not catch that from 10:52:41  
23 the witness, so I'm not sure. 10:52:42

24 MR. IOVIENO: Oh, I see. 10:52:44

25 /// 10:53:04

## HIGHLY CONFIDENTIAL

Page 187

1 BY MR. IOVIENO: 10:53:04

2 Q. Mr. Lu, do you agree that as part of 10:53:05  
3 your answer to the last question you said "and to 10:53:09  
4 take advantage of the situation"? 10:53:20

5 A. Yes, in the second half demands will go 10:54:01  
6 up, production capacities -- production capacity 10:54:08  
7 could decrease. This would be an opportunity to 10:54:19  
8 increase 14 inches CPT prices, good opportunity. 10:54:27  
9 So we invite them to take the same action. 10:54:37

10 Q. Okay, thank you. 10:54:50

11 MR. O'CONNOR: Move to strike as 10:54:51  
12 non-responsive. 10:54:55

13 BY MR. IOVIENO: 10:54:55

14 Q. I'd like to turn to paragraph 3 of the 10:54:56  
15 same document, it's at Bates number '29051. My 10:54:58  
16 first question is, the first few words of that 10:55:08  
17 paragraph says, "They very much appreciated ..." 10:55:10  
18 and my question is, when you used the word "they" 10:55:13  
19 are you meaning Orion -- I'm sorry, are you 10:55:16  
20 meaning Irico? 10:55:19

21 A. Correct. 10:55:44

22 Q. I'm going to read this paragraph into 10:55:44  
23 the record and then ask you a question about it. 10:55:46

24 This paragraph states: 10:55:48

25 "They very much appreciated the market 10:55:49

## HIGHLY CONFIDENTIAL

Page 188

1 information provided by CPT and Orion and are 10:55:53  
2 willing to cooperate with the move to increase the 10:55:55  
3 price of 14" CPT, except that July orders have 10:55:57  
4 already been received. They are willing to 10:56:02  
5 increase the overall price beginning in August. In 10:56:04  
6 addition their basic selling price is slightly 10:56:08  
7 lower than that of the big factories by US\$1-2. 10:56:10  
8 That was understood by everyone." 10:56:17  
9 And my question is for you to simply 10:56:19  
10 explain to me in your own words what you meant 10:56:21  
11 when you drafted that paragraph. 10:56:23  
12 A. Uh-huh. 10:57:25  
13 Q. Can you describe for me what you meant 10:57:26  
14 when you drafted that paragraph, please? 10:57:28  
15 A. I think my words there are very clear. 10:57:41  
16 Q. So, is it fair to say that Irico agreed 10:57:51  
17 with the proposal that Chunghwa and Orion 10:57:54  
18 presented -- 10:57:58  
19 MR. LAU: Objection; leading. 10:58:00  
20 BY MR. IOVIENO: 10:58:00  
21 Q. -- with respect to the CPT prices? 10:58:04  
22 MR. KOONS: Objection form. 10:58:06  
23 MR. O'CONNOR: Objection; leading. 10:58:07  
24 THE WITNESS: Yes. It said it is willing 10:58:34  
25 to cooperate as I wrote it in this report. 10:58:47

## HIGHLY CONFIDENTIAL

Page 189

1 BY MR. IOVIENO: 10:58:47

2 Q. Okay, I have one final question about 10:59:00  
3 this document relating to paragraph 5 which I'm 10:59:02  
4 just going to read into the record. Paragraph 5 10:59:04  
5 states: 10:59:06

6 "To enhance Irico's interaction and 10:59:07  
7 information exchange with the outside, temporary 10:59:12  
8 agreement was reached that Irico would be invited 10:59:14  
9 to participate in the regular meetings or the 10:59:16  
10 irregular meetings arranged by Orion and CPT in 10:59:19  
11 Hong Kong or Shenzhen." 10:59:24

12 And my question is, similar to the last 10:59:27  
13 one, can you just describe for me what you meant 10:59:30  
14 when you drafted that paragraph? 10:59:33

15 A. I see this paragraph. 11:00:34

16 Q. Can you describe for me what you meant 11:00:35  
17 when you drafted that paragraph, please? 11:00:37

18 A. At that time Irico was still a major 11:01:59  
19 manufacturer of CPTs in mainland China for its 11:02:07  
20 domestic market. It remained quite isolated, 11:02:17  
21 without information or participation to regular 11:02:30  
22 meetings of other major CPT or CRT makers. So it 11:02:42  
23 always took its own action on prices. It had no 11:02:54  
24 reference, no participation. After exchange of 11:03:03  
25 information this time, they could be invited to 11:03:11

## HIGHLY CONFIDENTIAL

Page 190

1	attend regular meetings or after every group	11:03:24
2	meeting, either Orion or Chunghwa could give them	11:03:36
3	a briefing of the meeting results in either Hong	11:03:52
4	Kong or Shenzhen.	11:04:00
5	MR. IOVIENO: Is that finished?	11:04:08
6	THE INTERPRETER: Yes.	11:04:09
7	MR. IOVIENO: Thank you, you can put that	11:04:10
8	document aside.	11:04:11
9	MR ROSS: The next is Exhibit 1316,	11:04:12
10	CHU00030985.	11:04:18
11	(Whereupon Deposition Exhibit No. 1316/E	11:04:47
12	was marked for identification.)	11:04:59
13	THE WITNESS: Ready.	11:04:59
14	MR. IOVIENO: Just give me one second,	11:05:00
15	please.	11:05:02
16	BY MR. IOVIENO:	11:05:34
17	Q. Mr. Lu, I've shown you a document	11:05:35
18	that's been marked as Exhibit 1316 and I would	11:05:36
19	ask you to describe for the record what that	11:05:39
20	document is.	11:05:41
21	A. This is a notice sent by Chunghwa	11:06:30
22	headquarters to us to conduct an audit of	11:06:36
23	stoppage in SED Shenzhen.	11:06:45
24	Q. And who drafted this notice?	11:06:57
25	A. Miss Hsieh Chun-Mei.	11:07:05

14"/15" 17" TTL	800	2079		[Handwritten: "238"]			1797				

Explanation:

1) *CPTF*:

*A)* We explained that among the 90K of the 14" inventory, a considerable number are bare tubes that resulted from the late supply of *DY*.

*B)* All meeting attendees are concerned about the *F* plant's third phase construction plan. We responded that there will be 2 compatible *LINES*: 15"/17" and 17"/19" as planned. Production lines are planned to be transferred from Taiwan.

2) *SDD*: The Shenzhen factory (*SSDD*) 14"*CDT* was converted into a 14"/17" August B M/P compatible line in accordance with plans during the last week of June~July. It is expected that in August,

[Handwritten:] 2/2

*M/P* of 17" can be formally commenced (can supply *TCO TYPE*). In addition, the Tianjin factory (*TSED*) produces 15" *NON TCO TYPE*. Since there are still some quality problems, the estimated production target of June was 120K, the actual figure was only 80K.

3) *PHS*: Among the Huafei production lines, currently only one line is *FOR 14"*, and one line is *FOR 14"/15"* compatible. *It is estimated to convert the 14"/17" compatible line in Q1 next year.* [Italicized in the original text].

4) *ORION*: Its 14" supply *FOR AOC (ONLY)* was 30K/M. In addition, among the 60K 15" sales in July, *AOC/EMC* each occupied about 1/2.

5) *BMCC*: Because of the poor operational efficiency, production of 14" was stopped at 4/E. The inventory is still being digested. It is expected that after the inventory is consumed in July, it is planned in August to bring in some materials then immediately *STOP*.

6) *IRICO*: All 15" productions were 64KHZ *AS TYPE (ONLY)*. The 17" technology comes from *TSB* (it was claimed that a contract has already been confirmed). It is estimated that in 2Q of 2000, *M/P* of 17" *CDT* will formally commence (in Q4 of '99, the 14" *TV LINE* will be used for alteration).

## II. Price Review

A) The price of 14" *IN CHINA* has already been adjusted to *MPRII US\$50*. However, in accordance with the 6/23 *TOP MANAGEMENT*'s resolution, on the basis of a price of *US\$50*, the index for the 14" domestic sales price in *CHINA* will be increased on 8/1 from 10.4 → 10.8, and the price for sales outside of *CHINA* will be *MPRII US\$52*. However, all meeting attendees believed that customers could easily be confused by the \$50/\$52 domestic and overseas prices. Thus, the following pricing plan was unanimously proposed:

EFFECTIVE FROM 8/1		EFFECTIVE FROM 9/1	
14" MPRII US\$50→US\$52	Domestic sales index 10.4	14" MPRII US\$52	Domestic sales index 10.8
15" 64KHZ MPRII Regular customers: US\$65→70 KEY ACCOUNT: US\$62→67	Domestic sales index 10.4		Domestic sales index 10.8

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

CONFIDENTIAL – GRAND JURY MATERIAL

CHU00030798.01E

Translation

B) In the 6/23 *TOP MANAGEMENT's* resolution concerning the *BOTTOM PRICE* for the 15'' 8/1 *KEY ACCOUNT*, the *PHS* meeting minutes says *US\$63 →US\$68*. This is not consistent with *CPT's* which is from *US\$62→US\$67*. *PHS* has already confirmed with its headquarters' Manager Xiu-Li Lin that the quotations of each maker to their *KEY ACCOUNTs* are not consistent with, however, they are uniformly increased by *US\$5* from the current price.

III. The next meeting will be organized by Huafei. Time: *AUG 5*. Address: Nanjing.

- End of report - Submitted for approval

Respectfully submitted by Employee Guang-Hui Dai  
*July 9, 1999*

說明

## 1) CPTF：

A)我方解釋 14"庫存 90K 中有不少係因 DY 供應不及產生之裸管。

B)與會各家關心 F 廠第三期工程計畫。我方回覆以 15"/17"；17"/19"兼容之 2 LINES 規劃。生產線則規劃由台灣移轉。

## 2) SDD：深圳廠(SSDD)14"CDT 依計畫於 6 月最後一週~7 月份改 14"/17"兼容線，預計 8 月

2

始可正式 M/P 17''(可供應 TCO TYPE)。另天津廠(TSED)—生產 15''NON TCO TYPE，因尚有些品質問題，6 月份預計生產目標 120K，實際僅 80K。

- 3) PHS：華飛生產線目前為一線 FOR 14''另一線 FOR 14''/15''兼容。預計明年 Q1 改 14''/17''兼容線。
- 4) ORION：其 14''供應係 FOR AOC(ONLY)30K/M。，另 7 月份之 15''銷售 60K 中 AOC/EMC 約各佔 1/2。
- 5) BMCC：因經營效率差，4/E 即停產 14''，庫存仍在消化中，估計 7 月消化完後擬於 8 月份再進些料即 STOP。
- 6) IRICO：15''生產均屬 64KHZ AS TYPE(ONLY)。17''技術來自 TSB(據稱合同已確定)，預計 2000 年 2Q 始正式 M/P 17''CDT('99 年 Q4 用 14''TV LINE 改)。

## 二、價格討論

- A) 14''IN CHINA 之價位已調至 MPRII US\$50。而依 6/23 TOP MANAGEMENT 決議，在 US\$50 基礎下，14''CHINA 內銷價格自 8/1 起係數由 10.4→10.8，而 CHINA 以外之價格為 MPRII US\$52。惟本次會議之與會各家均認為此易造成客戶對內外銷\$50/\$52 兩個價位之混淆。因此一致建議如下價格方案：

EFFECTIVE FROM 8/1		EFFECTIVE FROM 9/1	
14''MPRII US\$50→US\$52	內銷係數 10.4	14''MPRII US\$52	內銷係數 10.8
15''64KHZ MPRII 一般客戶：US\$65→70 KEY ACCOUNT：US\$62→67	內銷係數 10.4		內銷係數 10.8

- B) 6/23 TOP MANAGEMENT 決議中有關 15''8/1 KEY ACCOUNT 之 BOTTOM PRICE，PHS 之會議記錄為 US\$63→US\$68，與 CPT 之 US\$62→US\$67 不一致，PHS 已與其總部林秀立經理確認各家對 KEY ACCOUNT 報價不一之事實，但統一由現價漲 US\$5。

三、下次會議由華飛主辦。時間：AUG 5。地點：南京。

## China Same Industry Meeting (August)

- ☐ Time: August 5, 1999
- ☐ Place: Hyunmu Restaurant in Nanjing, China
- ☐ Participants:
- PHILIPS: Su Hwa Lee, FRANK, Young Ma, Dong Yoo, Sa Chun illegible
  - IRICO: Ui Seng Lee, Mr. Sa, So Kul Wang
  - SSDD: Myung Sik Lee, Jin illeible
  - ORION: Jung Seng Park, Myung Hak Oh
  - CPT: C.C. LIU, Kyung Song, illegible, Ui Yul Seo
  - BMCC: Shin Moon Hwang

☐ Major contents

1. Special lecture by MR. C.C.LIU (CPT headquarters administrator)

- 1) The industry meetings should remain confidential considering the international regulation of antitrust laws
- 2) F/UP on China regarding the top meeting decision
- 3) Discussions focused on 14"/15" prices

July PSI for each company and August plan (Refer to Attachment 1 for details)

- PHILIPS: 14" 17" to take place next February, production expected in March (14/17" dual)
- CPT: 2 17" lines expected in August and September of next year
  - ☞ Current domestic customers: AOC, PHILIPS, EMC, AND ACER
- IRICO: 17" production to start the year after next year
  - 15" MAX CAPA = 120K/M (P + F + DY domestic production)
- BMCC: 14" expected to resume in September
- ORION: 14"/15" AOC sales decrease

2. Production of monitors in China in the 1<sup>st</sup> half of '99 (Refer to Attachment 2)

3. Price issues (based on MPR II): bottom price for key accounts

## 중국 동업계 Meeting (8월)

□ 時 間: 1999/08/05

□ 場 所: 中國 南京, 玄武大酒店

□ 參席人員:

-PHILIPS 李修華, FRANK, 馬冰, 劉東, 魏思泉

-IRICO 李衛生, MR.沙, 王昭杰

-SSDD 李明植, 楊真

-ORION 朴正生, 吳明學

-CPT C.C.LIU, 呂鏡松, 余偉列

-BMCC 黃新文

□ 주요 내용

## 1. MR. C.C.LIU (CPT 본사 업무처장) 특강

- 1) 독과점 금지의 국제 법규를 고려, 동업계 Meeting 비밀 유지
- 2) Top Meeting 결정에 대해 중국대륙 F/UP
- 3) 14" / 15" 가격 중점 논의

## 2. 7월 업체별 PSI 및 8월 계획 (상세 내용 첨부1 참조)

- PHILIPS: 14" → 17" 내년 2월 개조, 3월 생산 예정(14/17" 겸용)
- C P T : 17" 2 Line 내년 8~9월 예정
  - ☞ 현재 내수판매처; AOC, PHILIPS, EMC, ACER
- IRICO : 17" 생산 내년이후로 연기
  - 15" MAX CAPA = 120K/M (P +F +DY 국산화)
- BMCC : 14" 9월 재개 예정
- ORION : 14"/15" AOC 판매 감소

## 3. '99 상반기 중국 MONITOR 생산 실적 (첨부 2 참조)

## 4. 가격문제(MPR II 기준); Bottom Price For Key Account

SIZE	8월		9월	
	수출가	내수가	수출가	내수가

*C.P.T.F* *OFFICE* *T-722 P02*  
002

Explanation:

1) *SDD*:

- ☐ To reflect a hot 14" market, other than *SEC 70K*, *EMC* was only able to deliver 50K (on orders of 70K) in August; the trend did not change in September, 160K orders did not get filled, many customers are waiting to purchase with cash in hand. It was analyzed that the demand this year between January and June for 14" would be 2600K, according to 1H:2H=45%:55%, latter half of the year would be about 3200K, but actual supply volume was only at 3000K. There are still unmet needs; therefore, it was proposed to increase \$2 on 14" again, and hope to start from 10/1.
- ☐ Although the 14" market condition is excellent, *SSDD* will still use part of the space to produce 17" because of high profitability of 17", and the factory side is leaning towards producing 17" *CDT*, and the plan is to schedule 9/E, 10/B to continue producing 17", *TTL 40-50K*, *MAX 60K*; later on, 17" will be scheduled for production every month, and the 17" produced would be supplied to *EMC* temporarily.
- ☐ 14" bare tube capacity at *MAX* is 7K/day currently, the backend capability may reach 8K/day; production of 17" will thus reach 150K/M.

2) *PHS*:

- ☐ *PHS* has a total of 5 weeks on September calendar, therefore its *OUTPUT* increased 25%.
- ☐ Current 14" *LINE* is expected to be converted into a mixed input line for 14"/17" in February of next year.
- ☐ Starting from February next year, 3 of the 15" production lines will be moved from *TWN* to *HF*, mass production will be in August. If all gets *SETUP*, there would be: *HF LAYOUT*, 4L 15", 1L 14"/17". Other than that, 17" 2L was also planned to be moved to *HF*, *TWN* will only keep Dapeng factory to produce 17"/19". *MR. Shou* indicated that *PHS*'s line change next year will take 6 months, 15" *TTL* supply volume would decrease by 1.2M, therefore, 15" continues to have a promising outlook next year.
- ☐

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

CONFIDENTIAL – GRAND JURY MATERIAL

Translation

3) *ORION*:

- ☐ *MR. Park* made a special explanation regarding *DAEWOO*'s current situation (detailed as attached): The 12 *DAEWOO* subsidiaries have been receiving special support from the Korean government, banks and other creditors since August 26. *ORION*'s current liability ratio is approximately 300%, creditors have agreed to extend interest payments, but *ORN* hopes to improve its physical condition by selling 46% shares of the Korean glass, *MEXICO* factory, and produce high profitability products. It will become an independent entity from *DAEWOO* at the end of the year. Mr. Park indicated the condition of *ORN* is not as bad as what outsiders imagined, its outlook is still optimistic.
  - ☐ 14" is confirmed to cease production starting from September, it will convert to producing the 15" *MINI* tubes of higher margin.
- 4) *BMCC*: Going through an internal reorganization (Personnel changes of Japanese and Korean presidents). In 9/4 internal meeting, future *CDT* production direction will be decided.

5) *IRICO*:

- ☐ *CAPA*. 120K/M, but there is still problem on *DY* supply, it can only produce 90-95K/M, 2000 production and sales target is 1500K.
- ☐ There are two major customers, *ROYAL* and Weihai Daewoo. *ROYAL* 50K/M, *DW* 20-30K/M. It indicated that *ROYAL*'s recent order condition is not too good, it questioned if the internal sales coefficient of 10.8 by other makers have been thoroughly implemented. Respective makers have all indicated that the customers did not react to the coefficient increase; the issue lays on *Irico*'s own poor order condition, and asked *Irico* to insist on implementation.
- ☐ It has a strong intention to bring in *AOC*, and hoped the makers would *SUPPORT* and asked for transparency on the *BOTTOM PRICE*. *CPT* indicated it wanted to bring in *AOC* and asked it to solemnly consider. Currently, *IRICO* could only supply 5K/M, but the low price has caused negative chain reaction for the overall industry, and asked *Irico* to come for joint review when it has more *SPACE* on its capacity. *PHS* & *SDD* both concurred and hoped that *Irico* would first maintain current layout jointly. [Handwritten:] *IRICO* agreed that it would not grab *AOC* or provide quotation to it temporarily.
- ☐ Original plan on 17" *CDT* line conversation is *PENDING*, there will be no *MP* in 2000.

99-09-07 15:51  
[Illegible]

T-722 P03

II. Meeting Conclusion:

- A) 14" price increase suggestion: Each attendee shall report to respective *HQ* and determination shall be made by *TOP MANAGEMENT*. It was suggested to increase price of \$2/*PC* starting 10/01/99.
- B) Current market layout is hoped to be maintained. Advance notice should be provided in case of any movements to enable a joint discussion.
- C) Makers shall insist on thorough implementation on the domestic sales coefficient increase.
- D) In order to strengthen the handling of Mainland China *MONITOR* market trend, attendees were requested to provide related market information, and a comprehensive review shall be held each quarter.

III. Next meeting will be hosted by *SDD*, date: *OCT 7*, venue: Tianjin.

-End of report- Submitted for approval

Respectfully submitted by Employee, Zun Chen  
*SEP. 6, 1999*  
[Signed:] Zun Chen 9/11/99

[Handwritten:]

1. Through regular meetings for a year, makers' attitude of cooperation have matured immensely.
2. The step taken by *IRICO*'s adjustment on coefficient for domestic sales is still slow, and it has a lot of concerns; it agreed to follow after persuasion.
3. In order to respond, a report was made to the director as to whether to increase price for 14" for overall consideration. *CPTF* shall proceed pursuant to the decision of the headquarters.

Market condition for 14" is hot, so there was no opposition to price increase. Korean's price increase for 15" has been unsuccessful toward its surrounding factories up to this time, but fierce towards Taiwanese makers. Taiwanese *Monitor* makers are all losing money, they can't compete with Korean makers. Therefore, the suspicion should be clarified first.

Submitted for approval

## 說明

## 1) SDD:

- 反映 14" 市场热络, 8 月除 SEC 70K, EMC 仅能交 50K (订单 70K)。9 月势头不减, 订单缺口 160K, 许多客户持币待购。并分析今年 1-6 月 14" 需求 2600K, 依 1H:2H=45%:55%, 下半年约 3200K, 而实际供应量仅 3000K, 仍有缺口。因此提议 14" 再涨价 \$2, 希望从 10/1 开始。
- 虽然 14" 市况大好, 但 SDD 仍会用部分 SPACE 生产 17", 因 17" 利润高, 厂方较偏向多生产 17" CDT。拟安排 9/E, 10/B 连续生产 17", TTL 40~50K, MAX 60K。后续每月均会安排 17" 生产。17" 暂时仅供应 EMC。
- 14" 目前裸管产能 MAX 7K/天, 后段能力可达 8K/天。全产 17" 可达 150K/M。

## 2) PHS:

- PHS 9 月日历共 5 周, 故 OUTPUT 增加 25%
- 现 14" LINE 预计明年 2 月改成 14"/17" 混投线。
- 明年 2 月起将从 TWN 移 3 条 15" 生产线至 HF, 8 月量产, 如全部 SETUP, HF LAYOUT: 4L 15", 1L 14"/17"。此外, 17" 2L 亦有打算移到 HF, TWN 仅保留大鵬厂, 生产 17"/19"。邵'R 表示明年 PHS 移线需 6 个月时间, 15" TTL 供应量将减少 1.2M, 因此 15" 明年应该还是看好。

## 3) ORION:

- 朴'R 特别就 DAEWOO 目前处境解释 (详见附件): 韩国政府、银行及其他债权人自 8/26 开始, 对包含 ORION 在内的 12 家 DAEWOO 子公司予以特别政策扶持, ORION 目前负债率约 300%, 债权人已同意利息可延期支付, 而 ORN 希望通过出售韩国玻璃 46% 股份, 及 MEXICO 工厂, 并生产高利润产品来改善体质。今年底则从 DAEWOO 独立出去。朴'R 表示 ORN 并不如外界想象的那么糟, 对前景仍表乐观。
- 14" 已确定从 9 月起停止生产, 改产利润较高之 15" MINI 管。

## 4) BMCC: 内部改组中 (日籍总经理更换), 9/4 内部会议将决定未来 CDT 生产动向。

## 5) IRICO:

- CAPA. 120K/M, 但目前 DY 供应仍有问题, 仅能产 90~95K/M, 2000 年产销目标 1500K。
- 现有两大客户 ROYAL 和威海大宇, ROYAL 50K/M, DW 20~30K/M, 表示 ROYAL 近期订单不太好, 质疑其他家内销系数 10.8 是否贯彻。各家均表示系数调涨客户并无反弹, 应是其客户自身订单状况不好, 请其坚决执行。
- 强烈意愿导入 AOC, 希望各家能 SUPPORT, 并要求 BOTTOM PRICE 透明化。CPT 表示要导入 AOC, 请其慎重考虑, 目前 IRICO 仅能供应 5K/M, 但低价会对整体产业产生不良连锁反应。请其产能有较多 SPACE 时, 再一起检讨。PHS 及 SDD 皆衰废成, 希望彩虹先共同维持现有格局。→ AOC 同意暂时不再对彩虹收取及报价。
- 原 17" CDT 改线计划 PENDING, 2000 年将不会 MP。

99-09-07 15:51

T-722 P03

## 二、会议结论

- A) 14"调涨价格建议, 各自向 HQ 通报, 再由 TOP MANAGEMENT 决策。建议从 99/10/01 起, 调涨\$2/PC.
- B) 希望保持现有市场格局, 如有任何动向, 请事先知会, 共同协商。
- C) 内销系数调涨仍请各家坚决贯彻。
- D) 为加强对大陆 MONITOR 市场动向把握, 后续请与会各方提供相关市场资料, 每季度汇总检讨。

三、下次會議由 SDD 主辦。時間: OCT 7。地點: 天津。

--以上報告-- 呈核

職: 陳達 敬呈  
SEP. 6, 1999

- 1. 經過一年來的定期聚會, 各家合作態度積極成熟。
2. 2R200 對內銷係數調整, 並開始慢且願意極多, 改動幅度, 同業進行。
3. 14" 價格漲至, 已向外發報告, 整體考量同業, 仍依原部決案進行辦理。
- 14" 市況熱, 不及對調漲, 但 15" 韓國對其國產家調漲不力, 對台商則免得停。台商加在產量留虧, 且無防範韓競爭。及次先澄清此意。 2/ 9/
- 主核
- Top 9/
- 9/

14" 不再調漲

	Samsung	0.00	0.00	1.55	1.26
	Total	2.22	3.11	3.28	3.35
<u>World Total</u>		<u>30.85</u>	<u>33.09</u> [Circled]	<u>57.24</u>	<u>57.62</u> [Circled]

Remark: Year 1999 calculations used each maker's actual production volume. Year 2000 calculations used each maker's planned production volume.

- ② The analysis and comparisons below are based on the CRT supply status described above and actual demand status.

(a). Demand & Supply for 14"

	1999	2000	
Demand	31.50	32.60	3.5%
Actual demand		33.94	
Supply	30.85	33.09	
Difference	-0.65	-0.85	
Rate	-2.1%	-2.5%	

LOGIC

1. No stock by 1999/E.
2. In comparison with 1999, demand for 2000 increased 3.5%.
3. Actual demand = Demand + Requested stock (2 weeks' QTY = 15/365)

Because of factors such as the economic recovery and the stimulus of the Olympics in year 2000, per the consolidation of each maker's opinion, the resolution was that there would be a 3.5% growth rate for the 14" tube.

P. 007

## (b). Demand &amp; Supply for 20"/21"

	1999	2000	
Demand	58.74	60.50	3.0%
21" Flat	1.30	4.10	
Without 21F	57.44	56.40	
Actual demand		58.22	
Supply	57.24	57.62	
Difference	-0.20	-0.60	
Rate	-0.3%	-1.0%	

## LOGIC

1. Stock by 1999/E (1.5M in China, 0.5M influence)
2. In comparison with 1999, demand for 2000 increased 3.0%.
3. Actual demand = Demand without 21F + Requested stock (2 weeks' QTY = 15/365) - 0.5M

☆[Hand-drawn star] For the year 2000, 21" flat tube production volumes are LG: 1.0M, Sony: 1.8M, MEC: 0.7M, TSB: 0.6M, totaling 4.1M [Underlined by hand].

## (B) Price Issues:

According to the aforementioned supply/demand and glass price-increase status, the makers at the meeting proposed the following increase plan:

Maker	LG	SDI	OEC	Thai-CRT	CPT	PH
14"	\$1	\$2	\$1	\$1	\$2	\$2
20"/21"	\$1	\$1	\$1	\$1	\$1	\$1
Effective Day	14" - 5/1 20" - 7/1	14" - 4/1 20" - 4/1	14" - 4/1 20" - 4/1	14" - 4/1 20" - 7/1	14" - 5/1 20" - 5/1	14" - 4/1 20" - 4/1

Considering the *Lead Time* for the price increase and minimizing the price difference for each customer, meeting attendees decided on the price increases below after extensive discussions:

## (a). 14" price

Customer	Agreed (ITC=Bare+3)	Conversion (ITC, Arrival, AS)	Current price	New price (ITC,
ORION	\$32 arr 45D Converted price	\$31.70	\$32 arr 45D \$31.70	\$34.00
SREC	\$33.5 arr AS Converted price	\$33.50	\$33.5 arr AS \$33.50	\$34.50
TCE	\$32.5 cif AS Converted price	\$32.80	\$32.5 arr AS \$32.50	\$34.00
AIWA	\$33 cif AS Converted price	\$33.30	\$33 arr AS \$33.00	\$34.50
FUNAI	\$33.5 arr AS Converted price	\$33.50	\$33 cif AS \$33.30	\$34.50
Others				\$34.50

English words found in the original text are *italicized*.

Translator's remarks are indicated in brackets [ ].

CHU00030982E

Translation

24/04/00 13:26 FAX No.:

P. 008

1. *Conversion: ITC=Bare+\$3.5, Arrival=CIF+\$0.3, Libor rate 7.5%*
2. *Effective from April 01*

Though the decision was to communicate to customers that April 1 would be the effective date of the price increase, considering the *Lead Time* and customer acceptance rate, the actually effective date should be May 1.

## (b). 20" price

Customer	Agreed (ITC=Bare+4	Conversion (ITC, Arrival	Current price	New price (ITC,
ORION	\$52 arr 45D Converted price	\$51.70	\$51 arr 30D \$50.70	\$52.50
SREC	\$53.5 arr AS Converted price	\$53.50	\$48B arr AS \$52.50	\$53.50
TCE	\$52.5 arr AS Converted price	\$52.50	\$52.5 arr AS \$52.50	\$53.00
AIWA	\$53 arr AS Converted price	\$53.00	\$53 arr AS \$53.00	\$53.50
FUNAI	\$53.5 arr AS Converted price	\$53.50	\$47.5B cif AS \$51.80	\$53.00
Others				\$53.50

1. *Conversion: ITC=Bare+\$4.5(But Minineck=Bare+\$4.0), Arrival =CIF+\$0.3, Libor rate 7.5%*
2. *Effective from July 01*

- ① *Orion and Funai's current prices are lower than that of other makers. Meeting attendees decided that these two makers would first do a partial increase starting May 1, and then complete the remaining price increase starting July 1.*
- ② *The price of the HTC Shenzhen 21" tubes that are exported to Southeast Asia is approximately \$48~49(ITC), lower than that of 20", seriously affecting the price increase. Meeting attendees decided to have the 20" tube increase situation clarified via SDI → HTC Shenzhen, CPT → IRICO, and OEC → TSB. These customers must also be convinced of the request that the 21" tube export price be at least \$3/pcs [Circled by hand] higher than that of the 20" tube [Underlined by hand].*
- ③ *In addition, according to LG's suggestion, the leader for this price increase has been changed as follows: SDI→SREC, Thai-CRT→TCE, LG→AIWA, OEC→Funai, and CPT→Orion.*
- ④ *According to Director Liu's suggestions, each Leader must provide written notification to its customer by 3/15. Other member must follow by 3/20. Each maker shall report its status at the 3/24 working level meeting.*
- ⑤ *Mr. Jim Smith of PH stated that PH's (Brazil) current total TV-tube production*

Translation

capacity is 7M. The planned production volumes for this year are 14"x3.1M, 20"x2.1M. The current production capacity still has room; they will not actively expand and take large orders. Even though *SREC* requested a supply increase to 50k/m, *SREC* deliveries will remain 30k/m and not expand. The current price is *CIF*\$32.5/pcs. Based on the decisions from the meeting, they promised to increase the price to *CIF*\$33.7/pcs starting from 4/1. As a reference, Manager Yang provided meeting attendees with each maker's first-quarter 14" delivery volume to *SREC* as below (Unit: Kpcs).

	Jan	Feb	Mar

① Regarding *Samtel's* status, *LG* explained that *Samtel* only delivers to *Funai* in Southeast Asia. This fiscal year's estimated volume is 400k/m, the price being \$29.5/pcs (*Bare Tube*). Now, the demand from *India Local* is strong and there is no extra *Capa* to supply to other customers. Director Liu added that *Samtel* is still supplying the Turkish market at a low price. *LG* stated that there should only be a small volume.

② *Mr. Cho* of *OEC* stated that the European 14" market price is \$36~35.5. *Ekranas's* current price is lower. Europe's new price will be approximately \$38. *Ekranas* stated that it would follow.

洽訪人員: SDI-Mr. S.K Park, Mr. John S. Ahn, Mr. Michael Son, Mr. S.W. Lee

I.G-Mr. G.I. Choi, Mr. K.J. Park

Orion-Mr. H.S. Lee, Mr. B.C. Jeon, Mr. Karl Min

Thai-CRT- Mr. Boonchoo

PII-Ms. Rosa Hu

CPT 人員: 楊經理, 杜清源

主題: 市場資訊交流及價格檢討

內容:

## (A) Update the glass price increase:

針對目前玻璃漲價狀況, 各家提報現被調漲幅度如下:

	14"	20"	21"	Effective Dat
CPT	5%	5%	5%	1/1/00
I.GE	\$0.6	\$0.5	\$0.5	2/1/00
OEC	8%	1%	---	1/1/00
PHS	5%	5%	5%	1/1/00
SDI	5%	5%	5%	2/1/00
Thai-CRT	5~10%	5~10%	5~10%	1/1/00
Average	\$0.5~0.6	\$0.5	\$0.5	

Remark: 玻璃價格約14": \$10、20": \$18、21": \$20

## (B) China 21" CPT:

● IRICO: 華映說明現IRICO 2線21"管生產線, '99年生產量: 305萬台, '00年預計: 200萬台(部份轉生產29"F), 現並無直接外銷; 於大陸內部銷售價格大戶RMB500, 一般客戶RMB510。

● ITC深圳: SDI提報現ITC深圳21"管外銷約50k/m, 今年度預計800k, 主要給土耳其市場。Thai-CRT補充現ITC深圳應已供應SREC(楊經理補充'99年100k, '00年20k/m), 另亦積極擴展對JVC泰國的銷售現價位為Bare: \$48左右(Thai-CRT價格: \$51)。

● PII華航: PII說明現大陸21"生意已轉佳, 原有庫存已減少; 今年預計生產量: 145萬台。目前僅少量外銷東南亞, 價格約\$50~\$51(ITC)。

現大陸21"CPT比20"價格還低, 將嚴重影響價格的調漲; 與會人員決議仍續請SDI、華映、PII努力和ITC深圳、IRICO、PII華航、BMCC等溝通要求21"管直接外銷價格一定要比20"管高\$3.0/pcs以上。

## (C) Notice New Price:

各家針對客戶別提出價格調漲進度如下:

24/09/00 13:26 FAX NO.:

P. 007

## (b).Demand &amp; Supply for 20"/21"

	1999	2000	
Demand	58.74	60.50	3.0%
21" Flat	1.30	4.10	
Without 21F	57.44	56.40	
Actual demand		58.22	
Supply	57.24	57.62	
Difference	-0.20	-0.60	
Rate	-0.3%	-1.0%	

## LOGIC

1. Stock by 1999/E (1.5M in China, 0.5M influence)

2. In comparison with 1999, demand for 2000 increase 3.0%

3. Actual demand=

Demand without 21F + Requested stock(2 weeks' QTY = 15/365) - 0.6M

★ 2000年21"平面管產量LG: 1.0M、Sony: 1.8M、MEC: 0.7M、TSB: 0.6M總共4.1M

## (B) Price Issues:

依據上述供需狀況及玻璃調漲狀況，與會各家提出調漲方案如下：

Maker	LG	SDI	OEC	Thai-CRT	CPT	PHI
14"	\$1	\$2	\$1	\$1	\$2	\$2
20"/21"	\$1	\$1	\$1	\$1	\$1	\$1
Effective	14"-5/1	14"-4/1	14"-4/1	14"-4/1	14"-5/1	14"-4/1
Day	20"-7/1	20"-4/1	20"-4/1	20"-7/1	20"-5/1	20"-4/1

考慮調漲的Lead Time及縮小原對客戶的價差，經與會人員廣泛討論後，決議對主要客戶調漲方案為：

## (a). 14" price

Customer	Agreed (ITC=Bare+\$3.	Conversion (ITC, Arrival, AS)	Current price	New price (ITC,
ORION	\$32 arr 45D Converted price	\$31.70	\$32 arr 45D \$31.70	\$34.00
SREC	\$33.5 arr AS Converted price	\$33.50	\$33.5 arr AS \$33.50	\$34.50
TCE	\$32.5 cif AS Converted price	\$32.80	\$32.5 arr AS \$32.50	\$34.00
AIWA	\$33 cif AS Converted price	\$33.30	\$33 arr AS \$33.00	\$34.50
FUNAI	\$33.5 arr AS Converted price	\$33.50	\$33 cif AS \$33.30	\$34.50
Others				\$34.60

24/04/00 13:26 FAX NO.:

P. 005

1. Conversion :  $ITC = Bare + \$3.3$ ,  $Arrial = CIF + \$0.3$ , Libor rate 7.5%

2. Effective from April 01

通知客戶漲價實施日期雖決議自4月1日，但考量Lead Time及客戶接受度應是5月1日起實施。

## (b). 20" price

Customer	Agreed ( $ITC = Bare + \$4$ )	Conversion ( $ITC$ , Arrival,	Current price	New price ( $ITC$ ,
ORION	\$52 arr 45D Converted price	\$51.70	\$61 arr 30D \$50.70	\$52.50
SREC	\$53.5 arr AS Converted price	\$53.50	\$48B arr AS \$52.50	\$53.50
TCE	\$52.6 arr AS Converted price	\$52.50	\$52.5 arr AS \$52.50	\$53.00
AIWA	\$53 arr AS Converted price	\$53.00	\$53 arr AS \$53.00	\$53.50
FUNAI	\$53.5 arr AS Converted price	\$53.50	\$47.5B cif AS \$51.80	\$53.00
Others				\$53.50

1. Conversion :  $ITC = Bare + \$4.5$  (But Minineck =  $Bare + \$4.0$ ),  $Arrial = CIF + \$0.3$ , Libor rate 7.5%

2. Effective from July 01

- ① Orion及Funai現行價位覺其他家低，與會人員亦決議此2家試著先由5月1日起部分調漲，7月1日起再漲足剩餘部份。
- ② 鑑於現HTC深圳21"管外銷東南亞價位為\$48.49(ITC)左右，比20"價格還低，將嚴重影響價格的調漲；與會人員決議由SDI → JTC深圳、CPT → IRICO、OEC → TSB說明20"管調漲狀況，並說服要求21"管外銷價至少必須與20"管維持\$3/pcs以上的差價。
- ③ 另依LG的建議此次調漲對各客戶的leader部份改為SDI → SREC、Thai-CRT → TCE、LG → AIWA、OEC → Funai、CPT → Orion。
- ④ 另依劉處長建議各Leader對負責客戶須於3/15前發出漲價信函，其餘member則須於3/20前跟進發出漲價信函；各家並於3/24的working level meeting中提報。
- ⑤ Phil Mr. Jim Smith說明現PII(巴西)TV管總產能為7M，今年計劃生產量14"x3.1M、20"x2.1M，現產能雖仍有剩，但並不積極對外擴大接單。SREC雖要求增加供應量至50k/m，但對SREC的交貨量仍維持30k/m不欲擴大，現行價格為CIF\$32.5/pcs，承諾依此次決議4/1起調整價位至CIF\$33.7/pcs。另楊經理提供各家第一季對SREC 14"管交貨量供與會人員參考如下：(Unit:Kpcs)

	Jan	Feb	Mar

TSB	3	4	?
PH	29	15	41
OEC	8	6	0
Total	105	133	106+

●LG 針對 Samtel 現況說明 Samtel 在東南亞地區僅對 Funai 有交貨，今年度數量預計 400k/m，價格為 \$29.5/pcs(Bare Tube)。現因印度 Local 需求強並無多餘 Capa 可供應其他客戶。劉處長補充說明於土耳其市場 Samtel 仍有低價供貨，LG 稱應僅少量而已。

●另 OEC Mr. Cho 說明現歐洲 14" 管市價 \$36-35.5，Ekranas 現價較低；歐洲新價將為 \$38 左右，Ekranas 稱將會跟進。

*CPTF* Sales Department Visitation Report

Meeting Main Topic: China *CDT* Market Exchange

Time: '00/04/06

Location: Xiamen

Meeting Attendees:

*CPTF*: Manager Jing-Song (Jason) Lu, Wei-Lie Yu *SDD*: Department Manager Myong Sik Lee, Team Leader Zhen Yang, Xiao-Mei Yu's/*SSDD*

*IRICO*: Zhao-Jie Wong *BMCC*: Manager Xin-Wen Huang *LG*: Zong-Wen Park  
President/Shenzhen Office

*PHS*: Manager Zheng-Fu Tian/*TWN*, Director Dong Liu/*HF ORION*: Myong Doek Pak,

Content:

I. '00. [Handwritten: "*Mar-Apr*"] China *CDT* Production Sales and Inventory Data  
Exchange (as in attachment 1).

II. Explanation

1. *SDI*:

- Currently, the domestic and external sales of the 15" *CDT* produced in China are about 45% and 55% each. BenQ is the main 17" *CDT* domestic sales customer.
- Originally, the Shenzhen *SDI* factory already verified and approved the 4*L* color tube production lines, with 2*L* already being utilized. It will decide in the near term if it will increase 17"/19" *CDT*x1*L* in year '01.
- Tianjin *SDI* actually stopped production for 9 days in March. This month, Shenzhen *SDI* also was listed into a plan to stop production for 5 days. Department Manager Lee indicated that he needed to verify it with headquarters again. According to his understanding, the plan only referred to the stopping of the 17" *CDT* mass production, to avoid affecting 14" *CDT*'s normal production.

2. *PHS*:

- Originally, Taiwan's 15"x3*L* would reach Nanjing bit by bit for installation starting 4/*M*. Because part of the equipment has shared usage, these 3*L* will simultaneously start utilization for mass production in September (14"/15"x1*L*;15"x2*L*). The existing 2*L* will be adjusted to 14"-17" shared lines.

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

CONFIDENTIAL – GRAND JURY MATERIAL

CHU00030992.01E  
Translation

- Manager Tian indicated that up to 3/E, the 15"/17" *CDT* inventory was each about 400-500k. He estimated that the heating of the entire market will start in June.

3. *IRICO* (IRICO):

- Under the circumstances of preserving existing customers, because customer quality is not good and there is still no new market, the entire inventory still remains high.
- The situation of the joint venture with *TSB* 17" *CDT* is now temporarily lined up to be completed in *Q4*, but it still can be delayed until *Q1* of next year. The ratio of the joint venture with *TSB* is 51:49. [Handwritten: "Production line is still being moved over from Japan."]

4. *ORION*:

- The current production line set up is 14"/15" *minix* 1L (*C'TY*:140-150k/M). Of which, 14"x40k, 15"x90-100k; 15" *Normal* 1L (*C'TY*:160k/M); 17" *CDT* x2.5L (*C'TY*:250k/M); 19" *CDT* x0.5L (*C'TY*:20k/M).

---

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

CONFIDENTIAL – GRAND JURY MATERIAL

CHU00030992.02E  
Translation

- Mainly delivered to AOC (around 40k/M), the *Mini* tube makes up more than 1/2 of the current 15" CDT monthly average delivery to China.
- Estimates are that the joint venture with Xincheng [Underlined by hand] [Handwritten above: "(Kunshan)"] China will be utilized for mass production in Q1 of next year 15"/17" CDTx1L (C'ty:150k/M). [Handwritten: "but it was claimed that the Xincheng financial area is problematic. This plan is already temporarily PENDING."] )

5. LG:

- About a monthly average of 50k 15" CDT are sold to Taiwan makers. The main China local customers are XOCECO/China Great Wall Computer Co/Founder (Combined calculation is about 20k/M). About 120k/M 17" CDT are now delivered to Taiwan makers, of which about 50-60k/M are delivered to AOC.
- The March average LG 15"/17" production volume was about 600k each. The inventory in 3/E was about 310k/250k. Estimates for the April production volume are 600k/560k. The inventory for 4/E was each about 380k/250k.

6. BMCC (BMCC): After it had been verified that starting in April, the direction is for Matsushita Philippines to produce 14" CDTx10k, temporarily there is no following CDT mass production plan. The original 17" CDT expansion situation is still *pending*.

III. Price Review:

1. Meeting attendees agreed still temporarily to maintain the U.S. dollar and RMB pricing coefficient as 10.8, ~~only actual current market coefficient already at about 10.4~~ [Crossed-out by hand].
2. In light of the pending global glass *shortage* situation, especially influenced by the large screen and flat tube's increasing demand, 14" CDT glass will be more lacking. In anticipation of future price CU, Huafei Color Display Systems/SDI both suggested reviewing a price increase for the 14" CDT. Simultaneously, this can create a price CU environment for later price adjustments. They requested headquarters to consider it.

IV. The next CDT meeting will tentatively be on 05/09 PM 2:30, held by HuaFei Color Display Systems.

~End of report~

[Handwritten:]

SDI still questioned if CPT gave preferential pricing to AOC, to which employee already determinedly denied. SDI also brought up that there should be a price increase for the 14" CDT because its demand exceeds its supply. Employee replied that it must be

## CPTF 业务部 洽 访 报 告

会议主题: 大陆 CDT 市场交流

时间: '00/04/06 地点: 厦门

与会人员:

CPTF: 吕经理镜松, 余伟列 SDD: 李明植部长, 杨真课长, 于晓梅's/SSDD

IRICO: 王昭杰 BMCC: 黄新闻经理 LG: 朴宗玟 总经理/ 深圳办事处

PHS: 田正富经理/TWN, 刘东处长/HF ORION: 朴明德

内容:

一、'00. Mar-Apr 大陆 CDT 产销存数据交换(如附件一)

二、说明:

### 1. SDI:

- 现大陆产 15"CDT 内、外销各约 45%、55%; 17"CDT 内销客户以明基为主。
- 原深圳三星工厂已经核准 4L 彩管生产线, 现已有 2L 稼动中, 将于近期决定是否于'01 年增加 17"/19"CDTx1L。
- 天津三星 3 月实际停产 9 天, 而本月深圳三星亦被列入停产 5 天之计划李部长表示需再与总部确认, 依其理解因仅指停止量产 17"CDT, 而避免影响到 14"CDT 正常生产。

### 2. PHS:

- 原台湾 15"x3L 将于 4/M-起陆续开始抵达南京进行安装, 由于其部分设备共用性原因, 该 3L 将于 9 月同时开始稼动量产 (14"/15"x1L; 15"x2L); 现有 2L 将调整为 14"-17"共用线。
- 田经理表示, 到 3/E 止 15"/17"CDT 库存各约 400-500k。其预计市场整体将从 6 月开始热络。

### 3. IRICO(彩虹电子);

- 在维持原既有客户下, 由于客户体质欠佳及仍无新市场, 致整体库存仍高居不下。
- 与 TSB17"CDT 合资案现暂排 Q4 完成, 但仍可能会延至明年 Q1, 与 TSB 合资比例各为 51:49。生产线由日本技术支援。

### 4. ORION:

- 现生产线设置为: 14"/15"minix1L(C'TY:140-150k/M), 现其中 14"x40k, 15"x90-100k ; 15"Normalx1L(C'TY:160k/M) ; 17"CDTx2.5L(C'TY:250k/M) ; 19"CDTx0.5L(C'TY:20k/M)。

EXHIBIT

1306

- 现月均交货到大陆 15"CDT 数量超过 1/2 为 Mini 管, 而以交 AOC 为主 (40k/M 左右) (昆山)
- 与大陆信诚合资案预计明年 Q1 稼动量产 15"/17"CDTx1L (C'ty:150k/M)。  
但信诚兄弟太有问题, 此计划已暂时 pending.
- 5. LG:
  - 15"CDT 月均售予台商数量约 50k, 大陆当地客户以厦华/长城/方正为主 (合计约 20k/M); 17"CDT 现交台商数量约 120k/M, 其中交 AOC 约 50-60k/M。
  - LG 15"/17"3 月均产量各约 600k, 3/E 库存各约 310k/250k; 4 月产量各预计为 600k/560k, 4/E 库存各约 380k/250k。

6. 北京松下 (BMCC): 确定于 4 月定向为菲律宾松下再生产 14" CDT x10k 后, 后续暂无 CDT 量产计划, 原 17" CDT 发展案仍在 pending 中。

### 三、价格检讨:

1. 与会者同意仍暂维持美金与人民币计价系数为 10.8, 惟实际现市场系数已在 10.4 左右。
2. 鉴于全球玻壳将出现 shortage 状况, 尤其是受大屏幕及平面管需求增长影响, 将致 14"CDT 玻壳愈加缺乏, 在预期未来价格 CU 下, 华飞/三星均建议检讨即调涨 14"CDT 价格, 同时可为后续价格调整营造价格 CU 环境, 请总部酌以考虑。

四、下次 CDT 会议预计于 05/09 PM2:30 由华飞主办。

Topic: Exchange of Market Information and Price Discussions

Content:

(A) Market overview:

(a) European 14" market:

Supply/demand and prices for the 14" tube market in Europe are presented below:

*Due to shortage market and rising 14" Price, European manufactures are fully operation.*

## 1. Production &amp; Sales

Unit: Mpcs

14" CPT production & sales in Europe					
Producer	Production	Import	Export	Actual sales	Remarks
CPT	2.4		0.6	1.8	Thailand
PH	4.7		0.2	4.5	Middle East
Dosa	0.7			0.7	
Ekranas	1.0			1.0	
Sony	0.4			0.4	
PH Brazil		0.7		0.7	
Irico		1.6		1.6	
Samsung		0.3		0.3	
Others		0.2		0.2	Samtel

2. *Price:*

14" CPT price information			
Q1	Q2	Q3	Q4
\$35~36	\$36~37	\$37~38	\$38

*14" CPT price will be increased gradually for this year.*

In respect of prices, Director Liu proposed that, even though the price for 14" tube in Europe had dropped dramatically due to decreased demand, right now demand for 14" tubes in Europe is hot and originally the difference between the tube price in the European and Asian markets was more than \$5.0, but now that the price in Asia has risen to around *ITC* \$35, the price target in Europe should be increased to above \$40. However, *OEC/PH* both claim, the prices for 20"/21" are calculated in Deutsche Marks; 20" tube is 100 Deutsche Marks (approximately US\$50) and 21" tube is 110 Deutsche Marks (approximately US\$55). The price difference between the 14" tube and 20"/21" tubes needs to be considered. After discussions, would like European *GSM Chairman Mr. Moon* to increase the price for 14" to \$39 in 3Q and \$40 in 4Q.

(b) *China 21" CPT:*

'00-04-18 09:43

T-592 P02/03

A summary of the information reported at the *working level meeting* on 3/24 follows:

1. *IRICO*: CPT explained that currently *IRICO*'s two operating lines that manufacture 21" tubes produced 3,050,000 units in 1999 and 2 million units are forecasted for 2000 (a portion will be converted to produce 25/29"F), and there is no direct export. Large domestic Chinese customers' price is *RMB500* and general customers' price is *RMB510*. Korean manufacturers all questioned whether *IRICO* is capable of starting production of 25/29"F by the end of this year, requesting that CPT investigate further. CPT replied that it has already arranged with *PH* personnel to meet *IRICO* personnel in Xian on April 28<sup>th</sup> and will provide further *update* on *IRICO* in due course.
2. *HTC Shenzhen*: *SDI* reported that *HTC Shenzhen* 21" exports approximately 60-70k/m. The estimate for this year is 800k. It primarily supplies to the Turkish market: 25k/m; Southeast Asia: 25-30k/m; South America: 5-10k/m. The current price for *Bare* is approximately \$48-49.5 (price to *JVC Thailand* is approximately *Bare* \$48).
3. *PH Huafei*: *PH* explained that business for 21" in China is getting better and inventory is being reduced. The estimated production volume for this year is 1,450,000 units. The current price for export to Korea is approximately \$50-51(*ITC*). *SDI* complained that this is lower than *local* 20" tube prices by \$1-2 and requested *PH* to increase sales price immediately. Mr. Jim Smith promised to request *Huafei* personnel to raise the price. Mr. Chairman requested *PH* to report the good news of an increased at the next *meeting*, even though the price increase cannot be done in one step.

Attendees resolved to request *SDI*, CPT, and *PH* to continue working hard and communicating to arrive at a direct export price for 21" tube to be at best \$3.0/*pcs* higher than that of 20" tube. However, considering that, in practice, the acceptable difference between 20" and 21" in China is \$1, so if the price for the 20" *Bare* tube is increased to \$50, the price of 21" in China for direct export cannot be lower than \$52.

(c) *Any other market information:*

1. *IRICO*: CPT reported on *IRICO*'s production and sales situation of 14" tube. There are currently two lines. Production volume for 1999 was 3.2M. Forecasted production volume for 2000 is 2.6M. It currently only exports to Turkish customer *Vestel*, the supply volume for which was 1.5M in 1999, and forecasted production volume for 2000 is 1.2M. The difference between the price, *FOB* \$28.5(*ITC*) → \$28.5 + \$1.5 (*Sea Freight*) + \$4.2 (*Import Duty*) + \$0.5 (*Inland Freight*) = \$34.7 (*Landing Price*), and *PH Landing Price*, \$35.7 (*FOB* \$35), is \$1. However, commencing March, such price will be increased to \$29.3 (*Landing Price* \$35.6), which is similar to the *PH* price. *IRICO* is hoping to raise the price to *PH* to \$36. Another new customer is *TCE Thai* factory and the forecasted supply to them is 100k for this year.

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

CONFIDENTIAL – GRAND JURY MATERIAL

CHU00030996.01E  
Translation

2. *PH* reported that the price 14" tube sold to *NAFTA* for 2Q is \$34. The forecasted sales volume for this year is 0.3M (plus 0.2M for 20", totaling 0.5M). Additionally, the Brazilian *TV* market is expected to grow 10%, so the overall demand may reach 4.5M. There are no sales to *MKA* in the USA, but they are considering a quotation of *CIF*\$33.7/pcs for a supply volume of 10k/m. Director Liu stated that the price currently proposed by CPT is *FOB base*, and if it were calculated on a *CIF* basis, then \$2/pcs should be added to the price to cover shipping charges, so *PH* should take note of the price difference. Mr. Chairman later requested *PH* Mr. Corsino to keep contact with *SDIOEC* personnel stationed in Mexico in order to exchange market and customer information.
3. *LG* reported that the current price from *Samtel* to *Funai* for 14" tube is \$29.5, which will be increased to \$30.5 in May.

(B) *Update Glass Price Information:*

	14" GLS	14" CPT	20" GLS	20" CPT
Current Price	\$10.0	\$30.0	\$18.0	\$49.0
Increased Price [sic]	\$0.5	\$1.0	\$0.5	\$1.0
Increased Rate	5.0%	3.3%	2.8%	2.0%

(C) *Price Adjustment Situation:*

The price increase and the proposed price of each maker to their respective customers are as follows:

'00-04-18 09:42

T-592 P03/03

Customer	Leader	Size	Q1	Apr	May	Jun	July onward
FUNAI	OEC	14" Bare	\$29.5	\$30.5	\$30.5	\$30.5	\$31.5
		20" Bare	\$47.5	\$48.5	\$48.5	\$48.5	\$49.5
AIWA	LG	14" ITC	\$33.5	\$34.5	\$34.5	\$34.5	\$34.5
		20" ITC	\$53.5	\$53.5	\$53.5	\$53.5	\$54.5
SREC	SDI	14" Bare	\$29.8	\$31.0	\$31.0	\$31.0	\$31.5
		20" Bare	\$48.0	\$48.0	\$48.0	\$48.0	\$49.0
ORION	CPT	14" ITC	\$32.0	\$32.0	\$34.0	\$34.0	\$34.0
		20" ITC	\$51.0	\$51.0	\$52.0	\$52.0	\$53.0
TCE	Thai-CRT	14" ITC	\$32.5	\$32.5	\$34.0	\$34.0	\$34.0
		20" ITC	\$52.5	\$52.5	\$52.5	\$52.5	\$53.0

- Regarding 20" tubes, Director Liu suggested that everyone originally had less faith in how hot the market would become in March, so the agreed price increase was small. Right now, the market is very hot, so he suggested that the price for 20" tube can be increased by \$1 to bottom price *Bare* \$50 (*ITC* \$54.5). After discussions, the bottom price of 20" *ITC* to customers from each maker is as follows: *Funai*: \$53.5; *AIWA*: \$53.5; *SREC*: \$53.5; *ORION*: \$53.0; *TCE*: Request \$53.5 (*Thai-CRT* has already informed its customers of a price increase to only \$53, so *Thai-CRT* is requested to continue working on this).
- Attendees have faith in increasing the price for 14" tube as original established by *SKDL* starting May 1st. The price may be further increased in July.

(D) *AOB*:

It was resolved that the *GSM TOP Meeting* shall be held in Shanghai on May 25<sup>th</sup> to be arranged by *PH*.

- End of report -

\$35~36	\$36~37	\$37~38	\$38

14" CPT price will be increased gradually for this year

針對價格劉處長提議歐洲14"管價位因市場需求不振大幅滑落,現歐洲14"管需求也熱絡起來,原14"管歐洲和亞洲管差價即在\$5.0以上,現亞洲價格將調至ITC \$35左右,歐洲管價位目標亦應調高至\$40以上。惟OEC/PH皆稱現20"/21"皆以德國馬克計價20"管價格100(約美金50),21"管價格110(約美金55),14"管價格需考量和20"/21"管的差價。經討論後將請歐洲GSM Chairman Mr.Moon設法調高14"管價格至3Q: \$39,4Q: \$40。

T-592 F02/03

案總3/24 working level meeting時提報資訊如下：

●IRICO：華映說明現IRICO 2線21"管生產線，'99年生產量：305萬台、'00年預計：200萬台(部份轉生產25/29"管)，現並無直接外銷；於大陸內部銷售價格大戶RMB500，一般客戶RMB510。針對IRICO是否有能力於今年底開始投產25/29"管，韓商皆表懷疑，請華映能再查證了解；華映回覆已安排於4/28會同PH人員至西安和IRICO人員會談，屆時將對IRICO現況再update。

●HTC深圳：SDI提報現HTC深圳21"管外銷約60-70k/m，今年度預計800k，主要給土耳其市場：25k/m、東南亞：25-30k/m、南美：5-10k/m。現價格約Bare：\$48-49.5(對JVC泰國的銷售現價位為Bare：\$48左右)。

●PH華飛：PH說明現大陸21"生意已轉佳，原有庫存已減少；今年預計生產量：145萬台。目前外銷韓國價格約\$50-51(ITC)，SDI報怨比local 20"管價格還低\$1-2，請PH即調高售價，Mr. Jim Smith承諾將要求華飛廠人員調高售價；Mr. Chairman要求PH雖無法一次調足價位，但下次meeting時一定要有已作調漲的好消息。

與會人員決議仍續訪SDI、華映、PH努力溝通要求21"管直接外銷價格最好和20"管價差能高\$3.0/pcs，但考量大陸實際21"產銷狀況可容許\$1的差異，即如20" Bare管價位調高至\$50，則大陸21"管直接外銷價，不要低於\$52。

(c)Any other market information:

●IRICO：華映提報IRICO現14"管產銷狀況：現有2線，'99年生產量：3.2M，'00年預計生產量：2.6M。現僅外銷土耳其客戶Vestel'99年供應量：1.5M，'00年供應量預計：1.2M。售價FOB \$28.5(ITC)→\$28.5 + \$1.5(Sea Freight) + \$4.2(Import duty) + \$0.5(Inland Freight) = \$34.7(Landing Price)和PH Landing Price \$35.7(FOB \$35)差價\$1；然3月份起已調高售價\$29.3 (Landing Price \$35.6)已和PH價格相當，希PH調高至\$36。另新客戶為TCE泰國廠，預計今年供應量100k。

●PH提報現20"銷NAFTA 14"管價格\$34，今年度預計銷售量0.3M(另20"預計0.2M共0.5M)。另稱巴西TV市場今年將有10%的成長，整體需求可達4.5M。對美國MKA現尚無銷售但考慮報價CIF \$33.7/pcs，供應量10k/m；劉處長告知現華映價格為FOB base，若以CIF價格計運費需另加\$2/pcs，請PH亦能正視此差價。後Mr. Chairman請PH Mr. Corsino能多和SDI/OEC等駐墨西哥人員聯繫，以交換市場及客戶訊息。

●LG提報現Samtel對Funai 14"管價格為\$29.5，5月份亦將調高至\$30.5。

(B)Update Glass Price Information:

	14" GLS	14" CPT	20" GLS	20" CPT
Current Price	\$10.0	\$30.0	\$18.0	\$49.0
Increased Price	\$0.5	\$1.0	\$0.5	\$1.0
Increased Rate	5.0%	3.3%	2.8%	2.0%

(C)Price 調整狀況：

各家提報對專賣客戶價格調漲通知及預定售價狀況如下：

Visitation Report (submitted)

[Handwritten:] Submitted for approval

Date: July 24, 2001

Visitors: *SDI – Mr. Lee, Mr. Park, Mr. Michael Son.*  
*LG – Mr. S.Y. Choi, Mr. H. K. Lee, Mr. J. S. Kim.*  
*Orion – Mr. Cho, Mr. Kim, Mr. Adam, Thai-CRT – Mr. Thanasak*

CPT Members: Vice President Chih-Chun (C.C.) Liu, Director Wen-Chun (Tony) Cheng, Director Sheng-Jen (S.Y.) Yang, Ling-Yun (Edward) Cheng.

Topic: CPT Market Information Exchange and Price/Production Discussion

Content:

(A) *Market Update*

(a) *SDI:*

The sales for 14" have dropped to 350K in July, which is about 100K less than the previous season. 80% of the reduction is due to pricing factors, which caused customers in Southeast Asia and China to reduce orders. 10% of the reduction is caused by summer vacation in Europe, which affects demands. The last 10% is affected by the weakening of the US economy. As for pricing, *SDI* suspects that *Thai-CRT* is trying to snatch orders from others by lowering price; for example, selling to *Sanyo* at \$24.65, *DW/Orion* \$25, *Thomson* \$25 and so on.

*SDI* explained that *BMCC* is under the effect of high inventory (180K). For 14" only one line is producing 150K/M. Currently, the hope is to do the best to keep the price of \$27 *CIF*.

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

CONFIDENTIAL – GRAND JURY MATERIAL

CHU00036412.01E

Translation

b) *Thai-CRT*:

The demands from major customers such as *Thomson* and *Funai* have dropped because of the weakening U.S. economy. The total sales of 14"/20"/21" for Q3 is 150K less than the previous quarter, and comparing to the same period last year, the first half has declined by 20%, of which, *Thomson* is 20% less, *JVC Thai* is 12% less. *Thai-CRT* has expressed that it is also suffering from a drop in sales volume, but has not been snatching for more orders with lower price; as for *Sanyo*, it is just the target price proposed by customers which has already been declined. *Thai-CRT*'s sales in the first half of this year: 14": 600K, 20"/21": 700K.

c) *Orion*:

The inventory is still high, the utilization rate for its Vietnamese factory is 80%, and the sales volume for Q3 is slightly less than Q2. Sales for Q4 are sliding downward. Overall, the sales in the second half of the year are only 70 - 80% of the sales in the first half of the year. *Orion* stated that the June sales in *TSB Indonesia* reached 200K because of *spot order*, and in July, sales dropped to 170K -180K.

d) *LG-PH*:

*LG* sales dropped under the influence of the slumping U.S. market. Current delivery to *Thomson* is only 3 *km*. The utilization rate of its factory in Indonesia is 80%. *PH(Br)* is influenced by *SREC*'s huge decline in the U.S. and *CIS* market, and there are almost no orders in the Asian Pacific region.

e) *CPT*:

The utilization rate of *CPTM* 14" is less than 80% and 20"/21" is only 50%. *CPTUK* already stopped production on one line. Also, *CPT* explained briefly the present situation of *Irigo*. This year's sales target for *Irigo* was reduced from 3M to 2.85M. June production was reduced by half to only 140-150K, in July it bounced back to 350K, with *Vestel* 30K, and *Thomson* 20-25K. *Irigo* said that it has agreed with *BMCC* to keep the 14" *ITC* \$27 *CIF* as the basis for the lowest quoting price.

(B) *3Q Price Guide Line*

The makers agreed using the 14": \$26.5, and 20": \$44 as the basis for the lowest Q3 quoted price in order to maintain the market order.

## 洽訪報告(星)

日期: 2001/7/24

洽訪人員: SDI- Mr. Lee, Mr. Park, Mr. Michael Son

LG- Mr. S.Y. Choi, Mr. H.K. Lee, Mr. J.S. Kim

Orion- Mr. Cho, Mr. Kim Mr. Adam Thai-CRT - Mr. Thanasak

CPT 人員: 劉副總、鄭處長、楊處長、程凌雲

主題: CPT 市場資訊交流及價格產量檢討

內容:

## (A) Market Update

## (a) SDI :

14" 7月銷量降至350K, 較前季減少100K, 其中減少的80%來自價格因素, 致使東南亞、大陸客戶減單, 10%是因歐洲放暑假影響需求, 另外10%則是受美國經濟衰退影響所致。關於價格部份, SDI 質疑 Thai-CRT 以低價搶單, 如 Sanyo \$24.65、DW/Orion \$25、Thomson \$25 等。

另 SDI 說明 BMCC 受高庫存影響(180K), 14" 僅一線生產 150K/M, 現希望盡力維持 \$27 CIF 之價格。

## (b) Thai-CRT :

主要客戶 Thomson、Funai 受美國經濟下滑而需求下跌, 3Q 14"/20"/21" 總銷量較前季減少 150K, 上半年亦較去年同期衰退 20%, 其中 Thomson 減少 20%、JVC Thai 減少 12%, Thai-CRT 表示其亦受銷量下跌之苦, 並未以低價搶單, 至於 Sanyo 部份僅係客戶所提之目標價, 已予以婉拒。另 Thai-CRT 今年上半年銷售 14": 600K, 20"/21": 700K。

## (c) Orion :

庫存仍高, 越南廠稼動率 80%, 3Q 銷量略小於 2Q, 4Q 則下滑。整體而言, 下半年之銷售僅佔上半年銷售之 70-80%。另 Orion 稱 TSB 印尼 6 月銷售因 spot order 達 200K, 7 月則降為 170-180K。

## (d) LG-PH :

LG 受美國市場低迷而銷售下跌, 現交 Thomson 僅 3 k/m, 印尼廠稼動率 80%。PH(Br) 則受 SREC 在 US 及 CIS 市場大幅衰退, 在亞太區幾無定單。

## (e) CPT :

CPTM 14" 稼動率低於 80%, 20"/21" 僅 50%, CPTUK 則已一線停產。另 CPT 簡單說明 Irico 現況, Irico 今年原銷售目標已由 3M 降為 2.85M, 6 月減產一半僅 140-150K, 7 月回復至 350K, 其中 Vestel 30K、Thomson 20-25K, Irico 表示已與 BMCC 協議維持 14" ITC \$27 CIF 做為最低報價依據。

## (B) 3Q Price Guide Line

各家仍同意以 14": \$26.5, 20": \$44 作為 3Q 最低報價依據, 以維市場秩序。

## Market Contact Report

Date: October 18-19, 2005

Targets: Irigo (*IRICO*) Group Electronics: Vice President Mr. Ximin Wang (in charge of sales)Irigo Group: Sales company General Manager Mr. Xiaolin Shen, Vice General Managers Mr. Zhiyuan Wei,  
Mr. Xiaohua Su, Assistant to the General Manager Mr. Linghai Liu, Director Ms. Yuan Liang.

## Contents:

## 1. Irigo CRT production line:

Plant 1				Plant 2				Plant 3
Line 1	Line 2	Line 3	Line 4	Line 1	Line 2	Line 3	Line 4	Line 1
14"	14"	15"/21"FS	21"RF	21"FS	21"FS	25"FS/RF	25"/29"RF	32"/34"
180k/m	180k/m	160k/m	170k/m	170k/m	170k/m	130k/m	120k/m	80k/m

- The total planned annual production capacity is around 16 million.
  - Apart from Plant 2's 21"FS as *Mini Neck*, the rest are all *Narrow Neck*.
  - 32"/34" just started and are in the customer evaluation stage, production efficiency is poor.
2. After fighting for a half year, nearly all mainland's color tube makers have had losses, and those including CDT are still making money, and of those that are purely CPT, only BMCC is profitable. Various makers' profits from January-June are roughly as follows:

	'05 Jan-Jun profit/loss	Remark
BMCC	+ RMB 50 million	More are flat
Seg-Hitachi	- RMB 80 million	21" major losses
Huafei	+ RMB 140 million	Includes CDT, mostly CDT profitable
Yongxin	- RMB 180 million	21" major losses
THOMSON	- RMB 700 million	Global Thomson
LG	+ RMB 170 million	Includes CDT, mostly CDT profitable
Shuguang		
Samsung	+ RMB 220 million	Mostly CDT. (Tianjin: 64 million, Shenzhen: US\$19,430,000)
Irigo	- RMB 32 million	14" profitable, 21"FS major losses

As far as we know, in July and August Hitachi, Yongxin, Irigo, and Thomson's losses were even bigger (in August Irigo lost RMB 30 million), and things didn't get a little better until September.

## 3. Irigo's Jan-Aug CRT sales reached a total of 7.59 million (of which 3.8 million were exports), each Type is as follows:

14	15"PF	21"PF	21"FS(thick)	21"FS	25"FS	25"PF	29"PF
3029K	458K	721K	182K	1861K	728K	592K	15K

In September mainland's demand for 21" grew greatly, and that month's sales reached over 1.5 million. With the consumption during the past few months, the overall inventory volume dropped from this year's high of over 2.2 million to the healthy level of under 700,000 in 10/M.

4. Analyzing global 14" supply and demand, *IRICO* and CPT's supply should be able to reach 12 million/year, accounting for over 30% of market demand. If we take out special markets such as Brazil, India, and Western Europe (14% customs duty), the supply volume ratio is even higher. Stressed that 14" should be the item with the most opportunities for the cooperation between the two. Especially in mainland region, general CPT's price for 14" is about \$0.5 greater than Irigo. It is much greater in Southeast Asia. Hope with both sides' sufficient communication and no malicious competition, can hold the market price and create a win-win opportunity.

[Handwritten:]

- Establish positive interaction, starting with 14"CPT.
- Besides the product competitiveness, make strategic plan as an overall advantage.

[Signed:] Hsiang-Kwei Chung 10/26/2005

English words found in the original text are italicized.

Translator's remarks are indicated in brackets [].

5. Recent mainland's changes in the 21" market:

- a. With the start of export sales order growth and domestic sales market production starting in September, 21" demand grew greatly in September and October. All *CRT* plants are producing at full capacity. Also, 21" *FS* market prices generally rose from \$24-\$25 to \$25-\$26 (some may be to \$27).
- b. Irico believes that the domestic sales market reached a sales peak at the 10/1 National Day holiday, but all was quiet after that, and even though *TV* makers continued planning high production volumes up to December, poor Spring Festival sales will cause big troubles again.
- c. As for whether there are increases again in November, apart from *SDI* being more active, most are adopting a conservative attitude. Irico also believes that there is not much chance of another price increase in November for 21" *FS*.
- d. *CPT*'s current 21" *FS* price is already higher than mainland's sales price after the first wave of price increases. In regards to November 21" *FS* sales price, even though some discussed price increases with customers, we must respond carefully. It would be good to synchronize with mainland's color tube makers.

6. Summing up the views on next year's *TV* market demand and *CRT* supply and demand, all believe that next year's overall condition will be slightly better than this year for the following main reasons:

- a. There were no major activities (like the Olympics) this year that stimulated consumption, but next year there is the 2006 World Cup in Germany, and past experience tells us this stimulates demand some.
- b. Last year's market overheating caused high *TV* inventories at the beginning of this year, then *CRT* plants did not produce with restraint, causing severe oversupply for *TV* and *CRT*, and market prices fell drastically. Next year most people will have learned their lesson, and there will be less of an impact from high inventories, and production and sales order should be relatively normal.
- c. With erosion from *LCD TV*s, everyone was bearish on Japanese, U.S., and European *CRT TV* demand, but still was positive about demand in emerging regions and countries such as Russia, Southeast Asia, India, the Middle East, Africa, and Brazil.
- d. For supply, the production halt of *LPD* this year in Spain and the U.K. will have a clearer effect next year, and after the huge losses this year on the mainland for Yongxin, Hitachi, and Thomson, there are still variables as to whether they can survive next year. Therefore, on the whole, supply should be more stable. There won't be new capacity. Instead there will be effects from production stoppage and a decrease in the pass rates of *Slim types* produced by *CRT* makers. It is expected that the overall production will fall slightly. Even though supply will still exceed demand, the situation will be a little better than this year.

End of report

Respectfully submitted for approval.

[Handwritten:]

1. Make strategies with full understanding of the market information.
2. Using speed, flexibility and seizing the first opportunity as corner stone.

## 市場接洽報告

日期：2005年10月18-19日

對象：彩虹(IRICO)集團電子：副總裁 Mr. 王西民 (主管銷售)

彩虹集團：銷售公司總經理 Mr. 申小琳、副總經理 Mr. 魏致遠、Mr. 蘇曉華、  
總經理助理 Mr. 劉愛海、部長 Ms. 梁棧

內容：

## 1. 彩虹 CRT 生產線：

一廠				二廠				三廠
Line 1	Line 2	Line 3	Line 4	Line 1	Line 2	Line 3	Line 4	Line 1
14"	14"	15"/21"FS	21"RF	21"FS	21"FS	25"FS/RF	25"/29"RF	32"/34"
180k/m	180k/m	160k/m	170k/m	170k/m	170k/m	130k/m	120k/m	80k/m

- 規劃之年產能共約 1600 萬。
  - 除二廠之 21"FS 為 Mini Neck 外，餘均為 Narrow Neck。
  - 32"/34"剛開始，處於客戶評估階段，生產效率差。
2. 大陸彩管廠在經過半年的腐蝕後幾乎都在虧損狀況，含 CDT 的都還賺錢，單純 CPT 的只有 BMCC 有利潤。1-6 月各廠利潤概略如下：

	'05 1-6 月贏虧	Remark
BMCC	人民幣 5000 萬	平面多
賽格日立	- 人民幣 8000 萬	21"大虧
華飛	人民幣 1 億 4 千萬	含 CDT、主要是 CDT 賺錢
永新	- 人民幣 1 億 8 千萬	21"大虧
THOMSON	- 人民幣 7 億	全球 Thomson
LG 曙光	+ 人民幣 1 億 7 千萬	含 CDT、主要是 CDT 賺錢
三星	+ 人民幣 2 億 2 千萬	主要是 CDT。(天津：6400 萬、深圳：US\$1943 萬)
彩虹	- 人民幣 3200 萬	14"賺、21"FS 大虧

據了解 7、8 月日立、永新、彩虹、Thomson 之虧損更大(彩虹 8 月份虧損 3000 萬人民幣)，到 9 月才稍好轉。

## 3. 彩虹 1-8 月之 CRT 銷售共達 759 萬 (其中出口 380 萬)，各 Type 如下：

14	15"PF	21"PF	21"FS(粗)	21"FS	25"FS	25"PF	29"PF
3029K	458K	721K	182K	1861K	728K	592K	15K

9 月份在大陸 21"需求大幅增加下，單月銷售達 150 萬以上，整體之庫存量在近數月的消化下也自今年最高點 220 餘萬降至 10/M 之 70 萬以下之健康水準。

4. 分析全球 14"之供需 IRICO 與 CPT 供應可達 1200 萬/年，佔市場需求之 30%以上，如扣除巴西、印度、西歐(14%關稅)等特殊市場，供應量比率更高。強調 14"應是兩家最有機會合作的項目，尤其在大陸地區，14"一般 CPT 的價格比彩虹高 \$0.5 左右，東南亞地區則高更多，希能在雙方充分溝通、不惡性競爭之下，守住市場價格，創造雙贏的契機。

① 建立良性互動，由 14" CPT 起著力。

② 產品競爭力外，以策略規劃做全面優勢。

EXHIBIT

1278

## 5. 近期大陸的 21" 市場變化：

- a. 在 9 月開始外銷訂單成長及內銷市場之生產啟動下，9、10 月之 21" 需求大增，各 CRT 廠也全產能生產，同時 21" FS 之市場價格也普遍由 \$24-\$25 回升到 \$25-\$26 (部份有可能到 \$27)。
  - b. 彩虹認為內銷市場在 10/1 國慶節時確有一波銷售高潮，但過後又是一片沉寂，雖 TV 廠商持續規劃高生產量到 12 月，但如春節銷售不佳將又有太麻煩。
  - c. 對於 11 月是否再調漲現況除 SD1 較積極外，大都採保守態度，而彩虹也認為 11 月 21" FS 要再漲價可能性不高。
  - d. CPT 之 21" FS 現價已比大陸之第一波漲價後之售價高，對 11 月之 21" FS 售價雖部份與客戶檢討漲價，仍需小心因應，與大陸彩管廠同步為宜。
6. 綜合對明年的 TV 市場需求、CRT 供需看法，皆認為明年整體狀況應比今年稍好，主要原因分析有：
- a. 今年沒有任何大型活動(如奧運)刺激消費，但明年有 2006 德國世界杯足球賽，按過去經驗當會刺激一些需求。
  - b. 去年市場過熱造成今年初之 TV 高庫存，而後之 CRT 廠未節制生產，造成整體 TV、CRT 嚴重供過於求市場價格慘跌。明年度至少大部份人會記取教訓，高庫存效應的影響減低，產銷秩序應會較正常。
  - c. 受 LCD TV 之侵蝕，大家普遍對日本、美國、歐洲之 CRT TV 需求看淡，但仍看好新興地區、國家的需求，如蘇聯、東南亞、印度、中東、非洲、巴西等。
  - d. 供應方面 LPD 今年在西班牙、英國之停產在明年效應會較明顯，且大陸的永新、日立、Thomson 在今年大虧後，明年能否持續存活仍有變數。故整體而言供應方面應會較穩定，沒有新產能開出，反而有停產效應加上部份 CRT 廠商生產 Slim type 良率降低，總產出預期會稍減，雖仍是供過於求但情況會比今年好一些。

以上報告  
恭呈核示

1) 全面掌握市場情報，做策略

2) 迅速反應，勇奪商機，做多著力處。

CONTINUED VIDEOTAPED DEPOSITION of SHENG-JEN YANG,  
held at the aforementioned time and place, before  
Audrey Shirley, Qualified Realtime Reporter, MBIVR.

1 price will drop a little, but it is up and down, 17:24:23  
2 so no big changes. And we just take WET, beside 17:24:25  
3 of WET what everyone -- no big change, just up 17:24:37  
4 and down. And most of our -- those customer 17:24:38  
5 their production planning for the next year is 17:24:45  
6 better than this year. But because of some 17:24:47  
7 customer, they -- they -- usually when they do 17:24:49  
8 the planning, whether it be gross or little, so 17:24:52  
9 everyone -- everyone the planning data, nobody is 17:24:59  
10 better than last year. So, if you drop this 17:25:05  
11 portion then we think at least for year 2002 can 17:25:12  
12 be maintained the same level with year 2001, or 17:25:15  
13 even can have a little increased. This is what 17:25:17  
14 we explain -- we report, we write down the report 17:25:21  
15 in this glass meeting. 17:25:27  
16 Q. And this particular report relates to 17:25:29  
17 color picture tubes? 17:25:34  
18 A. Yes. 17:25:35  
19 (Whereupon Deposition Exhibit No. 1278/E 17:26:10  
20 Was marked for identification.) 17:26:30  
21 BY MR. SCHIRMER: 17:26:30  
22 Q. Showing you what has been marked as 17:26:30  
23 Exhibit 1278. It bears Bates label CHU00040992 17:26:32  
24 through '93. Why don't you have a look at it for 17:26:41  
25 a minute and then I'll ask you a few questions. 17:26:44

1 Chunghwa's business? 17:31:14

2 A. Yes. 17:31:27

3 Q. Please look at point number 4 on page 17:31:28

4 '40992. 17:31:35

5 A. Yes. 17:31:43

6 Q. When it says, "accounting for ..." -- 17:31:44

7 there's a -- the first sentence finishes with the 17:31:53

8 language, "Accounting for over 30 per cent of 17:31:55

9 market demand." Now, to what market are you 17:31:58

10 referring to there? 17:32:01

11 A. Here we calculate for 14-inch capacity 17:32:05

12 Chunghwa -- just for calculate CPT and Irico, 17:32:18

13 Chunghwa and Irico, we can reach 1.2 -- no, 17:32:23

14 sorry, 12 million per year. So we forecast 17:32:28

15 a worldwide demand for 14-inch, we -- our 12 17:32:36

16 million can be more than 30 per cent. 17:32:40

17 Q. Okay. What did you mean in the last 17:32:42

18 sentence of this point where you said: 17:32:52

19 "We hope with both sides sufficient 17:32:55

20 communication and no malicious competition can hold 17:32:57

21 market price and create a win-win opportunity." 17:33:00

22 A. This is because of, as I write down 17:33:06

23 here, for worldwide we already -- our supply 17:33:09

24 quantity already more than 30 per cent for the 17:33:17

25 worldwide. If you deduct some special market 17:33:21

1     like Brazil, Indian, or Western Europe, so our     17:33:28  
2     market share will be higher. So, we so big -- so     17:33:32  
3     high market share occupation then for the 14-inch     17:33:42  
4     price we can have a good -- in case we can have     17:33:48  
5     a very good communication, don't compete each     17:33:55  
6     other with very -- with price cutting, so we can     17:33:58  
7     keep the market price to create the win-win     17:34:04  
8     opportunity.     17:34:08

9             Q.     Okay. Would you look at the next page     17:34:11  
10     of the document, '40993? At the bottom of this     17:34:14  
11     page, is there a point in handwriting that says:     17:34:24

12             "Make strategies with full understanding of     17:34:29  
13     the market information"?     17:34:31

14             A.     This is write down by our CRT business     17:34:39  
15     unit, vice president of CRT business unit at the     17:34:43  
16     moment, Mr. Chung.     17:34:49

17             Q.     And what does it mean to say -- is that     17:34:55  
18     Mr. Chung's handwriting?     17:34:57

19             A.     Yes.     17:34:59

20             Q.     Do you understand what Mr. Chung meant     17:34:59  
21     when he said -- wrote, "Make full understanding     17:35:01  
22     of the market information"?     17:35:06

23             A.     He write down here what to can know or     17:35:11  
24     just understand the market information more, we     17:35:18  
25     can do a good strategy for ourself.     17:35:23

Color Tube Industry Association Presidents' Meeting Notice (No.200701)

Based on the spirit of the Shanghai President's meeting held in December 2006, through discussion, with consent from Chief Wenqing Fan, the 8 major color tubes industry association will hold Presidents' meeting on January 23, 2007 (Tuesday) in Shann'xi Xi'an, detailed as follows:

I. Date: January 23, 2007

09:00 -- 10:30 Current industry condition report  
10:30 -- 11:00 Lead attendees' speech  
11:00 -- 11:50 Lead attendees' workshop  
12:20 -- Lunch

II. Location: Shannxi Xi'an Datang Furong Garden Fanglin Hotel

III. Attendees:

Especially inviting CPTF (Fuzhou factory) to attend this meeting

Respective companies' president, company leader in charge of sales, sales department head and industry information collectors

IV. Meeting chair:

Chief Secretary Guojun Yang

V. Agendas for the meeting:

1. Current condition of color television and color tubes and quarterly, 2007 market trend forecast report (30 minutes)
2. Solidified meeting spirit from the December Shanghai Presidents' meeting and looking back (20 minutes)
3. How to have an in-depth communication and cooperation in the color tube industry to welcome the 2007 market jointly (10 minutes to each speaking party from respective companies).
4. Leader attendees workshop in how to pursue long term development and relative topics on *CRT* color television (50 minutes)

VI. Requirements for the meeting

1. Each company shall send company leaders for timely attendance.
2. Please prepare advance materials for speech, no audio recording during meeting, meeting contents shall not be leaked to outside.
3. Meeting fee based on *AA* policy.

VII. Respective information collector for color tube industry shall provide attending leaders' list to Irigo group sales company marketing department by January 16<sup>th</sup>, 2007, Irigo shall arrange for airport transportation. Thank you for your cooperation!

## **彩管行业协会总经理会议通知**(编号 200701)

根据 2006 年 12 月上海总经理会议精神，经商范文强会长同意，八大彩管行业协会拟定于 2007 年 1 月 23 日(星期二)在陕西西安召开总经理会议，具体如下：

### **一、 时间：2007 年 1 月 23 日**

09：00～10:30 行业现状通报  
10：30～11：00 与会领导发言  
11：00～11：50 与会领导座谈  
12：20～ 午宴

### **二、地点：陕西 西安大唐芙蓉园芳林苑酒店**

### **三、与会人员：**

本次会议特邀请中华映管（福州厂）参加会议

各公司总经理、主管销售的公司领导、营销部长及行业信息员

### **四、会议主持：**

杨国钧秘书长

### **五、会议议题：**

- 1、 当前彩电彩管行业现状及一季度、07 年市场形势预测汇报（30 分钟）；
- 2、 12 月上海总经理会议精神的落实及其回顾（20 分钟）；
- 3、 彩管行业如何深入沟通协作，共同迎接 07 年市场（各公司发言 10 分钟）；
- 4、 与会领导座谈如何谋求 CRT 彩电的长远发展等相关议题（50 分钟）

### **六、会议要求：**

- 1、 请各公司领导准时出席；
- 2、 请提前做好发言的资料准备，会议期间不得录音，会议内容不得外泄；
- 3、 会务费用 AA 制；

### **七、请各位彩管行业信息员在 07 年 1 月 16 日前将参加会议领导名单反馈到彩虹集团销售公司市场部，彩虹将安排接送机服务。谢谢合作！**

联系人：彩虹集团销售公司 姚 军

## Short Month Plus Chinese New Year Shut Down Dampens Demand

*By John F. Jacobs*

A number of factors converged to dampen demand in February. The shorter month, combined with the typical 7-9 day shutdown of OEMs and contract manufacturers for the Chinese New Year and typical seasonal slowness—especially for LCD TV products—contributed to a 3.4% M/M decline for blended large area ASPs. LCD TV panels, as a group, were down just 3.2% M/M.

However, the average price change among LCD TV panels is somewhat misleading as the average diagonal size of these panels continues to increase. In Q1'06, the average LCD TV panel size was 27.63". By Q4'06, the average size had increased to 30.36". As the average diagonal size of LCD TV panels was increasing by almost 10%, prices were declining by almost 15%. In 2006, average LCD TV panel price per diagonal inch fell from \$16.38 in Q1'06 to \$12.61 in Q4'06, a 23% decline. Put in another context, when examining 32" LCD TV panels, which represent approximately one-third of all LCD TV panels being shipped today, prices are down more than 40% Y/Y in February.

Because of the ongoing shift to larger LCD TV panels, to appropriately measure the impact of LCD TV panel price declines, it is important to examine the changes to prices within specific size groups. By contrast, the average diagonal size of monitor panels increased just 2.3% in 2006 and notebook panel size increased just 0.1%!

With a very broad range of panel sizes, the LCD TV panel market is less easily categorized than the notebook or monitor markets. However, returning to our 32" example above, we can see that the current low price of 32" is half of what the high price was for these products a year ago. Additionally, the price gaps between 40" and 42" HD (1366 × 768) and FHD (1920 × 1080) indicate that 42" is losing the battle, with prices for the larger panel consistently \$20-50 less than the smaller panel.

In the near term we expect that prices for LCD TV panels will continue to decline M/M, with little relief for panel makers until Q3'07 when we expect a modest amount of price increases for select LCD TV panels. A detailed examination of panel pricing through all of 2007 is contained in the DisplaySearch *Monthly Large-Area Pricing Report*.

## High and Low Prices

High and low prices for major LCD TV panels are shown in Table 3.

### LCD TV Panel Pricing

- 20" 640 × 480 – Prices for these panels have fallen just 5-7% in the past three months to \$150-160. Although share has fallen since early 2006, demand for this panel remains strong, representing just over 12% market share.

- 23" (All Resolutions) – Prices for these panels were flat M/M, with ASPs remaining as low as \$195. As expected, demand for this group is down seasonally in Q1'07. However, demand is down more than would be expected as share is declining from 2.9% in Q4'06 to an expected 2.5% in Q1'07.
- 26-27" (All Resolutions) – After representing almost 20% of the LCD TV panel market in early 2006, share has steadily declined and volumes are effectively flat. Prices have declined by \$5-10 M/M for the past three months.
- 32" (All Resolutions) – Representing the mainstay of the LCD TV market, panels in this group accounted for more than 36% of all LCD TV panels shipped in Q4'06. Despite the strong demand, prices are almost half of what they were one year ago. Low prices fell below \$300 in February, and "high" prices should pass through that threshold soon.
- 37" 1366 × 768 – Prices have already fallen below \$450 on the "low" end, and we forecast that the \$400 barrier will be breached later this year.
- 37" 1920 × 1080 – FHD at 37" no longer costs more than \$500 as that barrier was breached in February.
- 40" 1366 × 768 – Prices for this panel have fallen by \$50 in the past three months to just over \$600. Market share appears to have peaked at more than 7% in Q2'06, as it has dropped to less than 6% in Q4'06.
- 40" 1920 × 1080 – FHD at 40" fell below \$700 in February. Despite the amount of attention that the 40" and 42" segments receive, HD and FHD panels at both sizes combine for just 15% of the total LCD TV panel market, with almost 11% of that accounted for by the 1366 × 768 panels.
- 42" 1366 × 768 – Prices for this panel are down sharply over the past several months, dropping well below the 40" 1366 × 768 panels to less than \$600 in February.
- 42" 1920 × 1080 – Like the 42" 1366 × 768 panels, prices for these have fallen well below 40" 1920 × 1080 panels, dropping as low as \$635 in February. With the typically slow consumer electronics season upon us, it is likely that price competition will increase in the LCD TV market and panel prices will continue to steadily decline.

**Table 3 March 2006 – March 2007: LCD TV Panel LCD Pricing Trends**

		Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar

## Price Gaps

The price gaps for LCD TV panels are shown in Table 4.

### LCD TV Panel Price Gaps

- 23" All Resolutions vs. 20" 640 × 480 — By March, the gap is expected to drop below \$50.
- 32" All Resolutions vs. 25-27" All Resolutions — The price premium for 32" has plummeted from more than \$150 a year ago to just a fraction above \$50 today.
- 37" 1920 × 1080 vs. 37" 1366 × 768 — The HD to FHD price gap at 37", which peaked at almost \$120 last summer, has dropped to less than \$60.
- 40" 1920 × 1080 vs. 40" 1366 × 768 — At 40", the HD top FHD price gap is expected to fall to less than \$80 in March.
- 40" 1366 × 768 vs. 37" 1366 × 768 — Three more inches of HD adds more than \$150 to the panel price.
- 40" 1920 × 1080 vs. 37" 1920 × 1080 — An additional three inches of FHD adds close to \$200.
- 42" 1920 × 1080 and 1366 × 768 vs. 40" 1920 × 1080 and 1366 × 768 — The battle between these two sizes seems to be tipping heavily towards the 40" products as both the 42" HD (1366 × 768) and FHD (1920 × 1080) panels are priced between \$30 and \$50 less than the smaller panels.

**Table 4 March 2006 – March 2007 Weighted Average Price Gaps**

**DisplaySearch Reports Samsung #1 in 2006 TV Revenues, Sony #1 in LCD TV Revenues, LCDs Overtake Plasma at 40-42" in Q4'06**

By Ross Young

DisplaySearch released Q4'06 TV shipments and revenues by technology, brand, region, size and resolution for 53 different TV brands as part of its *Quarterly Global TV Shipment and Forecast Report*.

Global TV unit shipments grew 26% Q/Q in seasonally strong Q4, while declining 2% Y/Y to 57.3M. Average TV prices fell just 2% Q/Q due to a strong shift towards flat panel TVs and increased 15% Y/Y to \$531. LCD and PDP TV prices fell 21% and 29% Y/Y, respectively, which boosted the flat panel unit share from 19% in Q4'05 to 37% in Q4'06 and the flat

panel revenue share from 57% in Q4'05 to 72% in Q4'06 as shown in the following figure. As a result, TV revenues reached a new record high of \$30.4B, up 23% Q/Q and 13% Y/Y. For the year, worldwide TV units rose 1% to 189M units, while revenues jumped 25% to \$101B as ASPs rose 24% to \$533.

**Figure 1 Q1'05 – Q4'06 Flat Panel TV Unit and Revenue Share**

By region, Europe enjoyed the fastest sequential unit and revenue growth, up 67% and 57%, respectively, after channel inventories were depleted in Q3'06. North America earned the highest Y/Y unit growth triggered by excessive Q3'06 sell-in leading to rapid price declines in large-sized flat panel TVs while China earned the highest Y/Y revenue growth.

By technology, LCD TVs were the only technology to enjoy Y/Y revenue growth in Q4'06, up 69% as 113% unit growth more than offset the 21% ASP declines. LCD TV shipments reached a record high 18.2M units and a 32% share of the Q4'06 TV market. For the year, LCD TVs rose 117% to 46.0M units and a 24% share, up from 11% in 2005. On a revenue basis, LCD TVs led with a 49% share, up from 32% in 2005. LCD TVs gained significant share in every region vs. Q3'06, earned more than a 50% share for the first time in Europe and overtook CRT TVs in North America. Europe was the top region for LCD TVs, holding a 40% share. By size category, LCD TVs overtook PDP TVs at 40-44" for the first time in Q4'06 as shown in the following figure, holding a 52% to 46% advantage and leading in China, Europe Japan and North America. Larger sizes continued to gain share with 30" and larger LCD TVs accounting for 60% of Q4'06 LCD TV volumes, up from 43% in Q4'05. The 40"+ share reached 17%, up dramatically from just 6% in Q4'05. 1080p LCD TVs rose from a 4% unit share in Q3'06 to a 7% unit share in Q4'06, earning a 9% share in North America and a 15% share in Japan as it resonated with consumers in those regions. 1080p LCD TVs overtook 720p LCD TVs on a unit basis at 46-47" in Q3'06 and reached a 31% revenue share at 40-44".

**Figure 2 Q1'05 – Q4'06 40-44" Unit Share by Technology**

By brand as shown in the following table, Sony reclaimed the top position on a revenue basis in Q4'06, holding a 17.8% to 15.3% advantage over Samsung on the strength of its large-size and 1080p position. Sony widened its revenue share advantage over Samsung at 40-44" by accounting for more than a 50% share at 40-42" 1080p. While Samsung fell to #2 in LCD TV revenues, Sharp, Philips and LGE remained #3 - #5 with only Philips gaining share.

**Table 5 LCD TV Brand Revenue Share and Growth**

	Q3'06	Q4'06	Q/Q Growth
Sony	15.1%	17.8%	67%
Samsung	15.5%	15.3%	41%
Sharp	11.5%	11.4%	41%
Philips	10.0%	10.7%	53%
LGE	6.7%	6.5%	38%
Other	41.2%	39.5%	32%
Total	100.0%	100.0%	42%

For the year, Sony led in LCD TV revenues for the first time with a 16% share followed by Samsung at 15% and Sharp at 12%. 2006 was the first year Sharp had not been #1 in LCD TV revenues. On a unit basis in Q4'06, Samsung remained #1 with a 14.4% share followed by Philips at 13.3%, Sony at 12.4%, Sharp at 10.0% and LGE at 7.2%. For the year, Samsung led with a 13.5% share followed by Philips at 13.1%, Sony at 11.7%, Sharp at 11.4% and LGE at 7.2%.

Plasma TV revenues were up 7% Q/Q, but fell 4% Y/Y to \$5.0B, the first quarter plasma TV revenues have declined Y/Y due to loss of share to LCDs at 40-44" and rapid price erosion. Plasma TV ASPs fell 20% Q/Q and 29% Y/Y to \$1643. Plasma TVs overtook microdisplay RPTVs for the first time at 50"+ in Q4'06 with a narrow 42.5% to 42.3% advantage, led the 50-54" TV market with a 55% share, and grew 34% Q/Q and 35% Y/Y to a record 3.1M TVs with the 50"+ share of total plasma TV shipments rising from 13% in Q4'05 to 23% in Q4'06. However, all of those gains were insufficient to offset the aggressive price declines. For the year, plasma TV shipments rose 57% to 9.2M units while plasma TV revenues grew 22% to \$18.5B on a 22% decline in ASPs. In Q4'06, 37" plasma TVs had the fastest Q/Q growth on strong demand in Japan and Europe, while 60"+ plasma TVs had the highest Y/Y growth on strong North American demand.

While only North America experienced plasma TV unit growth in Q3'06, all regions experienced Q/Q growth in Q4'06. China was down Y/Y due to lack of emphasis by the domestic Chinese brands and China's smaller size emphasis. North America remained the top region for plasma with a 38% share and accounted for 63% of all plasma TV shipments at 50"+. Panasonic remained the dominant brand in Q4'06 with a 33% revenue share as shown in the following table. In both a unit and revenue basis, LGE was #2 followed by Samsung, Philips, Hitachi and Pioneer. For the year, Panasonic led with a 29% revenue share followed by LGE at 16%, Samsung at 14%, Philips at 10%, Hitachi at 8% and Pioneer at 7%.

**Table 6 Plasma TV Brand Revenue Share and Growth**

	Q3'06	Q4'06	Q/Q Growth
Panasonic	33.6%	33.0%	5%
LGE	14.2%	16.6%	25%
Samsung	15.3%	13.9%	-2%
Philips	9.2%	8.7%	1%
Hitachi	7.2%	7.7%	15%
Other	20.5%	20.2%	5%
Total	100.0%	100.0%	7%

Microdisplay (MD) RPTV unit shipments rose 17% Q/Q while falling 9% Y/Y to 862K units. MD RPTVs grew their share of the 55"+ TV market from 70% in Q3'06 to 77% in Q4'06. For the year, MD RPTVs were up 13% Y/Y to 2.8M. While unit growth was healthy in 2006, revenues declined. In Q4'06, MD RPTV revenues were flat Q/Q at \$1.5B and down 34% Y/Y due to 15% Q/Q and 28% Y/Y declines in ASPs to \$1757 despite a shift in size and resolution mix towards larger sizes and 1080p. For the year, MD RPTV revenues were down 7% on an 18% decline in ASPs. In Q4'06, 59% of MD RPTV revenues were for 1080p vs. just 25% in Q4'05, and 58% of MD RPTV revenues were at 55"+ vs. 41% a year earlier. By MD RPTV technology, DLP continued to lead in both units and revenues and held a 43% share for the year. LCOS matched the 3LCD revenue share in Q4'06 as 3LCD unit shipments were down 34% Y/Y. North America continued to dominate the MD RPTV market earning an 89% revenue share, down from 93% in Q3'06 as Europe and ROW gained share. By brand, Sony widened its revenue share advantage, earning a 42% share in Q4'06 followed by Samsung at 25% and Mitsubishi at 11%. For the year, Sony led with a 40% share followed by Samsung at 22% and Mitsubishi at 12%.

CRT TV shipments rose 11% Q/Q while declining 24% Y/Y to 34.9M. CRT revenues were up 6% Q/Q while declining 23% Y/Y on a 4% Q/Q ASP decrease and 1% Y/Y ASP increase. For the year, CRTs were down 16% to 130M with revenues down 15% to \$26.5B. The CRT unit share fell from 83% to 69% while revenues fell from 39% to 26%. The digital share of the CRT TV market rose from 12% in Q3'06 to 13% in Q4'06 while the HD share remained flat at 2%. TTE maintained the top position on a unit basis with a 12% share followed by LGE and Samsung at 10% and also maintained the top position on a revenue basis with a 12% share followed by Samsung at 11%. TTE also held the top unit and revenue positions for all of 2006.

The HDTV share of all TVs sold in Q4'06 reached 35% in Q4'06, up from 27% in Q3'06. On a revenue basis, the HDTV share rose from 70% in Q3'06 to 75% in Q4'06. Samsung remained the top HD brand, although it lost share to Sony, which narrowed the gap from over 4 share points to under 2.

The 1080p share rose from 1.6% in Q3'06 to 2.9% in Q4'06 on a unit basis and from 8% to 13% on a revenue basis. Sony led in 1080p revenues with a 34.9% share, more than twice that of its closest competitor.

The digital share rose from 40% in Q3'06 to 47% in Q4'06 led by Japan at 87% and North America at 73%.

The average TV size reached 26.5", up from 24.8" in Q4'05 led by LCD TVs, which have grown from 26" to 30" over that period. By region, North America had the largest average size of 29.7" which was 1-7" larger than other regions. North America accounted for 75% of the 50"+ market and 45% of the 40"+ market.

In terms of total TV brand share worldwide, Samsung led the global TV market in Q4'06 on a unit basis for the second consecutive quarter and on a revenue basis for the fourth consecutive quarter. As shown in the following table, Samsung enjoyed 31% Q/Q growth to lead the Q4'06 market with an 11.6% share. It was also #1 for all of 2006, the only supplier to earn more than a 10% share at 10.6%. LGE and TTE remained #2 and #3, but lost share while Philips and Sony remained #4 and #5 and gained share.

**Table 7 TV Unit Share by Brand**

	Q3'06	Q4'06	Q/Q Growth
Samsung	11.2%	11.6%	31%
LGE	9.9%	9.4%	20%
TTE	9.7%	8.2%	6%
Philips	6.3%	7.2%	43%
Sony	5.7%	7.0%	54%
Others	57.1%	56.5%	24%
Total	100.0%	100.0%	26%

On a revenue basis, as shown in the following table, Samsung remained #1 but lost share after six consecutive quarters of share growth. Samsung remained #1 in Europe and #2 in ROW and lost the top position to Sony in North America which enjoyed the fastest revenue growth due to share gains in 1080p TVs. Panasonic fell from #5 to #3 while LGE and Philips each moved up a position.

**Table 8 TV Revenue Share by Brand**

	Q3'06	Q4'06	Q/Q Growth
Samsung	14.7%	14.5%	22%
Sony	10.3%	12.9%	53%
LGE	8.4%	8.3%	22%
Philips	7.7%	8.3%	33%
Panasonic	9.3%	8.1%	8%
Others	49.6%	47.8%	19%
Total	100.0%	100.0%	23%

DisplaySearch's TV market intelligence including panel and TV shipments, TV shipments by region by brand by size, rolling 16-quarter forecasts, TV cost/price forecasts and design wins can be found in its *Quarterly Global TV Shipment and Forecast Report*. ## Plasma Panel Prices Falling as LGE Management Expected, Down as Much as 21% in Q1'07

By Ross Young and Calvin Lee

As LGE management predicted during its earnings call, plasma panel prices are falling rapidly in Q1'07, as much as 14% from December to March. This is a result of a disappointing Q4'06 performance when panel revenues declined for the first time Y/Y, and there was a 26% surplus. Plasma panel suppliers are looking to stimulate the market and we have already heard of one brand readying a \$999 42" HD PDP TV product.

- 42" ED prices fell 4% M/M and 30% Y/Y in February to \$435 and are expected to fall another 4% M/M and 32% Y/Y in March to \$435.
- 42" HD prices fell 5% M/M and 35% Y/Y in February to \$482. In February, the panel price gap with 42" ED narrowed to \$47, a new low, and is expected to fall to \$40 in March as 42" HD prices fall 5% M/M and 37% Y/Y to \$457. 42" ED now has little chance of taking share back, and it will quickly fade away.
- 50" HD prices fell 5% M/M and 40% Y/Y to \$758 in February and are expected to fall another 5% M/M and 41% Y/Y in March to \$718.

1 US Dollar	7.75772 Chinese Yuan Renminbi
1 Chinese Yuan Renminbi (CNY)	0.128904 US Dollar (USD)

## CRT TV Enterprises Stop Producing for 20 Days Due to FPD Challenge and Inventory Stress

At the beginning of 2007, the China TV Industry Association announced that the entire CRT TV industry stopped production for 20 days, involving eight CRT TV enterprises including Panasonic Beijing, Samsung Shenzhen, Seg-Hitachi, Thomson, LG Changsha, Philips Nanjing, Shanghai Yongxin and IRICO.

According to official data, in 2006 CRT shipments were 704 million units with direct exports of 100 million units and 660 million CRT TV set shipments. But at the end of Q4'06, CRT tube inventory was about 2 million units, which would normally meet the traditional peak seasonal demand of CRT TVs, as the industry expert said. In addition to the pressure from FPDs, inventory consumption was another reason for CRT TV announced production stops.

From a global view, China's CRT industry has increased its international competitive advantage. In 2006, CRT production capacity was reduced by nearly 30 million units due to many closures of overseas CRT plants or partial closure of production lines, including European LG.Philips Display, Mexico Daewoo, Indonesia Toshiba, Malaysia Panasonic and Mexico Thomson. In 2007, a further reduction in capacity of about 10 million units will occur because of closures in Korea and Southeast. As a result, CRT production will be centralized in China.

## BOE to Add Investments in LCD

After the announced sale of AOC share, BOE Group announced on February 13 that the group would add an investment of ¥40 million (\$5.2M) in one of its subsidiaries: Beijing BOE Professional Display Technology Co. Ltd., aiming to establish a LCD display and digital video project in order to improve the production and sales capacity of LCD products.

The LCD products will be applied to the fields of high-brightness displays and bus, building, hospital and special display markets. In 2006, the subsidiary has signed cooperation agreements and sales contracts with PTL, China Guangyuan Media Co. Ltd. and China Train Co. Ltd. for high-brightness displays and train LCD TVs. Before this, the company had developed a gas station high-brightness display, train carrier LCD TVs, public advertising displays, hospital intelligent TVs, hospital high-grey display terminals and special mount high-brightness LCD displays.

Other investment includes a digital video project. The company expects that the demand for LCD displays and LCD TVs will enjoy continual growth. As a result, I-module and other sets which have applied with I-module will start a development trend in the common LCD display market. This project is oriented towards developing LCD TV ODM business in the domestic and overseas markets, exporting M/S LCD TVs with DVB-T and ATSC tuners inside to the European and American markets, as well as selling LCD TVs, LCD monitors and module products with I-modules to domestic TV set makers.

As the financial report indicated, until to December 31, 2006, the Professional Display Company had total capital of ¥48 million (\$6.2M), net capital of ¥2.6 million (\$0.3M). In 2006, the company achieved sales revenues of ¥14.7 million (\$1.9M) and a net profit loss of ¥2.9 million (\$0.4M).

## XOCECO Announces Losses

XOCECO Electronics announced a significant loss for its 2006 fiscal forecast on January 30, 2007, which is the first loss announcement among China's TV makers. XOCECO attributed the loss to four areas:

- The furious market competition in Q4'06 affected profit margins.
- The company paid more attention to inventory.
- The company was cleaning up foreign investment and overseas business.
- The cancellation after verification of destroyed and discarded assets and writing down doubtful accounts and receivables, which affected the profits.

## Three Panel Giants Integrate

At the end of 2006, BOE, SVA and IVO signed an agreement integrating the three companies' LCD panel sources and capital. As an industry insider indicated, the three TFT LCD panel makers plan to establish a joint company in Q4'07, with shares of 27%, 30% and 7%, respectively, and the biggest shareholder, SVA, will govern the resulting company.

At present, China's TFT LCD industry environment needs in-depth development, and the upstream components supply chain lacks enough support. But with the push of joint investment, the TFT LCD panel industry will experience rapid development.

## China's Digital TV Standard Gets Limited Support

Since the release of the digital TV terrestrial transmission standard in August 2006, the market that should be worth \$US billions remains in the warm-up phase, due to content deficiency and the lack of relevant TV products.

China's digital TV terrestrial transmission standard will be implemented on August 1, 2007, but at present there are no TVs except for a few bus TVs that can receive the signal, according to a government official. The focus of the digital TV terrestrial transmission standard is on residents of city outskirts and countryside villages, aiming to solve the digital TV reception problem. But during the five year standard finalization period many cities adopted the programs of Europe, Qinghua University and Shanghai Jiaotong University. The expensive transmission cost and twisted interest dispute delayed progress towards a single standard. TV manufacturers—particularly the mainstream domestic and foreign

Retailers Grab Some Margin: After 12 Months LCD TV Finally Sees M/M Price Bump in January in 40"+ as LCD TV Adds to Share Lead Over PDP

companies including Samsung, Changhong and Konka—have announced qualified products. But up to now, no TV maker has begun mass production and all TV makers remain on the fence.

## Retailers Grab Some Margin: After 12 Months LCD TV Finally Sees M/M Price Bump in January in 40"+ as LCD TV Adds to Share Lead Over PDP

By Mark Schutter

Note: Starting with last month's article we discontinued using the DisplaySearch *TV Pricing and Specifications Database* as the source of this article and instead we now use the more extensive NPD Group/POS data. The twelve-month historical data shown in this article is all derived from NPD/POS data.

After months of serial MAP reductions by multiple brands finally let up in December, prices still continued to go down on aggressive advertising and credit and rebate programs offered by first tier brands to claim a competitive edge as the gift buying season concluded. In January, advertising volume continued at record levels while competitive price-matching policies and many manufacturer credit and rebate programs also continued as Super Bowl promotions built throughout the month. While January saw prices continue to fall in most categories, some segments of LCD TV, notably the hot 40" and up segment, finally saw an upward turn with ASPs rising 3% to 4% M/M as retailers claimed back some margin on the big panels.

TV sell-through in January fell 46% from December, for an 8% greater seasonal decline than the same two months last year but January sell-through was up 28% over last year's pace for the month, fueled by record-level promotions and manufacturer credit and rebate programs as revealed by point-of-sale data from The NPD Group. This followed December sell-through at 2% below last year's levels. As shown in DisplaySearch's *Weekly TV Flash Reports*, holiday promotions gave way to Super Bowl campaigns and bolstered by instant rebate/trailing credit programs that continued to be offered by some brands. As recorded in the DisplaySearch *MAPtrack* database, we see the December hiatus of falling MAPs for the most part continued in January.

With technology shares of ads as high as 52% for LCD TV and 31% for PDP in national Sunday circulars, aggregate flat panel advertising shares were as high as 77% in January. Rising shares of the advertising pie helped flat panel technologies resume share gains in January across all size categories. According to NPD data, LCD TV, on a nine month string of gains, and following a jump from 33.2% to 42.1% in November, actually dropped slightly to 39.9% in December while PDP unit share also dropped, falling to 7.6% after visiting double-digits in November for the first time at 10.2%. In January, both flat panel technologies returned to the plus side as LCD TV rose a point to 41.1% and PDP gained three points at 10.6%. CRT TV had a moment in the sun as a last minute gift item with the first gain since last December, increasing from 39.3% to 44.9% M/M but resumed a downward trend in January falling 8% to 37% unit share. LCD TV revenues leveled after a seven-month climb, holding at 50.2% while PDP revenue share was only up little more than a point at 21.5%. On a unit basis, MD RPTV posted a three point gain to 9.6%, as Super Bowl promotions gave RPTV its annual boost for family room viewing with a similar gain on a revenue basis for an 18.2% share. CRT RPTV, in its last gasps as retailers sought to deplete inventories, actually gained nearly a point M/M with 1.8% in unit share.

### 25-29"—Blended LCD TV and CRT Prices Rise

In the 25-29" segment, LCD TV unit share climbed two points to 40.5% and up from 23.9% since August. The price gap between CRT and LCD widened from \$397 to \$403 as 27" LCD TV ASPs rose in January, more than CRT TV, which also showed an increase.

CRT TV prices rose 3% M/M and 22% Y/Y to \$312 as the digital tuner mandate drove up prices, while tube TV share continued to decline, dropping two points to 59.5%.

Blended 26-27" LCD TV prices were up 2 % M/M and 30% Y/Y at \$715 with 26" dropping as 27" was on the rise. LCD share in this segment was up slightly from December at 40.5%.

**Figure 3 25-29" LCD TV/CRT TV Pricing and Share**

Source: The NPD Group/Point-of-Sale Data

By price band as shown in the following table, the number of SKUs priced below \$600 increased in January while the number of SKUs below \$800 remained the same with no model over \$1000.

**Table 11 26-27" LCD TV Price Bands and Number of SKUs by Month**

Price Band	August	September	October	November	December	January
<\$600	4	5	7	10	9	13
\$601-800	11	12	9	7	11	7

\$1001-1200	8	8	7	6	3	0
>\$1200	1	1	1	1	1	0

Source: The NPD Group/POS Data

### 30-34"—LCD TV Prices Rise Slightly while Losing Share

The digital tuner mandate resulted in a string of monthly price increases in the 30-34" CRT category for the first half of 2006. Since then prices have fallen, dropping another 5% in January to \$426. The segment is down just 20% Y/Y however. LCD TV prices rose 4% for the second month running in January to \$925 as brands held MAPs and there was more promotional emphasis on the larger screen sizes. The LCD/CRT price gap in this category, which stood at \$440 in December, now stands at \$499 as a result of the CRT TV drop and LCD TV M/M rise. LCD share in this segment actually fell from 70% to 67% in January, breaking a string of LCD TV gains with flat panels nearly doubling share from 35.5% in May when the LCD flat panel price wars began.

Retailers Grab Some Margin: After 12 Months LCD TV Finally Sees M/M Price Bump in January in 40"+ as LCD TV Adds to Share Lead Over PDP

**Figure 4 30-34" LCD TV/CRT TV Pricing and Share**

Source: The NPD Group/POS Data

The top LCD TV in this segment was an entry-level Sony models followed by Samsung and Sharp SKUs. By price band as shown in the following table, the majority of SKUs remained at the \$501-750 price point in the past three months. There were no models under \$500 in January. Syntax had the lowest price at \$555 with Proton following.

**Table 12 30-32" LCD TV Price Bands and Number of SKUs by Month**

### 35-39"—Price Drops in LCD TV as Share Increases Six Points

LCDs continued to take dominate unit share in the 35-39" category, gaining five points to 94.2%. CRT share fell from 3.8% to 2.3% M/M, down dramatically from 30.4% in May 2006 when flat panel MAPs began serial reductions (see the DisplaySearch MAPtrack database). 35-39" CRT TV prices actually rose 14% in December on a continually reduced selection of models, prices fell in January 5% to \$656 while LCD TV (720p 37") dropped 12% to \$1016 while 1080p models rose 2% to \$1830 on a limited number of models. PDP prices were fairly flat at \$1273.

**Figure 5 35-39" TV Prices and Share**

Source: The NPD Group/POS Data

As shown in the 37" LCD TV price band table that follows, the number of SKUs priced below \$1000 remained at 10, making this the most popular price band. The number of models below \$1500 was also fairly stable. An Akai model sold for \$749 while a Toshiba 37HLC56 was at \$804 and a Syntax model 437V was at \$809.

## 40-44"—LCD TV Prices Finally Rise After a 12 Month Slide; Increases Share Lead Over PDP

40-44" TVs unit share of all TVs increased three points to 14.1% in January, topping a previous high of 12.7% in November 2006 while revenue share was unchanged from December at 24.4% of the US TV market. 40-44" continued to be the largest category on a revenue basis, but the lead over the 50-54" segment has been cut in half over the last two months to six points.

- As shown in Figure 5 and reported in *DisplaySearch This Month in TV*, in December LCD TV over took PDP in 40-44" unit share and revenue share, seizing a five point lead by units and a 16 point edge in revenue. In January the LCD advantage increased to 11 points to 52.5% in unit share as PDP fell to 41.5%. In revenue share LCD TV grew to a 59.1% share as PDP slipped three points to 37.2%.
- 40" 720p LCD prices reversed a 12 month slide to increase 4% M/M at \$1511 as retailers held margins as they did in January 2006. Over that 12 months, 40" 720p prices dropped 51%.
- 40" 1080p momentum into the 40" LCD TV picture slowed in January with a 42.2% penetration, up just two points as ASPs increased 3%. The 40" 720p/1080p price average selling price gap stands at \$690 in January.

Retailers Grab Some Margin: After 12 Months LCD TV Finally Sees M/M Price Bump in January in 40"+ as LCD TV Adds to Share Lead Over PDP

- 42" 720p LCD prices rose for the first time in December but fell 5% in January. We see 42" models ASP in January at \$299 or 20% below 40" as a result of the 40" increase and 42" decrease in January. 42" LCD captured an all-time high share of the 40-44" segment in January with an 11 point rise to 28.6% in all resolutions with the most dramatic segment being 720p where 42" share more than doubled to 26.4%.
- 42" ED PDP prices were down 2% M/M and down 37% Y/Y to \$1040. 42" ED PDP share of 42" PDP reduced by half M/M and is now a scant 3.9% of the 42" PDP market as HD models dominated promotions.
- 42" HD PDP prices were flat for the second month in a row in January rising 1% M/M but down 46% Y/Y at \$1385.
- 40-44" MD RPTV prices fell about 6% M/M and 44% Y/Y and dropped to three figures at \$952 after a cumulative 18% drop in November and December following MAP reductions by Samsung, Sony, Mitsubishi and Toshiba as seen on the DisplaySearch MAPtrack database.

**Figure 6 40-44" TV Prices by Technology and Resolution**

Source: The NPD Group/POS Data

**Figure 7 40-44" TV Unit Share by Technology**

Source: The NPD Group/POS Data

By 42-43" HD PDP price band as shown in the following table, the majority of SKUs remain at the \$1201-1500 price point. The under \$1200 segment has doubled in the past two months.

In the LCD 40-42" LCD price bands we see an increase of models in the \$1201-1500 range, overtaking the \$1501-2000 band as the leading segment.

## 50-54"—Prices Fall in All Technologies except 1080p LCD TV; Size Segment Shows Record Growth to 9% of TV Market

- The 50-54" size category grew a record amount in January, stimulated by aggressive promotions in both flat panel and RPTV, increasing M/M from 5.6% to 9% of all TVs sold for January. In January, PDPs gained back the three unit share points lost in December, a lapse following consecutive share gains that accelerated in October as Panasonic led a series of price drops. PDP unit share for January was 43.8%. 720p MD RPTV share fell from 27.4% to 24.3% and 1080p MD RPTV held at December levels at about 13%. CRT RPTV unit share fell from 13.2% to 12.4%.
- 50-54" 1080p LCD TV prices have fallen 21% since appearing in the market in September with a 8% drop in December to a low of \$3568. In January the segment saw its first increase, with ASPs rising 4% to \$3709. Unit share was up about two points to 6.7%.
- 50" PDP prices were down 6% to \$2140 with a 42% decline Y/Y as shown in the following figure. The price gap with 720p MD RPTVs increased in December and stands at \$953 while that gap with 1080p stands at \$412.
- 50-54" 720p MD RPTV prices fell 3% M/M and 42% Y/Y to \$1187.
- For 50-54" 1080p, MD RPTV prices fell 5% to \$1728 and 46% Y/Y. 1080p penetration in 50-54" MD was up two points at 34.4% in January. As shown in DisplaySearch's *Weekly TV Flash Report*, 1080p MD models averaged 55% of weekly national Sunday Circular MD promotions in January, with the high 64% in mid month, consequently, the 720p/1080p price gap continued to narrow, shrinking \$55 from \$596 to \$541 in January.
- CRT RPTV unit share continued to fall after a spike in November as the technology benefited from loss-leader ads surrounding Black Friday. As retailers sought to clear out inventories during January Super Bowl promotions, 50-54" Tube-based RPTV unit share fell two points M/M to 12.4%. Prices were down 2%, falling under the \$800 level to \$788.

Figure 8 50-54" TV Share by Technology

Source: The NPD Group/POS Data

**Figure 9 50-54" TV Prices by Technology**

Source: The NPD Group/POS Data

By 50" HD PDP price band as shown in the following table, we see the greatest number of models were still in the \$2001-2500 band but distribution spread downward with the \$1501-1800 band seeing nearly as many models while the number of SKUs \$2000 and under nearly doubled. A Zenith model again had the lowest price at \$1523 with Hewlett Packard and Toshiba models both appearing under \$1700. The Panasonic 50" entry model continued to lead the field in sales with Samsung, Toshiba and LG following.

**Table 16 50" PDP TVs by Price Band**

Price Band	August	September	October	November	December	January
<\$1500	0	0	0	0	1	0
\$1501-1800	0	1	2	5	3	5
\$1801-2000	0	2	2	2	1	3
\$2001-2500	5	3	6	5	8	6
\$2501-3000	5	6	4	6	5	2
\$3001-4000	5	4	4	3	3	2
>\$4000	2	2	2	3	1	1

By 50-54" 720p MD price band, we see the number of models in the under \$1000 doubling in January. RCA posted the lowest priced model in this segment followed by Mitsubishi, Hitachi and Panasonic. Top seller was a 50" Samsung LCD RPTV SKU followed by closely by Sony DLP model while the #3 and #4 positions were taken by Hitachi and Toshiba models.

## March 4 Sunday Circular Report

By 50-54" 1080p we see even distribution among the three lowest price bands with a third of the SKUs under \$1600. The lowest-priced model was a close-out on a first generation Sony 1080p SKU with JVC taking the second position followed by a 52" Mitsubishi model. The current entry level 50" Sony SXR D was top seller with two Samsung models following.

## March 4 Sunday Circular Report

By Mark Schutter

### TV Ad Traffic Shifts Down to a 33-Week Low but Still Up 4% Y/Y

The annual lull between Super Bowl and March Madness had not occurred so far in 2007 until Sunday when the number of TV advertised models dropped to the lowest level since July, with 54 SKUs in our weekly survey of four national retailers' Sunday circulars. Still, with the road to The Final Four opening up next week, it is likely that this will be a one-week downturn as 2007 TV ad traffic is still well ahead of 2006, especially in the traditional valley between the two prime sports TV buying seasons. In terms of technology distribution, LCD TV was just one point off the highest ever share with 54% of the SKUs.

All four retailers dropped off recent levels as Best Buy continued to lead in TV representation with 24 models, shifting gears back to a NASCAR theme as they continue to exploit their heavy investment and car sponsorship. The chain featured "All TVs on sale \$499 and up" with clearance models peppered throughout. The chain gave the cover to a Samsung 40" LNS4095DX 1080p LCD TV at \$1900 though Circuit City hit a new low of \$1700 on the SKU this week. Best Buy was alone in a very uncompetitive week for 42" PDP with all of the models in that category and a \$1600 price on a Toshiba 42HP66, higher than three 50" models advertised this week. Best Buy took the low in 40-42" 720p LCD with a Westinghouse monitor for \$1000 and was lowest in integrated models as well with a Samsung LNS4041D at \$1400. The chain shared the low with Circuit City in 720p MD with an advertised price of \$1350 on a 50" Samsung DLP model.

Circuit City got the jump on March Madness with basketball on the cover and on the screen of a 32" Sony KDLS2010 LCD TV for \$1260 and a total of 19 models and "10% off TVs plus no payments and no interest for 12 months." Circuit was most aggressive in 1080p, establishing the lowest advertised price in both 40-42" and 46" LCD flat panel on the Samsung LNS4095D for \$1700 and the Sharp LC46D62U for \$2520. They also had the low in MD with a \$1710 tag on the Samsung HLS5087W, which Best Buy advertised for \$1750 in their circular but met Circuit's price on the web. CompUSA advertised a scaled-down selection of seven SKUs—all flat panels—and placed a Syntax model 332H LCD TV on their cover for \$500. They also the lowest advertised price for 50" PDP with a repeat of the Zenith Z50PX2D DCR model at \$1500. Sears advertised a pair of flat panels and a pair of MD models and was among the three retailers that again featured the Panasonic TH50PX60U 50" PDP for \$2000, with Best Buy skipping the SKU this week.

LCD TV led all technologies with a 54% share this week with PDP falling a point to an eight-week aggregate average of 22%. Tube TV hit a new low at 4%. Aggregate MD share was at 20% this week led by DLP with 15% while LCD RPTV took 4% of the ads and LCOS placed 2%. 1080p penetration was up this week, posting 64% of all MD models and 50% of 40" and larger LCD flat panels (see Figure 14). CRT RPTV was unrepresented again this week.

**Table 19 March 4 Advertisements by Retailer and Technology**

	Best Buy	Circuit City	CompUSA	Sears	Total
CRT	0	2	0	0	2
CRT RPTV	0	0	0	0	0
DLP	5	2	0	1	8
LCD	13	10	5	1	29
LCD RPTV	0	1	0	1	2
LCOS	0	1	0	0	1
PDP	6	3	2	1	12
Total	24	19	7	4	54

Figure 10 reveals advertising distribution by technology of the four surveyed national retailers comparing this week to February 25. On 24% fewer total models than last week, only LCD and DLP made share gains as all other technologies lost share W/W and tube-based rear projection was absent both weeks.

**Figure 10 Share of TV Ads by Technology—Previous Week to Current Week—February 25 and March 4**

Figure 11 reveals advertising distribution by technology of the four surveyed national retailers comparing this week to March 5, 2006. The total number of TV ads was up 4% from this Sunday last year, while share distribution showed a fairly predictable Y/Y pattern with CRT share crashing to about a sixth of the 2006 share at 4%. LCD TV showed a solid gain, while PDP also picked up share. DLP was the only gainer in MD. Aggregate MD share was down three points at 20%.

March 4 Sunday Circular Report

**Figure 11 Share of TV Ads by Technology—Year-Ago Week to Current Week—March 5, 2006 & March 4, 2007**

Figure 12 illustrates the quantity of Sunday circular TV ads by technology of the four national retailers over the most recent eight weeks of our survey. LCD TV has been on a rising trend, but stalled in September and October, hovering around 42% as PDP had taken away some flat panel ad slots following price drops in early fall of 2006. In the past four months, we have seen the LCD TV rolling eight-week aggregate average moving up again, peaking at 49% and almost reaching that with 48% this week. CRT TV continues to decline, steadily dropping 14 points since Q2'06 to 7%. The high percentage of 480i lower-priced models—100% this week—continues to drive the CRT TV count with all 26" and larger SD models now featuring digital tuners. ED PDP models are rarely advertised at this point, and all advertised PDPs were HD models this week. The eight-week aggregate share for PDP has lately hovered between 22-23% (currently at 22%). PDP had gained four points since the first round of PDP price drops of late August to peak at 24%, but lost steam as LCD TV has resumed a string of dominant weeks.

LCD RPTV, which had led MD for much of Q1'06 and Q2'06, has fallen to 6%. DLP is leading at 11% with increased traffic as new Samsung, Mitsubishi and Toshiba models entered the ad mix with an increasing percentage of 1080p models represented. New Sony SKUs entered the mix in early July to push LCD RPTV presence, but we are not seeing the heavy ad rotation of last year's models as 1080p DLP and LCOS SKUs at more ad-friendly pricing are taking away share. CRT RPTV, which is in its final weeks of presence on the retail floor and in advertising, is holding on to a 1% share among the four national chains. LCOS, which had averaged a 5% share, had dropped to 2% during the model transition. However, LCOS has recovered to return to a 5% aggregate average. We will continue to observe the MD technologies compete, as rising 1080p placements from an increased number of 1080p models on more aggressively priced second (and soon third) generation lines and manufacturer price drops drive up the DLP and LCOS shares.

**Figure 12 Number of TV Circular Ads by Technology—Rolling Eight Week Survey**

Figure 13 reveals the ad share by technology of the four national chains over the past eight weeks of our survey. Since LCD TV overtook tubes in Q3'05, LCD flat panels had steadily increased in share to a peak of 36% a year ago during the Super Bowl selling season. After slipping to an average eight-week low of 32% in February 2006, LCD TV has steadily built share over the last twelve months, reaching 48% over this current rolling eight-week period. We expect to see LCD TV and PDP continue to slowly increase share. PDP, which had stalled for several months at 20-21%, was on the rise at 24% following a series of price moves started by Panasonic at the end of August, but momentum has slowed since the plasma fever of Black Friday as the eight-week aggregate average for PDP now stands at 22%. 1080p models will continue to become larger parts of DLP and LCOS shares, and recently started garnering majority shares of large LCD flat panel ads. Collectively, the rolling eight-week aggregate MD share is at 21%, recovering after slipping in recent weeks. Over the past eight-week period, PDP and LCD flat panels collectively now account for 70% of Sunday TV circular ads.

March 4 Sunday Circular Report

**Figure 13 TV Circular Ad Share by Technology—Rolling Eight Week Survey**

Figure 14 shows 1080p penetration. We see MD penetration on the left; on the right, we see 40" and larger LCD flat panel 1080p penetration. This week, 1080p penetration in MD took a sharp rise following a two-week decline, to an eight-week high of 64%. In mid-October, 40" and larger LCD TV flat panel segment saw two consecutive 1080p majorities at 67% but penetration had fallen below half as retailers emphasized 40-42" 720p models. 1080p models were in a gradual resurgence following the expected plunge on Black Friday with penetration lately hovering around 50%. Since then, penetration has been up and down, at a record 67% last week before hitting an 18-week low of 42% February 25 and recovering to 50% Sunday. In total, 1080p represented a record 22% of advertised models across all technologies.

**Figure 14 1080p Penetration in MD (Left) and LCD Flat Panel 40"+ (Right)—Rolling Eight Week Survey**

The following figures compare prices of HD-capable TVs (minimum 720 vertical LOR) in comparable screen sizes for each of the technologies for the tenth week of Q1'06, Q2'06, Q3'06, Q4'06 and the current tenth week of Q1'07. Figure 15 compares average prices for sampled screen sizes, and Figure 16 compares the average price per diagonal inch (PPDI) of all models advertised across all screen sizes. These HD-capable models are drawn only from the Sunday circular ads of our four surveyed national retailers. These are not a reading of average prices of all models in stores.

We continue to see a pattern of sharp drops in flat panels and MD technologies. In PDP, we see the greatest reductions in the 42", 50" and aggregate (all sizes including 37" and 43" models) price-per-diagonal-inch samplings between Q2'06 and Q3'06 concurrent with the first series price drops led by Panasonic in late August, setting off serial reductions in MAP among the brands, which further stimulated promotions on PDP SKUs in the fall and through the holiday buying season. Overall, the reduction in average 50" PDP circular ad prices Y/Y is 41%, while the 42" HD PDP average advertised price dropped much less, at 20% Y/Y, as there are only three 42" models advertised this week and one is a pricier Pioneer model, driving up the average. If we instead compare from the previous quarter back to Q1'06 we see a 36% drop over three quarters. The aggregate comparison (includes 37", 43", 55"+) fell 34% with 55"+ models typically driving up the average in the current week. LCD TV 720p in the 40" screen size showed a dramatic 49% Y/Y drop. The aggregate LCD TV 720p (all sizes) drop was 42%. In the current Q1'07 week, there are more 37-46" models that typically drive up average prices, which causes a less dramatic aggregate drop since the newest, larger sizes are less mature models, and of course, the highest priced by diagonal inch. This is much less a factor lately as the new premium priced models are 1080p SKUs, which we look at separately. Again, this week's PDP and LCD TV samplings compare a Q1'06 week that had a smaller number of SKUs than the current Q1'07 sample. Also, in increasingly smaller screen sizes, we are comparing more expensive models with integrated ATSC tuners (and some DCR) in the recent quarters against more models that were NTSC-only and outside the FCC tuner mandate in the earlier quarters.

MD segments showed solid reductions Q/Q and Y/Y with aggregate advertised pricing of LCD RPTV down 37% and DLP down 39% Y/Y. Aggregate advertised pricing of LCOS models fell 37% Y/Y; however, we are comparing last year's premium-priced Sony step-up XBR model to the new lower entry-level models. Aggregate DLP 1080p average advertised prices fell 31% over the last three quarters. HD-capable tube TV were up 1% in average aggregate price, but it was not represented in the past two quarterly samples and we are comparing analog tuner-equipped models in early 2006 to digital ATSC SKUs in the later quarters and very few advertised models in this uncompetitive category.

**Figure 15 Average Price HDTV by Technology (Sampling Sizes)—Q1'06-Q1'07**

March 4 Sunday Circular Report

**Figure 16 Average Price Per Diagonal Inch for HDTV by Technology (All Sizes)—Q1'06-Q1'07**

## Advertisements by Technology

- **CRT TV** ad share (not including DVD and VCR combo models excluded from this survey) was at a new low of 4% and dramatically down from 25% in the year-ago week. This week there were no HD-capable models advertised. In the category of 27" 480i TVs with digital ATSC tuners, prices averaged \$225 this week, \$10 more than the average of analog models the same Sunday last year in a very small sampling.
- **CRT RPTV** was unrepresented for the second week running.
- **DLP** has led or co-led the MD segment share all but six of the last 37 weeks, fueled by an increasing rotation of 1080p models, with DLP leading this week with a 15% share. Best Buy shared the low with Circuit City in 720p MD with an advertised price of \$1350 on a 50" Samsung model. Circuit City took the low in 1080p MD with a \$1710 tag on the Samsung HLS5087W, which Best Buy advertised for \$1750 in their circular but met Circuit's price on the web. The average price for 50" DLP this week was \$1350, down 40% from the year-ago week.
- **LCD TV** ad share (not including DVD combos excluded from this survey) was up at 54%, with the eight-week aggregate average at 48%. Best Buy gave the cover to a Samsung 40" LNS4095DX 1080p model at \$1900 though Circuit City hit a new low of \$1700 on the SKU this week and took the low in 40-42" 720p with a Westinghouse monitor for \$1000 and was also lowest in the integrated category with a Samsung LNS4041D at \$1400. Circuit City featured a 32" Song KDLS2010 on their cover for \$1260 and was most aggressive in 1080p, establishing the lowest advertised price in both 40-42" and 46" LCD flat panel on the Samsung LNS4095D for \$1700 and the Sharp LC46D62U for \$2520. CompUSA placed a Syntax model 332H LCD TV on their cover for \$500. The three advertised 720p models in the 40" screen size averaged \$1607 for a 49% Y/Y drop.
- **LCD RPTV** placed 4% of the ads. Circuit City shared the low in MD with a Sony 46" model KDF46E2000 for \$1350 while Sears advertised the 55" version for \$1710. The average aggregate advertised price for LCD RPTV was down 37% Y/Y.
- **LCOS** representation in the ads has been all over the map of late, posting a record share of 9% on November 12 and being MD leader on December 31 for only the second time ever at 8%. LCOS placed 2% this week on a single 60" Sony's entry level SXRD at \$2500.
- **PDP** ad placements hit a high of 31% of the total ads on December 24 for the first time since the Panasonic price drops of late August, repeating the highest plasma share ever. At just 17%, February 11 saw the lowest PDP share of TV advertising since May 2006 as LCD TV ads surged. This week PDP share dropped to 22% as the aggregate eight-week average also fell to 22%. Best Buy was alone in a very uncompetitive week for 42" PDP with all of the models in that category and a \$1600 price on a Toshiba 42HP66, higher than three 50" models advertised this week. CompUSA was the lowest advertiser of 50" PDP with a repeat of the Zenith Z50PX2D DCR model at \$1500. Three of the four surveyed retailers again featured the Panasonic TH50PX60U 50" PDP for \$2000, with Best Buy skipping the SKU this week. With only three SKUs, and one of them a Pioneer model, the average for 42" was high this week at \$1903; eight 50" models (one of them Pioneer) averaged \$1988, down 41% Y/Y.

March 4 Sunday Circular Report

## Circular Analysis by Retailer

As we approached the prime March Madness weekends, we saw a lull in TV advertising this week with only Circuit City embracing the play-off theme while Best Buy brought a NASCAR promotion to the forefront of their circular.

### Best Buy

Best Buy continued to lead in TV representation with 24 models, shifting gears back to a NASCAR theme as they continue to exploit their heavy investment and car sponsorship. The chain featured "All TVs on sale \$499 and up" with clearance models peppered throughout. The chain gave the cover to a Samsung 40" LNS4095DX 1080p LCD TV at \$1900 though Circuit City hit a new low of \$1700 on the SKU this week. Best Buy was alone in a very uncompetitive week for 42" PDP with all of the models in that category and a \$1600 price on a Toshiba 42HP66, higher than three 50" models advertised this week. Best Buy took the low in 40-42" 720p LCD with a Westinghouse monitor for \$1000 and was lowest in integrated models as well with a Samsung LNS4041D at \$1400. The chain shared the low with Circuit City in 720p MD with an advertised price of \$1350 on a 50" Samsung DLP model.

Figure 17 Best Buy March 4 Sample

## Circuit City

Circuit City featured March Madness on the screen of a 32" Sony KDLS2010 LCD TV for \$1260 on their cover and a total of 19 models and "10% off TVs plus no payments and no interest for 12 months." Circuit was most aggressive in 1080p, establishing the lowest advertised price in both 40-42" and 46" LCD flat panel on the Samsung LNS4095D for \$1700 and the Sharp LC46D62U for \$2520 while also taking the low in MD with a \$1710 tag on the Samsung HLS5087W, which was also advertised by Best Buy for \$1750 who subsequently met Circuit's price on the web. "No interest for 18 months on TVs \$499 and up" was the finance offer.

March 4 Sunday Circular Report

## CompUSA

CompUSA advertised a scaled-down selection of seven SKUs, all flat panels, and placed a Syntax model 332H LCD TV on their cover for \$500 while being the lowest advertiser of 50" PDP with a repeat of the Zenith Z50PX2D DCR model at \$1500. CompUSA continues to promote their "\$50 instant gift card" price-matching program. The finance offer was "24 months no interest on any home theater purchase \$1299 and up," up considerably from a \$499 minimum last week.

## Glossary of Abbreviations

An explanation of how these terms are applied to this article.

- **APR**—Annual Percentage Rate—As applied to finance plans offered by retailers
- **ATSC**—Advanced Television Systems Committee—New standard: Product is equipped with a digital tuner (analog tuner also included)
- **CE**—Consumer Electronics—Industry term for a wide range of products: video, audio, cameras etc.
- **CRT**—Cathode Ray Tube—Type of TV technology; Tube based
- **CRT RPTV**—Cathode Ray Tube based Rear Projection TV—Type of TV technology; Tube-based rear projection
- **DCR**—Digital Cable Ready—Product is digital cable ready with CableCARD slot
- **DLP**—Digital Light Processing—Type of TV technology; In our survey refers to DLP rear projection
- **DVR**—Digital Video Recorder—Product includes hard drive for recording of TV programming
- **ED**—Enhanced Definition—Enhanced standard definition; 480 vertical lines of resolution
- **HD**—High Definition—High Definition with minimum 720 vertical lines of resolution
- **LCD**—Liquid Crystal Display—Type of TV technology; LCD Flat Panel
- **LCD RPTV**—Liquid Crystal Display based Rear Projection TV—Type of TV technology; LCD-based rear projection
- **LCOS**—Liquid Crystal on Silicon based Rear Projection TV—TV Technology; LCOS-based rear projection
- **LOR**—Lines Of Resolution—Referring to horizontal and/or vertical line display capability
- **M/M**—Month-to-Month—As in comparison from the previous month to current month
- **MAP**—Manufacturers Advertised Price—Selling Price suggested by manufacturer aligned to dealer cost. (Note: Also known by original term "Minimum" Advertised Price, however, manufacturers are prohibited by law from dictating or discussing advertised or floor pricing with retailers or limiting pricing in any way).
- **MD**—Microdisplay—TV Technologies that are chip-based (DLP, LCD RPTV, LCOS)
- **NTSC**—National Television Systems Committee—Old standard: Product is equipped with analog tuner only
- **PDP**—Plasma Display Panel—Type of TV technology; plasma flat panel
- **PPDI**—Price Per Diagonal Inch—As applied to calculating aggregate price of all screen sizes
- **Q/Q**—Quarter-to-Quarter—As in comparison from the previous quarter to current quarter
- **SKU**—Stock Keeping Unit—Used here as another term for "model" or an individual product
- **1080p**—1080 progressive—High definition with 1920 × 1080 lines of progressive scan resolution
- **W/W**—Week-to-Week—As in comparison from the previous week to current week
- **Y/Y**—Year-to-Year—As in comparison from the previous year to current year

# 2007 DisplaySearch Events

## Ten Events in 2007

Don't miss your opportunity to gain the latest industry insight from DisplaySearch, the worldwide leader in display market research and consulting.

DisplaySearch's highly popular conferences adopt a food-chain approach with speakers representing the industry's most important OEMs, brands, suppliers, equipment manufacturers, FPD producers, distributors and retailers. Sessions often end with controversial panel discussions that feature real-time debates between industry experts on important topics.

For more information about these events, please visit [www.displaysearch.com/events](http://www.displaysearch.com/events)

**"This conference keeps getting bigger and better every year..."**

*- Mark Cuban, Founder and President, HDNet in reference to the HDTV Conference*

### China

**2007 DisplaySearch China HDTV Conference**  
Shenzhen, China  
**June 7-8, 2007**

**2007 DisplaySearch China FPD Conference**  
Shanghai, China  
**September 6-7, 2007**

### Europe

**Meko DisplayForum – co-organized with DisplaySearch**  
Prague  
**November 2007**

### Japan

**12th DisplaySearch Japan Forum**  
Tokyo Conference Center Shinagawa, Tokyo, Japan  
**January 23-24, 2007**

**13th DisplaySearch Japan Forum**  
Tokyo Conference Center Shinagawa, Tokyo, Japan  
**July 2007**

### Korea

**IMID 2007 Business Forum - organized by DisplaySearch**  
EXCO, Daegu, Korea  
**August 27, 2007**

### Taiwan

**2007 DisplaySearch Taiwan FPD International Conference**  
Taipei International Convention Center  
Taipei, Taiwan  
**May 10-11, 2007**

**2007 DisplaySearch Taiwan TV Supply Chain Conference**  
TBD  
**November 9, 2007**

### US

**9th Annual DisplaySearch US FPD Conference**  
Hilton La Jolla Torrey Pines  
San Diego, CA  
**March 6-8, 2007**

**TV Supply Chain Conference**  
Sheraton Hotel & Marina  
San Diego, CA  
**June 14-15, 2007**

**5th Annual HDTV Conference**  
Hilton Los Angeles/Universal City  
Universal City, CA  
**October 9-10, 2007**

**The TV Flash Report** provides its subscribers with critical market intelligence and technical trends in the TV industry. *The TV Flash Report* consists of articles, studies, surveys and editorials based on analysis of data gathered from primary and secondary sources worldwide. **DisplaySearch** provides monthly newsletters, multi-client studies, quarterly and annual reports, custom market studies and databases. The following are of particular interest to *TV Flash Report* readers:

III. China Production and Sales Comparison (*K/M*) for March to April, 1999

		'99 March	April	May
14"	LOCAL Production	374	336	340
	LOCAL Sales	336	416	360
	Import → <i>CHN</i> Sales	50/ Daewoo	45/ Daewoo	60/ Daewoo
	IN CHN Total Sales	386	461	420
15"	LOCAL Production	288	264	313
	LOCAL Sales	258	277	300
	Import → <i>CHN</i> Sales	630(CPT/280,PHS/50, SDD/170,DW/60,LG/70)	480(CPT/120,PHS/70, SDD/150,DW/70,LG/70)	
	IN CHN Total Sales	888	757	

## IV. Explanation:

## 1. Samsung Electronics:

- (1) Shenzhen Samsung confirmed that the original 14" *CDT* production line will be converted into a 14" and 17" *CDT* single direction compatible production line, and that sales volume for April had increased (+30K), mainly as a result of increase in export orders.
- (2) It was planned that starting as May 1<sup>st</sup>; the *CU* will go from @ *RMB* 20 to @ *RMB* 480 (using a coefficient of 10.4 to calculate @ *USD* 46). The planning price for June will be confirmed later.
- (3) Concerning the disposition of *AOC*'s demand about *CDT* prices, in order to maintain the stability of overall *CDT* prices strictly, *SSDD* was advised to refrain from making disturbances that might start another war (especially with respect to *SSDD* ~ *PHS*).

## 2. Nanjing Huafei:

- (1) Huafei indicated: (1) the current 14" *CDT* price is lower than the cost; (2) 14" *CDT* inventory has been reduced; and (3) the effect of *CM* has meant that the production lines for the overall market for 14" will be reduced. It had already made a public announcement of 14" *CDT* price increases in two phases: (1) starting May 1<sup>st</sup>, *CU* @ *RMB*15, and (2) starting June 1<sup>st</sup>, onward, a price increase of *CU* @ *RMB*25, in order to dispel the top management dissatisfaction of *PHS* that 14" sale prices are too low and to respond to the *CU* @ *USD*3 request.

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

- (2) Manager Shao indicated that this month 14" *CDT* sales were good because some customers had heard of an imminent price increase and had placed their orders early. These customers were primarily domestic customers. (From my point of view, the increase in *HF* 14" orders is mainly a result of the increasing effectiveness of Chinese anti-smuggling activities. This has caused requirements for *VAT* invoices to increase, which has caused many of *ORION*'s original customers, such as Guangzhou Guangli and Hangzhou Jin Li Pu and other *CM* domestic sales customers to switch their orders).
- (3) It was also indicated that plans will be postponed for the conversion of the other 14" *CDT* line to 15" *CDT* at 6/E ~ 7/B, and replaced with conversion to a 17" *CDT* production line at '99/E. Starting '20/B, 2 to 3 15" *CDT* production lines will be moved from Taiwan to Huafei. Currently, there is one 14" and one 15" production line are kept.

3. IRICO: Requested that IRICO earnestly maintain its 15" transaction prices at the market level of its' customers, with the exception of Weihai Daewoo and Shenzhen Cai Huang, which transaction prices are categorized as intra-group dealings. It also stated that, because the key component *MASK* supply was smooth, 15" *CDT* production volumes increased by about 10K this month.

4. Kitamatsu: At present, the 14" *CDT* inventory is as high as 70K. The actual 15" *CDT* production plan has not yet become clear. During production in May, they will only use up inventory materials for 10K 14".

5. Daewoo: Tae-Sik Kong'R indicated that production cessation of 14" *CDT* might be postponed to September. 14" *CDT* prices will be CU@USD2 starting 4/E.

---

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

## V. Market Information Exchange

1. Overall sales of 15" *CDT* in China during April were lower than in March. Due to an increase in RMB transactions, the makers should conscientiously maintain their RMB transaction prices starting May 1st.
2. *SSDD/HF/ORION* have increased the 14" *CDT* price in order to bring it closer to the bottom price that had originally been set in discussions. *HF*'s Manager Shao said that he will contact *SDD*'s Department Manager Li by phone to discuss and confirm synchronized action for adjusting the price.

## VI. Conclusion

1. Due to the initial effectiveness of anti- smuggling activities in China, many previous import channels have been blocked. The requirements of *VAT* receipts for display tubes sold within *CM* China have increased. Since worldwide overall supplies of 14" and 15" *CDT* are still not balanced, the makers should fully use their domestic sales rights to adjust the market supply and demand situation pro-actively and reasonably. Since *SSDD/HF/IRICO* all operate in the *CDT/CPT* business, they have a competitive edge over *CPT* on the comprehensive tax levied on imported materials and parts and do not have any complaints about a RMB - USD exchange rate at a coefficient of 10.4.
2. *HF/ORION* have both delayed their original 14" *CDT* production conversion plans. The worldwide 14" *CDT* production capacity can be basically maintained. Will continue to observe the effectiveness of the *SSDD/HF/ORION* price increase for 14" *CDT*. Now the makers all base on their sales price as standard 15" *CDT* sales price that started May 1st, so as to effectively develop and expand *CPTF* in China's share of the *LOCAL* sales market.
3. Both *HF/SSDD* have proposed their 17" *CDT* development plans in China. With *TSDD/IRICO* 15" *CDT* production capacity further increasing, *LOCAL*ized supply and total domestic sales volume continue to increase day by day, it will gradually become the main size all for which makers compete in the China domestic sales market.
4. The next meeting will be hosted by *SDD* on 6/3. The location will be confirmed later.

- End of Report -

---

English words found in the original text are *italicized*.  
Translator's remarks are indicated in brackets [ ].

[Handwritten:]

After *HQ* complaining and applying pressure to *PHS*' and *SDD*'s top level management, the 14"/15" *CDT* domestic sales price as now rebound. Further watch over *PHS/SDD* to implement the actual target selling price set by the meeting.

Respectfully submitted to the President

## 三、'99.3~4月大陆产、销比较:(k/M)

		'99.3月	4月	5月
14"	LOCAL 产量	374	336	340
	LOCAL 销量	336	416	360
	进口-→CHN 销售量	50/大字	45/大字	60/大字
	IN CHN 总销量	386	461	420
15"	LOCAL 产量	288	264	313
	LOCAL 销量	258	277	300
	进口-→CHN 销售量	630(CPT/280,PHS/50, SDD/170,DW/60,LG/70)	480(CPT/120,PHS/70, SDD/150,DW/70,LG/70)	
	IN CHN 总销量	888	757	

## 四、说明:

## 1. 三星电子:

- (1) 深圳三星确定原 14"CDT 将改为 14"&17"CDT 单向兼容生产线, 4 月销量增加(+30K)主要是其外销订单增加所至。
- (2) 已拟定从 5/1 日起CU@RMB20到@RMB480(以 10.4 系数计折@USD46), 6 月拟价待定。
- (3) 鉴于 AOC 对 CDT 价格要求之秉性, 为彻底维护 CDT 整体价格的有效稳定, 奉劝 SSDD 切勿再搅混水以免再起战事(尤其是对 SSDD~PHS 而言)。

## 2. 南京华飞:

- (1) 华飞表示, 鉴于(1)现 14"CDT 实际售价已属低于成本价格, (2)14"CDT 库存降低, (3)整体 14"市况的生产线已为 CM 界所知将减少效应, 已对外宣称分两阶段调涨 14"CDT 售价为: (1)自 5/1 起CU@RMB15, (2)自 6/1 起CU@RMB25, 以此消除 PHS 上层对其 14"售价过低之不满及达成 CU@USD3要求。
  - (2) 邵经理表示, 本月 14"CDT 销售较好系因部分客户闻即将调涨价格而事先订购所至, 而该部分客户主要为内销客户。(依职以为, HF14"订单增加主因系大陆打私活动日趋见效, 对 VAT 发票要求增加, 原 ORION 主要客户如广州广利&杭州金利浦等 CM 内销客户转单所至)
  - (3) 另表示原将另一线 14"CDT 于 6/E~7/B 改产为 15"CDT 之计划延后, 取代为将于 99/E 改线为 17"CDT 生产线; 而另将从'20/B 开始自台湾移转 2~3 条 15"CDT 生产线到华飞。即仍现维持 14"/15"生产线各一条。
3. 彩虹: 要求彩虹除与威海大字及深圳彩皇交易价格属内部性质外, 应切实维持与其它家客户的 15"交易价格到市场要求水准。另表示由于关键零件 MASK 供应顺利, 本月 15"CDT 产量较前增加约 10K。

## 4. 北松:

现其 14"CDT 库存高达近 70K, 15"CDT 实际生产计划仍未明确; 5 月仅将库存的约 10K14"料件生产完成。

## 5. 大字:

孔泰植'R 表示 14"CDT 停产将可能推迟到 9 月份进行; 及 14"CDT 价格从 4/E 开始CU@USD2。

## 五、市场讯息交换：

1. 4月较3月15"CDT于大陆整体销量减少,但人民币交易量增加;各家切实从5/1起务必维护人民币交易价格。
2. SSDD/HF/ORION各自调高14"CDT价格以接近原议定的底价水准; HF邵经理表示将于5/13前与SDD李部长电洽,商订调整售价之同一步伐。

## 六、结论：

1. 由于大陆打私活动已初见效果,原进口渠道纷纷受阻,对内销CM所用的显示管之VAT发票要求增加;在14"/15"CDT全球整体供应仍未平衡状况下,各家应充分运用好手中的内销权,以起到主动、合理调整好市场供需局面。但由于SSDD/HF/IRICO系均为CDT/CPT兼营,在主要进口料件所征综合税负方面较CPT有竞争力,对以10.4为美金与人民币计价系数毫无怨言。
2. HF/ORION均延后原14"CDT改线计划,全球14"CDT产能仍基本维持,续观察SSDD/HF/ORION14"CDT价格调涨效应;在目前各家自5/1起统一15"CDT售价基础上,有效拓展CPTF于大陆LOCAL内销市场份额。
3. HF/SSDD现均已提出在大陆发展17"CDT计划;在TSDD/IRICO的15"CDT产能进一步提高下,LOCAL化供应及内销总量日渐加强,渐成为各家争夺大陆内销市场的主要尺寸。
4. 另下次会议预订于6/3由SDD主办。地点待定。

~以上报告~

此HQ对PHS及SDD高层抱怨措施, 14"/15" CDT  
 内销价格已具优势, 再请关重视 PHS/SDD 需求  
 族续论之目标售。

宋伟 5/10/99

敬呈 邵经理

Subject to Protective Order

U.S.D.C. (N.D. Cal.) No. M-07-5944 SC

In re Cathode Ray Tube (CRT) Antitrust Litigation

Pursuant to Rule 33 of the Federal Rules of Civil Procedure, Defendants Samsung SDI America, Inc., Samsung SDI Co. Ltd., Samsung SDI (Malaysia) Sdn. Bhd., Samsung SDI Mexico S.A. De C.V., Samsung SDI Brasil Ltda., Shenzhen Samsung SDI Co., Ltd., and Tianjin Samsung SDI Co., Ltd. (collectively, “Samsung SDI” or “the Samsung SDI Defendants”) hereby provide the following second supplemental responses to the First Set of Interrogatories propounded by the Direct Purchaser Plaintiffs (“Plaintiffs”):

**I.**

**GENERAL OBJECTIONS**

1. Samsung SDI and its counsel are continuing their investigation of this matter. Samsung SDI’s supplemental responses are based on information known as of this time. Samsung makes these supplemental responses without prejudice to its right to further supplement or amend them, as necessary, based on subsequently acquired information or knowledge, whether gained through Samsung SDI’s own continued investigation or the investigation of others.

2. Samsung SDI objects to each interrogatory, definition, or instruction to the extent it seeks information outside the scope of discovery authorized by the Court’s September 12, 2008, February 5, 2009, June 8, 2009, January 5, 2010, or October 27, 2010 Stay Orders (collectively, the Court’s “Discovery Stay Orders”).

3. Samsung SDI objects to Plaintiffs’ interrogatories, definitions and instructions to the extent that they seek the discovery of information regarding the sale of CRTs or finished products containing CRTs outside of the United States and unrelated to United States commerce, on the grounds that they are overbroad, unduly burdensome, irrelevant, and not reasonably calculated to lead to the discovery of admissible evidence. Such sales are beyond the scope of this litigation, outside the subject-matter jurisdiction of the antitrust laws of the United States, and beyond the jurisdiction or reach of the laws of any State.

Subject to Protective Order

U.S.D.C. (N.D. Cal.) No. M-07-5944 SC

In re Cathode Ray Tube (CRT) Antitrust Litigation

1                   4.       Samsung SDI objects to each interrogatory, definition, or instruction  
2 to the extent it seeks information regarding conduct outside the applicable statute(s) of  
3 limitations, on the grounds that such information is neither relevant to any claims or  
4 defenses in this litigation nor reasonably calculated to lead to the discovery of admissible  
5 evidence.

6                   5.       In making these responses, Samsung SDI does not concede the  
7 relevancy or materiality of any of Plaintiffs' interrogatories; nor does Samsung SDI  
8 concede the relevancy or materiality of any of the subjects to which those interrogatories  
9 relate or refer.

10                  6.       To the extent any interrogatory, definition or instruction may be  
11 construed as calling for the disclosure of privileged or immune information, including,  
12 without limitation, information subject to the attorney-client privilege, common-interest  
13 privilege, work-product doctrine, joint defense privilege, and/or relating to confidential  
14 plea or settlement negotiations, and/or any other privilege or immunity from discovery,  
15 Samsung SDI hereby claims such privileges and immunities and objects to the disclosure  
16 of any documents or information subject thereto. Any disclosure of privileged or protected  
17 documents, materials, or information is inadvertent and not intended to waive those  
18 privileges or protections.

19                  7.       Samsung SDI objects to any interrogatory, definition or instruction  
20 that calls for the disclosure of information that would violate the legitimate privacy rights  
21 and expectations of Samsung SDI employees, directors, officers, affiliates or subsidiaries,  
22 both current and former, or other individuals, to the extent that such privacy rights or  
23 expectations are protected by law, contract, or public policy.

24                  8.       To the extent any interrogatory, definition or instruction may be  
25 construed as requiring Samsung SDI to characterize documents or their contents or to  
26 speculate as to what documents may or may not show, Samsung SDI objects to such  
27 interrogatory, definition or instruction as vague, ambiguous and calling for legal  
28 conclusions and speculation.

Subject to Protective Order

U.S.D.C. (N.D. Cal.) No. M-07-5944 SC

In re Cathode Ray Tube (CRT) Antitrust Litigation

1           9.       A response by Samsung SDI that it will produce non-privileged  
2 documents with information responsive to an interrogatory located in the course of a  
3 reasonable search is not a representation that documents in that category exist, nor is such  
4 a response (or the production or identification of any documents in a particular category) a  
5 representation that Samsung SDI adopts, accepts, affirms or admits the assertions,  
6 contentions or definitions used or made in connection with the interrogatory.

7           10.      Samsung SDI objects to each and every interrogatory to the extent  
8 that it seeks information that is obtainable from some other source that is more convenient,  
9 less burdensome, or less expensive.

10          11.      Samsung SDI objects to each and every interrogatory, definition and  
11 instruction to the extent that it calls for the creation of documents or data compilations that  
12 do not exist or that are not ordinarily kept in the normal course of business.

13          12.      Samsung SDI objects to each and every interrogatory to the extent it  
14 is duplicative of or unreasonably cumulative to other discovery propounded and/or  
15 produced in this action.

16          13.      Samsung SDI objects to each and every interrogatory, definition and  
17 instruction to the extent it assumes disputed facts or legal conclusions. Samsung SDI  
18 hereby denies any disputed facts or legal conclusions assumed by each interrogatory,  
19 definition and instruction. Any response or objection herein is without prejudice to this  
20 objection and Samsung SDI's right to dispute facts and legal conclusions assumed by the  
21 interrogatories, definitions and instructions.

22          14.      Samsung SDI objects to each and every interrogatory, definition and  
23 instruction on each of the grounds set forth in the Samsung SDI Defendants' Responses to  
24 Direct Purchaser Plaintiffs' First Set of Interrogatories, dated May 12, 2010, and Samsung  
25 SDI Defendants' Supplemental Responses to Direct Purchaser Plaintiffs' First Set of  
26 Interrogatories, Nos. 4 & 5, dated October 17, 2011.

## I.

**OBJECTIONS TO CERTAIN DEFINITIONS**

In addition to its General Objections, Samsung SDI objects to certain of Plaintiffs' purported definitions as set forth below:

1. The term "Defendant" means defendants named in the Direct Purchaser Plaintiffs' Consolidated Amended Complaint and their present or former employees, officers, directors, agents, predecessors, successors, parents, subsidiaries, affiliates, joint ventures, or any other person acting on their behalf.

**Objection:** Samsung SDI objects that this purported definition is vague, ambiguous, overbroad, unintelligible, unduly burdensome and oppressive. Samsung SDI further objects to this definition as purporting to impose a greater burden on Samsung SDI than is otherwise permissible under the law, including without limitation the Federal Rules of Civil Procedure. Samsung SDI is incapable of providing information on behalf of persons and entities other than Samsung SDI. Samsung SDI further objects to this definition to the extent it calls for the disclosure of documents or information protected from discovery by the attorney-client privilege and/or work product doctrine.

3. The terms "You," "Your," and "Yourself" means defendant as defined herein.

**Objection:** Samsung SDI objects to these purported definitions on the same grounds as with respect to Plaintiffs' Definition No. 1, each of which objections is incorporated by this reference as though fully set forth herein.

5. The term "Employee" means any individual currently in the employ of, or at any time employed by, or acting as the agent of a defendant as defined herein.

**Objection:** Samsung SDI objects that this purported definition is vague, ambiguous, overbroad, unintelligible, unduly burdensome and oppressive. Samsung SDI further objects to this definition as purporting to impose a greater burden on Samsung SDI than is otherwise permissible under the law, including without limitation the Federal Rules of Civil Procedure. Samsung SDI is incapable of providing information on behalf of

1 persons and entities other than Samsung SDI. Samsung SDI further objects to this  
2 definition to the extent it calls for the disclosure of documents or information protected  
3 from discovery by the attorney-client privilege and/or work product doctrine.

4           6.       The term “CRT” means cathode ray tube(s) and “CRT Products”  
5 means products containing cathode ray tubes.

6           **Objection:** Samsung SDI objects that these purported definitions are vague,  
7 ambiguous, overbroad, unduly burdensome and oppressive. Samsung SDI also objects to  
8 these definitions to the extent they seek information that is neither relevant to any claims  
9 or defenses in this litigation nor reasonably calculated to lead to the discovery of  
10 admissible evidence.

11           7.       Unless otherwise noted, the term “Relevant Time Period” means the  
12 period from January 1, 1995 through the present.

13           **Objection:** Samsung SDI objects to this purported definition to the extent it  
14 calls for information regarding conduct outside the applicable statute(s) of limitations  
15 and/or continuing to the present on the grounds that it is overbroad, unduly burdensome,  
16 oppressive and seeks information that is neither relevant to any claims or defenses in this  
17 litigation nor reasonably calculated to lead to the discovery of admissible evidence.  
18 Samsung SDI further objects to this definition to the extent it purports to impose a greater  
19 burden on Samsung SDI than is otherwise permissible under the law, including without  
20 limitation the Federal Rules of Civil Procedure.

21           9.       The term “Date” means the exact day, month and year, if  
22 ascertainable, or the best available approximation, including any relationship to other  
23 known events (designate whether exact or approximate).

24           **Objection:** Samsung SDI objects that this purported definition is vague,  
25 ambiguous, overbroad, unintelligible, unduly burdensome and oppressive. Samsung SDI  
26 further objects to this definition as purporting to impose a greater burden on Samsung SDI  
27 than is otherwise permissible under the law, including without limitation the Federal Rules  
28 of Civil Procedure.

## II.

**OBJECTIONS TO INSTRUCTIONS**

In addition to its General Objections and Objections to Certain Definitions, Samsung SDI objects to Plaintiffs' purported instructions as follows:

1. When asked to identify a natural person, state the person's name, employer, position dates of employment/tenure, and home address for all times during the Relevant Time Period. If any of such information has changed during the relevant time period, specify the time period to which the information provided in your answer pertains.

**Objection:** Samsung SDI objects to this purported instruction on the grounds that it is overbroad, unduly burdensome, unreasonable and inconsistent with common usage of the term "identify." Samsung SDI further objects to this instruction to the extent it calls for the disclosure of information that would violate the legitimate privacy rights and expectations of Samsung SDI's employees, directors, officers, affiliates, and subsidiaries, both current and former, and other individuals. Samsung SDI's current employees may be contacted through undersigned counsel for Samsung SDI. Samsung SDI further objects to this instruction as purporting to impose a greater burden on Samsung SDI than is otherwise permissible under the law, including without limitation the Federal Rules of Civil Procedure.

2. When asked to identify any entity other than a natural person, state the name and address of the principal office or headquarters. If any of the information has changed during the Relevant Time Period, specify the time period to which the information provided in your answer pertains.

**Objection:** Samsung SDI objects to this instruction on the grounds that it is overbroad, unduly burdensome, unreasonable and inconsistent with common usage of the term "identify." Samsung SDI further objects to this instruction as purporting to impose a greater burden on Samsung SDI than is otherwise permissible under the law, including without limitation the Federal Rules of Civil Procedure.

U.S.D.C. (N.D. Cal.) No. M-07-5944 SC

In re Cathode Ray Tube (CRT) Antitrust Litigation

1                   3.       If the responding party elects to produce business records in response  
2 to an interrogatory pursuant to Federal Rule of Civil Procedure 33(d), the responding party  
3 shall produce the records as they are kept in the usual course of business or shall organize  
4 and label them to corresponding with the interrogatory. If the document is being produced  
5 in its native electronic format (allowing the document to retain its metadata), identify the  
6 document using its hash or other appropriate electronic identification and identify to the  
7 interrogatories to which the document is responsive. If the document is not being  
8 produced in electronic form, identify the document using the applicable bates numbers or  
9 specifically identify the type of document being produced (e.g., letter, memorandum,  
10 telegram, contract, invoice, etc.), its date and author(s), its custodian, and every person to  
11 whom such document or any copy thereof was given or sent. For all documents produced  
12 pursuant to Rule 33(d), identify the name of the employee, officer, or agent certifying the  
13 documents as business records.

14                   **Objection:** Samsung SDI objects to this instruction on the grounds that it is  
15 overbroad, unduly burdensome, unreasonable and oppressive. Samsung SDI further  
16 objects to this instruction as purporting to impose a greater burden on Samsung SDI than is  
17 otherwise permissible under the law, including without limitation the Federal Rules of  
18 Civil Procedure.

### 19                   III.

#### 20                   **SECOND SUPPLEMENTAL RESPONSES TO INTERROGATORIES**

21                   Subject to the foregoing General Objections, Objections to Certain  
22 Definitions and Objections to Instructions, Samsung SDI hereby provides the following  
23 second supplemental responses to Plaintiffs' interrogatories:

24                   Samsung SDI's second supplemental responses herein supplement, amend  
25 and supersede its prior responses and supplemental responses to Direct Purchaser  
26 Plaintiffs' First Set of Interrogatories, Nos. 4 & 5, and to the extent any conflict exists  
27 between such responses, supplemental responses and/or these second supplemental  
28 responses, these second supplemental responses are intended to and shall control.

U.S.D.C. (N.D. Cal.) No. M-07-5944 SC

In re Cathode Ray Tube (CRT) Antitrust Litigation

1 Samsung SDI's second supplemental responses to these interrogatories are  
2 subject to the provisions of the Stipulated Protective Order, entered by the Court on  
3 June 18, 2008, (Doc. 306) (the "Protective Order"). Samsung SDI's second supplemental  
4 responses are hereby designated "Confidential" in accordance with the provisions of the  
5 Protective Order.

6 **INTERROGATORY NO. 4:**

7 Identify each actual or proposed agreement between You and any producer  
8 of CRT and/or CRT Products, including the named defendants in this coordinated  
9 proceeding, relating to prices, pricing, production or inventory levels of CRT and/or CRT  
10 Products during the relevant time period. Agreements shall include drafts. For every such  
11 actual or proposed agreement state:

- 12 (a) the identity of the participants and all persons with knowledge  
13 thereof;
- 14 (b) when such agreement was entered into;
- 15 (c) where such agreement was entered into;
- 16 (d) the terms of such agreement, and
- 17 (e) when, how and which of your officers, directors or employees  
18 discovered the existence of such agreement.

19 **SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 4:**

20 In addition to its General Objections, Objections to Certain Definitions and  
21 Objections to Instructions, each of which is incorporated by this reference as though fully  
22 set forth herein, Samsung SDI objects to this interrogatory to the extent that it seeks  
23 privileged or immune information, including without limitation information subject to the  
24 attorney-client privilege, common-interest privilege, work-product doctrine, joint defense  
25 privilege, and/or relating to confidential plea or settlement negotiations, and/or any other  
26 privilege or immunity. Samsung SDI further objects to this interrogatory on the grounds  
27 that it is vague and ambiguous, including without limitation as to the phrase "actual or  
28 proposed agreement" as used in this interrogatory, and on the grounds and to the extent

~~Confidential~~**Subject to Protective Order****U.S.D.C. (N.D. Cal.) No. M-07-5944 SC****In re Cathode Ray Tube (CRT) Antitrust Litigation**

1 that it calls for legal conclusions. Samsung SDI also objects to this interrogatory to the  
2 extent it seeks information regarding conduct outside the applicable statute(s) of  
3 limitations and/or continuing to the present on the grounds that it is overbroad, unduly  
4 burdensome, oppressive and seeks information that is neither relevant to any claims or  
5 defenses in this litigation nor reasonably calculated to lead to the discovery of admissible  
6 evidence. Samsung SDI further objects to this interrogatory to the extent it seeks the  
7 discovery of information regarding the sale of CRTs or finished products containing CRTs  
8 outside of the United States and unrelated to United States commerce, on the grounds that  
9 it is overbroad, unduly burdensome, irrelevant, and not reasonably calculated to lead to the  
10 discovery of admissible evidence. Such sales are beyond the scope of this litigation,  
11 outside the subject-matter jurisdiction of the antitrust laws of the United States, and  
12 beyond the jurisdiction or reach of the laws of any State. Samsung SDI also objects to this  
13 interrogatory to the extent it seeks information or documents in the possession, custody or  
14 control of Plaintiffs, or that are equally or more readily available to Plaintiffs from other  
15 defendants, third parties or otherwise. Samsung SDI further objects to this interrogatory  
16 on the grounds that it is overbroad, unduly burdensome, and oppressive, and seeks  
17 documents and information that are neither relevant to any claims or defenses in this  
18 litigation nor reasonably calculated to lead to the discovery of admissible evidence.

19           Subject to and without limiting each of these objections, Samsung SDI  
20 responds as follows: Samsung SDI typically agreed with its various CRT customers on the  
21 pricing, volume and other particulars of its CRT sales to each such customer. Many of  
22 Samsung SDI's CRT customers are and/or were either defendants in this litigation or  
23 manufacturers of CRTs or CRT finished products. Based on Samsung SDI's present  
24 knowledge following a reasonable and non-exhaustive search and inquiry, Samsung SDI  
25 identifies the following documents reflecting or pertaining to these sales agreements:  
26 SDCRT-0021295-0021308; SDCRT-0083118; SDCRT-0083119; SDCRT-0083119.2;  
27 SDCRT-0094331; SDCRT-0106150-61; SDCRT-0111289-300; SDCRT-0120282-93;  
28 SDCRT-0146741-52; SDCRT-0149383-90; SDCRT-0149393-404; SDCRT-0157632-33;

In addition, during certain periods of time from January 1997 to March 2006, Samsung SDI engaged in discussions and attended meetings with other CRT suppliers that resulted in agreements to fix the prices, reduce output, and allocate market shares for certain color display tubes (“CDTs”) sold in the United States, affecting sales by Samsung SDI to the following customers: Princeton Display Technologies, Inc., Telco International Corporation, UTI Technology, Inc. and Video Display Corporation. Based on Samsung SDI’s present knowledge following a reasonable and non-exhaustive search and inquiry, Samsung SDI identifies the following documents reflecting or pertaining to these discussions, meetings or agreements: SDCRT-0006041-6042; SDCRT-0087130-87134; and SDCRT-0087379-87380. *See also* Amended Plea Agreement, *United States of America v. Samsung SDI Company, Ltd.*, Case 3:11-cr-00162-WHA, Docket No. 40-1.

Samsung SDI’s discovery and investigation are continuing, and Samsung SDI reserves the right to further supplement, amend, correct, or clarify this response, as necessary, based on subsequently acquired information or knowledge, whether gained through Samsung SDI’s own continued investigation or the investigation of others.

**INTERROGATORY NO. 5:**

Identify any meeting or communication between You and other producers of CRT and/or CRT Products during the Relevant Time Period, including the named Defendants in this coordinated proceeding, regarding CRT and/or CRT Product pricing, price increase announcements, terms or conditions of sales, profit margins or market share, production levels, inventory, customers, auctions, reverse auctions, dynamic bidding

1 events, or sales, and for each such meeting or communication:

2 (a) provide the date and location of the meeting or communication;

3 (b) identify the person(s) who initiated, called, organized, attended or  
4 participated in the meeting or communication;

5 (c) describe the subject matter discussed and any information you  
6 provided or received;

7 (d) describe every action taken by you as a result of the meeting or  
8 communication; and

9 (e) identify all persons with knowledge relating to the meeting or  
10 communication.

11 **SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 5:**

12 In addition to its General Objections, Objections to Certain Definitions and  
13 Objections to Instructions, each of which is incorporated by this reference as though fully  
14 set forth herein, Samsung SDI objects to this interrogatory to the extent that it seeks  
15 privileged or immune information, including without limitation information subject to the  
16 attorney-client privilege, common-interest privilege, work-product doctrine, joint defense  
17 privilege, and/or relating to confidential plea or settlement negotiations, and/or any other  
18 privilege or immunity. Samsung SDI further objects to this interrogatory on the grounds  
19 that it is vague and ambiguous. Samsung SDI also objects to this interrogatory to the  
20 extent it seeks information regarding conduct outside the applicable statute(s) of  
21 limitations and/or continuing to the present on the grounds that it is overbroad, unduly  
22 burdensome, oppressive and seeks information that is neither relevant to any claims or  
23 defenses in this litigation nor reasonably calculated to lead to the discovery of admissible  
24 evidence. Samsung SDI further objects to this interrogatory to the extent it seeks the  
25 discovery of information regarding the sale of CRTs or finished products containing CRTs  
26 outside of the United States and unrelated to United States commerce, on the grounds that  
27 it is overbroad, unduly burdensome, irrelevant, and not reasonably calculated to lead to the  
28 discovery of admissible evidence. Such sales are beyond the scope of this litigation,

~~Confidential~~

U.S.D.C. (N.D. Cal.) No. M-07-5944 SC

In re Cathode Ray Tube (CRT) Antitrust Litigation

1 outside the subject-matter jurisdiction of the antitrust laws of the United States, and  
2 beyond the jurisdiction or reach of the laws of any State. Samsung SDI also objects to this  
3 interrogatory to the extent it seeks information or documents in the possession, custody or  
4 control of Plaintiffs, or that are equally or more readily available to Plaintiffs from other  
5 defendants, third parties or otherwise. Samsung SDI further objects to this interrogatory  
6 on the grounds that it is overbroad, unduly burdensome, and oppressive, and seeks  
7 documents and information that are neither relevant to any claims or defenses in this  
8 litigation nor reasonably calculated to lead to the discovery of admissible evidence.

9           Subject to and without limiting each of these objections, Samsung SDI  
10 responds as follows: During the period of March 1, 1995 to November 8, 2007, Samsung  
11 SDI occasionally met or communicated with other manufacturers of CRTs and/or CRT  
12 finished products, many of which were Samsung SDI's CRT customers. These meetings  
13 and/or communications were for a variety of purposes, including potential and actual  
14 supplier-customer relationships and sales, exploration of and exchange of technical  
15 information, attendance at industry trade association events, and sharing of general  
16 industry information. The vast majority of these meetings and/or communications did not  
17 concern the U.S. markets for CRTs or CRT finished products, and had no effect on those  
18 markets.

19           Based on Samsung SDI's present knowledge following a reasonable and  
20 non-exhaustive search and inquiry, Samsung SDI identifies the following documents with  
21 information potentially responsive to this Interrogatory: SDCRT-0002478-87; SDCRT-  
22 0002488-89; SDCRT-0002490-99; SDCRT-0002506-10; SDCRT-0002511-13; SDCRT-0002514;

In addition, following a reasonable and non-exhaustive search and inquiry,  
 Samsung SDI also is presently aware of the following potentially responsive meetings  
 and/or communications involving Samsung SDI that may not be reflected, in whole or in  
 part, in the foregoing documents:

2/14/1995	Information exchange between Mr. Hoo-Mok Ha, Mr. Sung-Kook Sung, Mr. Lak-Jin Kim (SDI); Mr. Chung-Bae Kim, Mr. Chang-Ki Kim, Mr. Moon-Bong Choi (G/S); Mr. Wall-Sup Kim, Mr. Sang-Chul Yoon, Mr. Yong-Kyu Oh (Orion) concerning production, internal supply and strategies for France, Vietnam, Mexico, China, Indonesia and India markets.
3/13/1995	Discussion in Korea between Mr. Oh-Sung Kwon, Mr. Dae-Eui Lee (SDI); Mr. Young-Jae Kim, Mr. Jin-Sung Kim (Orion) regarding Orion plants and potential plants in Mexico, Vietnam, France and South Africa; production status at Orion Gumi plant.
11/8/1995	Meeting in Malaysia between Mr. D.E. Lee (SDI) and CPT, regarding CPT's production and LG line status in China, Indonesia and Korea.

~~Confidential~~**Subject to Protective Order****U.S.D.C. (N.D. Cal.) No. M-07-5944 SC****In re Cathode Ray Tube (CRT) Antitrust Litigation**

1 2/12/1996 Meeting in Malaysia with CPT regarding status of customers in  
2 Malaysia, Singapore, Thailand, Indonesia, and others.

3 3/19/1996 Meeting in Malaysia with Mr. D.E. Lee (SDI) and CPT regarding  
4 production and customer status in Malaysia, Singapore, Thailand and  
5 Indonesia.

6 10/17/1996 Meeting in Korea with Mr. Dong-Hoon Lee, Mr. Dae-Eui Lee, Mr.  
7 Hun-Sul Chu(SDI); Mr. Bok-il Chung/Jung/Jeong, Mr. Sang-Chul  
8 Yoon, Mr. Dae-Sik Lee (Orion); Mr. Chang Ki Kim, Mr. Chul Ho  
9 Lee (LG), exchange of market information.

10 11/25/1996 Meeting in Korea with Mr. D.E. Lee (SDI), LG and Orion, regarding  
11 large-size quantities, market information and Funai.

12 12/6/1996 Meeting in Malaysia with Mr. D.E. Lee (SDI) and Mr. Moon (CPT)  
13 regarding inventory levels; sales quantities of 14", 20" and 21";  
14 prices for MTC, SREC, Aiwa, Thomson, Funai.

15 12/21/1996 Discussion with Mr. D.E. Lee (SDI) and CPT regarding line capacity  
16 and inventory.

17

18 3/28/1997 Meeting in Malaysia with Mr. S. K. Park, Mr. D. E. Lee (SDI); Mr.  
19 Jason Lu (CPT); Mr. Byung-Koo Jeon (LG) regarding market  
20 information regarding Funai, Orion and SREC.

21 4/8/1997 Visit from Mr. Aoki (MEC) to Mr. Dong Hoon Lee (SDI) in Korea,  
22 regarding market for large sizes of CPT in Japan.

23 4/16/1997 Meeting in Korea with Mr. Young-Woo Lee, Mr. Dong-Hoon Lee,  
24 Mr. Chang-Wha Jang, Mr. Dae-Eui Lee (SDI); Mr. Kim, Mr. Moon-  
25 Bong Choi, Mr. Young-Ik Jung, Mr. Chul-Ho Lee (LG); Mr. Boo-Il  
26 Jung, Mr. Sang-Chul Yoon, Mr. Yong-Kyu Oh (Orion) regarding  
27 inventory levels and production status, sales volume and price to  
28 Funai, SREC, Sanyo, Matsushita.

~~Confidential~~**Subject to Protective Order****U.S.D.C. (N.D. Cal.) No. M-07-5944 SC****In re Cathode Ray Tube (CRT) Antitrust Litigation**

1 5/7/1997 Meeting in Korea with Mr. D. E. Lee (SDI); Mr. Shin-Yim Lee (?);  
2 Mr. Yukihiro Kimura (Sumitomo); Mr. Tomita (Toshiba) regarding  
3 China market, production, price and market information.

4 5/27/1997 Meeting in Korea with Mr. K. H. Lee, Mr. D. H. Lee, Mr. D. E. Lee,  
5 Mr. C. M. Na, Mr. J. S. Uh (SDI); Mr. Wakayama, Mr. Kimura  
6 (Toshiba); Mr. Tomita (Sumitomo) to discuss market conditions for  
7 14" CPT, 29" CPT and wide.

8 8/19/1997 Information exchange, possibly in Malaysia, between Mr. Sang-Kyu  
9 Park, Mr. Young-Sub Moon (SDI); Mr. J. Lu, Ms. Christina (CPT)  
10 regarding estimates of sales volume results and costs.

11 11/3/1997 Communication with Philips, Thomson and others re purpose and  
12 membership of EECA European Forum for CRT.

13 12/16/1997 Meeting with Mr. Dong-Hoon Lee, Mr. Chang-Hwa Jang , Mr. Dae-  
14 Eui Lee (SDI); Mr. Yong-Ik Jung, Mr. Seung-Yul Shin (LG); Mr.  
15 Bock-Il Jung, Mr. Yong-Kyu Oh, Mr. Dae-Sik Lee (Orion) in Korea  
16 regarding Sharp, Sanyo, Mitsubishi, Toshiba and JVC; large-size  
17 tube business; and market information.

18 12/29/1997 Meeting in Korea with Mr. D.E. Lee (SDI); Orion; and LG,  
19 regarding recent trends, production and sales volumes.

20 3/1/1998 Information exchange in Japan between Seung Chul Choi (SDI) and  
21 one or more Japanese CRT manufacturers.

22 5/4/1998 Discussion in Korea with Mr. Kwang Ho Lee, Mr. D. E. Lee (SDI);  
23 Mr. Kim (Orion); Mr. Jung (LG) regarding production, production  
24 lines, inventory and general trend of lower prices.

**VERIFICATION**

I, Yongtae Kim, am a Vice President, Samsung SDI Co., Ltd., and am authorized to make this Verification on Samsung SDI's behalf. I have read the attached Samsung SDI Defendants' Second Supplemental Responses to Direct Purchaser Plaintiffs' First Set of Interrogatories, Nos. 4 and 5, and know its contents. I am informed and believe that the matters and things stated therein are true, and upon that ground allege that the matters and things stated therein are true.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on November 25, 2013, at Yongin-si, Korea.

Yongtae Kim

**Attorneys for Defendants Panasonic Corporation of North America, MT Picture Display Co., Ltd., and Panasonic Corporation (f/k/a Matsushita Electric Industrial Co., Ltd.)**

**UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA  
SAN FRANCISCO DIVISION**

**In Re CATHODE RAY TUBE (CRT)  
ANTITRUST LITIGATION**

This Document Relates to:  
  
DIRECT PURCHASER ACTION

No.: M-07-5944 SC—MDL NO. 1917

**SECOND SUPPLEMENTAL RESPONSES  
AND OBJECTIONS OF PANASONIC  
CORPORATION OF NORTH AMERICA,  
MT PICTURE DISPLAY CO., LTD., AND  
PANASONIC CORPORATION (F/K/A  
MATSUSHITA ELECTRIC INDUSTRIAL  
CO., LTD.) TO DIRECT PURCHASER  
PLAINTIFFS' FIRST SET OF  
INTERROGATORIES**

Pursuant to Rules 26 and 33 of the Federal Rules of Civil Procedure, and further to the meet and confer discussions conducted with Direct Purchaser Plaintiffs ("Plaintiffs") to date, Defendants Panasonic Corporation of North America ("PNA"), MT Picture Display Co., Ltd. ("MTPD"), and Panasonic Corporation, f/k/a Matsushita Electric Industrial Co., Ltd. ("Panasonic Corp." and together with PNA and MTPD, the "Panasonic Defendants"), hereby supplement their prior responses and objections to Plaintiffs' First Set of Interrogatories, dated March 12, 2010 ("Interrogatories").

All responses and objections, including general objections, contained in the Panasonic Defendants' Responses and Objections to Plaintiffs' Interrogatories, dated May 12, 2010, and Supplemental Responses and Objections to Plaintiffs' Interrogatories, dated December 17, 2010, are incorporated by reference as if fully set forth herein. The Panasonic Defendants expressly reserve the right to supplement, clarify, revise, or correct the responses herein, and to assert additional general and/or specific objections to the Interrogatory, at any time.

#### **INTERROGATORY NO. 5**

Identify any meeting or communication between You and other producers of CRT and/or CRT Products during the Relevant Time Period, including the named Panasonic Defendants in this coordinated proceeding, regarding CRT and/or CRT Product pricing, price increase announcements, terms or conditions of sales, profit margins or market share, production levels, inventory, customers, auctions, reverse auctions, dynamic bidding events, or sales, and for each such meeting or communication:

- (a) provide the date and location of the meeting or communication;
- (b) identify the person(s) who initiated, called, organized, attended or participated in the meeting or communication;
- (c) describe the subject matter discussed and any information you provided or received;
- (d) describe every action taken by you as a result of the meeting or communication; and
- (e) identify all persons with knowledge relating to the meeting or communication.

#### **SECOND SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 5**

Subject to and without waiver of the objections asserted by the Panasonic Defendants in their May 12, 2010 responses and December 17, 2010 supplemental responses, the Panasonic

1 Defendants restate their objection to Interrogatory No. 5 on the grounds that it is vague,  
2 ambiguous, overly broad, and unduly burdensome. Further, the Panasonic Defendants object  
3 because Interrogatory No. 5 seeks information that is neither relevant nor reasonably calculated to  
4 lead to the discovery of admissible evidence. Interrogatory No. 5 is overly broad and unduly  
5 burdensome because it seeks information about every meeting and communication involving a  
6 Panasonic Defendant and any other producers of CRTs and CRT finished products (including  
7 Panasonic entities) relating to any sale of any CRT or CRT finished product, including captive  
8 sales between Panasonic group companies. In addition, certain of the Panasonic Defendants have  
9 participated in trade associations, joint ventures, and other common, legitimate business activities  
10 that necessarily involved communications with producers of CRTs and CRT finished products  
11 regarding certain of the subjects set forth in Interrogatory No. 5, the vast majority of which have  
12 no relevance to the claims in this litigation. Finally, as there are no longer any allegations in the  
13 case claiming a conspiracy with respect to the sale of CRT finished products, the Panasonic  
14 defendants object to this request to the extent that it seeks information about meetings with other  
15 companies not related to the sale of CRTs, as opposed to CRT finished products.

16  
17 Subject to and without waiver of any of the above objections, the Panasonic Defendants  
18 state that neither PNA, nor Panasonic Corporation, nor MTPD participated in any meeting with  
19 competitors in which any agreement was reached with respect to the sale, distribution or pricing  
20 of CRTs in the United States.

21  
22 The Panasonic Defendants further state that during the Limitations Period, Panasonic  
23 Industrial Company, an unincorporated division company of PNA, acted as the U.S. sales agent in  
24 connection with sales of CRTs to television or monitor manufacturers, but only until April 2004,  
25 at which time the sales function for the U.S. was completely taken over by the manufacturing  
26 subsidiaries. In any event, PNA did not have any meetings or communications with CRT  
27 manufacturers or sellers in which it agreed upon the prices or allocated the production or  
28 customers of any CRTs sold in the United States.

1  
2 As for Panasonic Corporation, it ceased the manufacture and sale of CDTs no later than  
3 2001, and exited the CPT business in March 2003. Prior to its exit from the CDT and CPT  
4 businesses, respectively, Panasonic Corp. did not have any meetings or communications with  
5 manufacturers or sellers of CDTs or CPTs in which it agreed upon the prices or allocated the  
6 production or customers for CDTs or CPTs sold in the United States.

7  
8 As for MTPD, it never manufactured or sold CDTs. It entered the CPT business in  
9 April of 2003, upon its formation as a joint venture owned by Panasonic Corporation and Toshiba  
10 Corporation. MTPD never had any meetings with other manufacturers or sellers of CPTs in which  
11 it agreed upon the prices or allocated the production or customers for CPTs sold in the United  
12 States.

13  
14 Panasonic Corporation and MTPD did have some meetings and communications with  
15 competitors in the CRT business that are referenced in the documents identified below.  
16 However, Panasonic Corporation and MTPD did not agree during any of these meetings or  
17 communications to fix the prices or allocate the production or customers of any CRTs sold in the  
18 United States.

19  
20 The Panasonic Defendants have conducted a reasonable search for information responsive  
21 to Interrogatory No. 5, pursuant to which certain meetings and communications between certain  
22 of the Panasonic Defendants and other producers of CRTs have been identified, including trade  
23 association activities; customer and supplier communications; the negotiation, establishment and  
24 governance of the MTPD joint venture; information exchanges regarding market conditions;  
25 meetings by MTPD regarding certain Asian markets and Asian market customers (which did not  
26 relate to CRT sales in the United States); and other communications regarding possible  
27 transactions. Pursuant to Rule 33(d), Panasonic is providing responsive information to the  
28 Interrogatory regarding these meetings and communications by identifying the produced

1 documents listed in Exhibit A attached hereto. As stated above, these communications and  
2 meetings did not result in any agreement to fix prices or allocate the production or customers of  
3 CRTs sold in the United States.

4  
5 With respect to trade association meetings, Panasonic Corporation and MTPD did  
6 participate in certain trade associations relating to CRTs. During the course of the activities in  
7 these trade associations, Panasonic Corporation and MTPD had occasion to communicate and  
8 meet with other manufacturers of CRTs regarding legitimate trade association subject matter.  
9 The activities of these trade associations typically concerned matters of general interest to the  
10 relevant industry, such as CRT market trends, global supply and demand conditions, developing  
11 best practices, lobbying with respect to government regulations, and technical standards to  
12 promote product interoperability. These communications and meetings did not result in any  
13 agreement to fix prices or allocate the production or customers of CRTs sold in the United States.

14  
15 In Japan, Panasonic Corporation, and later MTPD, were members of the Japan Electronics  
16 and Information Technology Industries Association ("JEITA"), a trade association established in  
17 conjunction with the Japanese government to promote manufacturing, international trade and  
18 consumption of electronic products and components. JEITA participants discussed production  
19 levels of CRTs in Japan, manufacturing trends, and regulatory systems. None of these meetings  
20 resulted in any agreement to fix prices or allocate production or customers for CRTs sold in the  
21 United States.

**VERIFICATION**

I, Shinichi Miyoshi, am on the Planning & Compliance Promotion Team of the Legal Affairs Group, AVC Networks Company, Panasonic Corporation, and I have been authorized to make this verification on behalf of Panasonic Corporation. I have read the Second Supplemental Responses and Objections of Panasonic Corporation of North America, MT Picture Display Co., Ltd and Panasonic Corporation (F/K/A/ Matsushita Electric Industrial Co., Ltd.) to Direct Purchaser Plaintiffs' First Set of Interrogatories ("Second Supplemental Responses") and hereby declare that, with respect to Panasonic Corporation, the Second Supplemental Responses are either true to the best of my personal knowledge or were assembled by authorized employees or agents of Panasonic Corporation who inform me that the facts as to which I do not have personal knowledge are true to the best of that person's or those persons' knowledge and belief.

I declare under the penalty of perjury that the facts set forth in the document described above are true and correct.

Executed at Osaka, Japan on November 2, 2011.

  
Shinichi Miyoshi

**VERIFICATION**

I, Robert S. Marin, am Vice President and General Counsel of Panasonic Corporation of North America ("PNA"), and I have been authorized to make this verification on behalf of PNA. I have read the Second Supplemental Responses of Panasonic Corporation of North America, MT Picture Display Co., Ltd and Panasonic Corporation (F/K/A/ Matsushita Electric Industrial Co., Ltd.) to Direct Purchaser Plaintiffs' First Set of Interrogatories ("Second Supplemental Responses") and hereby declare that, with respect to PNA, the Second Supplemental Responses are either true to the best of my personal knowledge or were assembled by authorized employees or agents of PNA who inform me that the facts as to which I do not have personal knowledge are true to the best of that person's or those persons' knowledge and belief.

I declare under the penalty of perjury under the laws of the United States of America that the facts set forth in the document described above are true and correct.

Executed at SECAUCUS NJ on November 1, 2011.
